INTRODUCTION

The *Risk Factors for Adolescent Drug and Alcohol Abuse in Arkansas – 2019* report demonstrates the Arkansas Department of Human Services (DHS) Division of Aging, Adult and Behavioral Health Services' (DAABHS) and UA Little Rock MidSOUTH's continued commitment to help Arkansans live productive lives, free from the abuse of alcohol, tobacco and other drugs. The *Risk Factors* report has provided reliable behavioral health data and information for community and government leaders for more than 10 years. The data presented in the report are used to plan and inform prevention programs.

The organization and content of *Risk Factors* are based on the work of J. David Hawkins and Richard F. Catalano of the Social Development Research Group at the University of Washington. Through their research, certain conditions in children's community, school, family and peer environments, as well as individual characteristics, were identified as common risk factors for social problems like drug abuse, delinquency, adolescent pregnancy and failure in school. The data in this report have been selected as indicators of the risk factors identified by their research.

Risk Factors for Adolescent Drug and Alcohol Abuse in Arkansas was developed in cooperation with DAABHS and UA Little Rock MidSOUTH, with federal funds from the Substance Abuse and Treatment Block Grant, Substance Abuse and Mental Health Services Administration and the U.S. Department of Health and Human Services.

Risk Factors is designed to be a tool for Arkansas' 13 regional prevention providers and other prevention leaders to increase the effectiveness of regional, county and community efforts to prevent the abuse of alcohol, tobacco and other drugs. Before applying the information presented in this report at the county level, it is important to have knowledge about local conditions, risks and resources as well as local prevention services already in place. Risk factors exist in different environments (i.e. community, family, school and peer/individual) and are grouped into domains accordingly.

Through providing the most recent data available and working with community and prevention leaders, we hope to decrease the incidence of substance abuse, depression, violence and other problem behaviors in children.

The 13 regional prevention providers were established by DAABHS and UA Little Rock MidSOUTH to promote alcohol, tobacco and other drug prevention efforts at the regional, county and community levels. Prevention providers respond to the needs of particular geographic regions and support the work of anti-drug coalitions, community organizations and institutions, constituency groups, and citizens to address prevention at the community level.

Percentage of Children, 2018

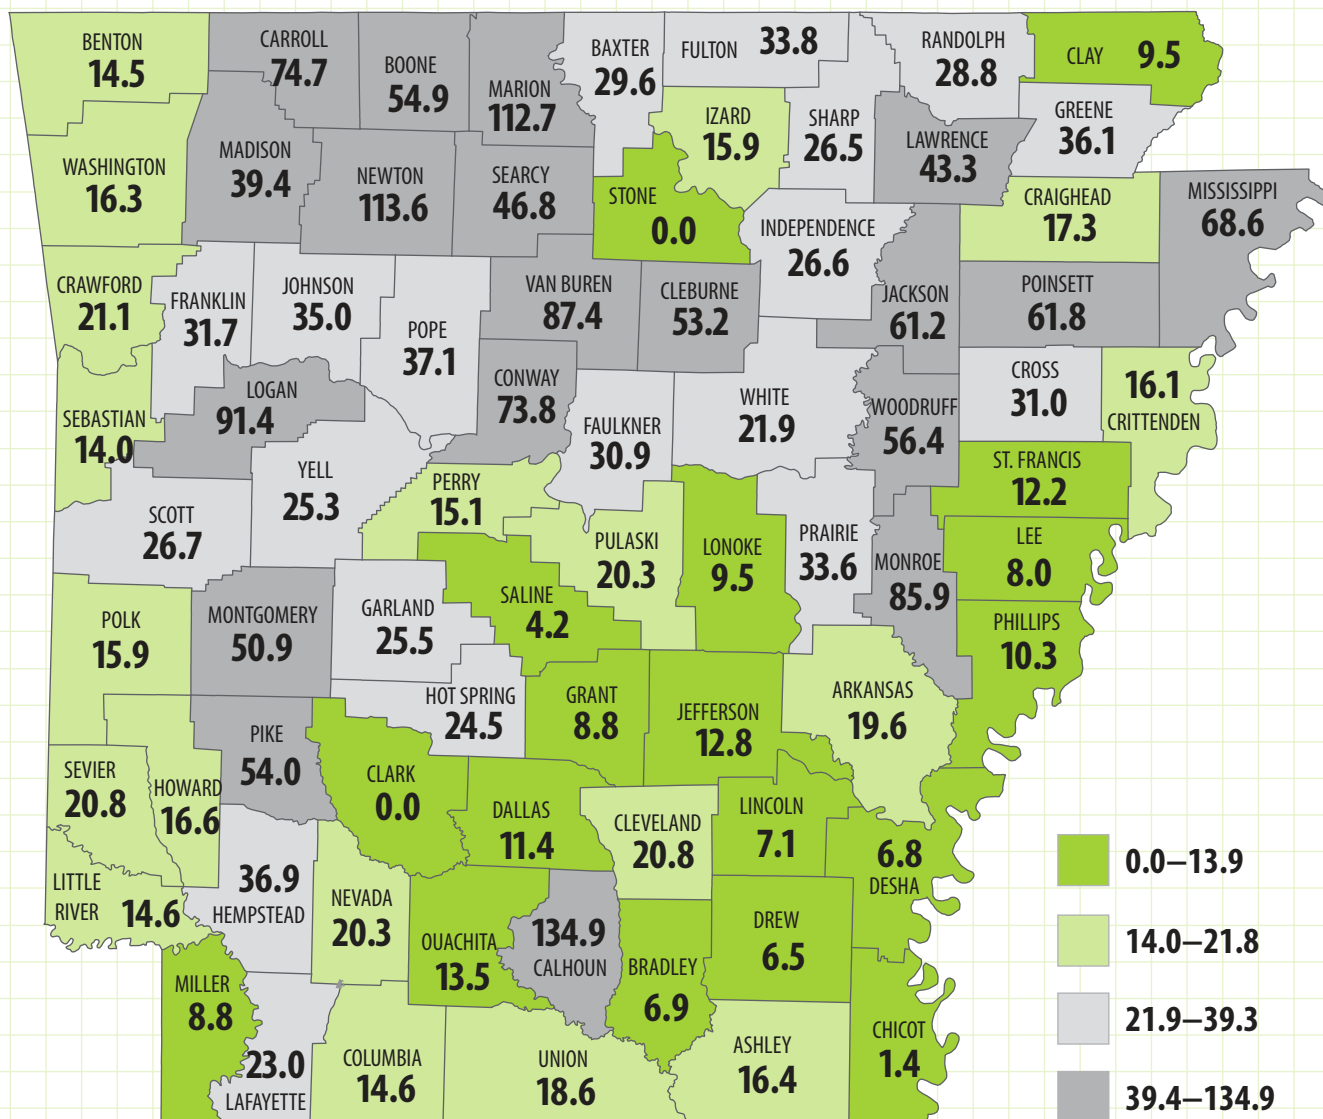

| | |
|-------------------|---|
| DEFINITION | Percentage of Arkansas population under age 18 of total population |
| SOURCE | National Center for Health Statistics (https://www.cdc.gov/nchs/nvss/bridged_race/data_documentation.htm) |
| STATE RATE | 23.3% |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Homeless Children Enrolled in Public School, 2018

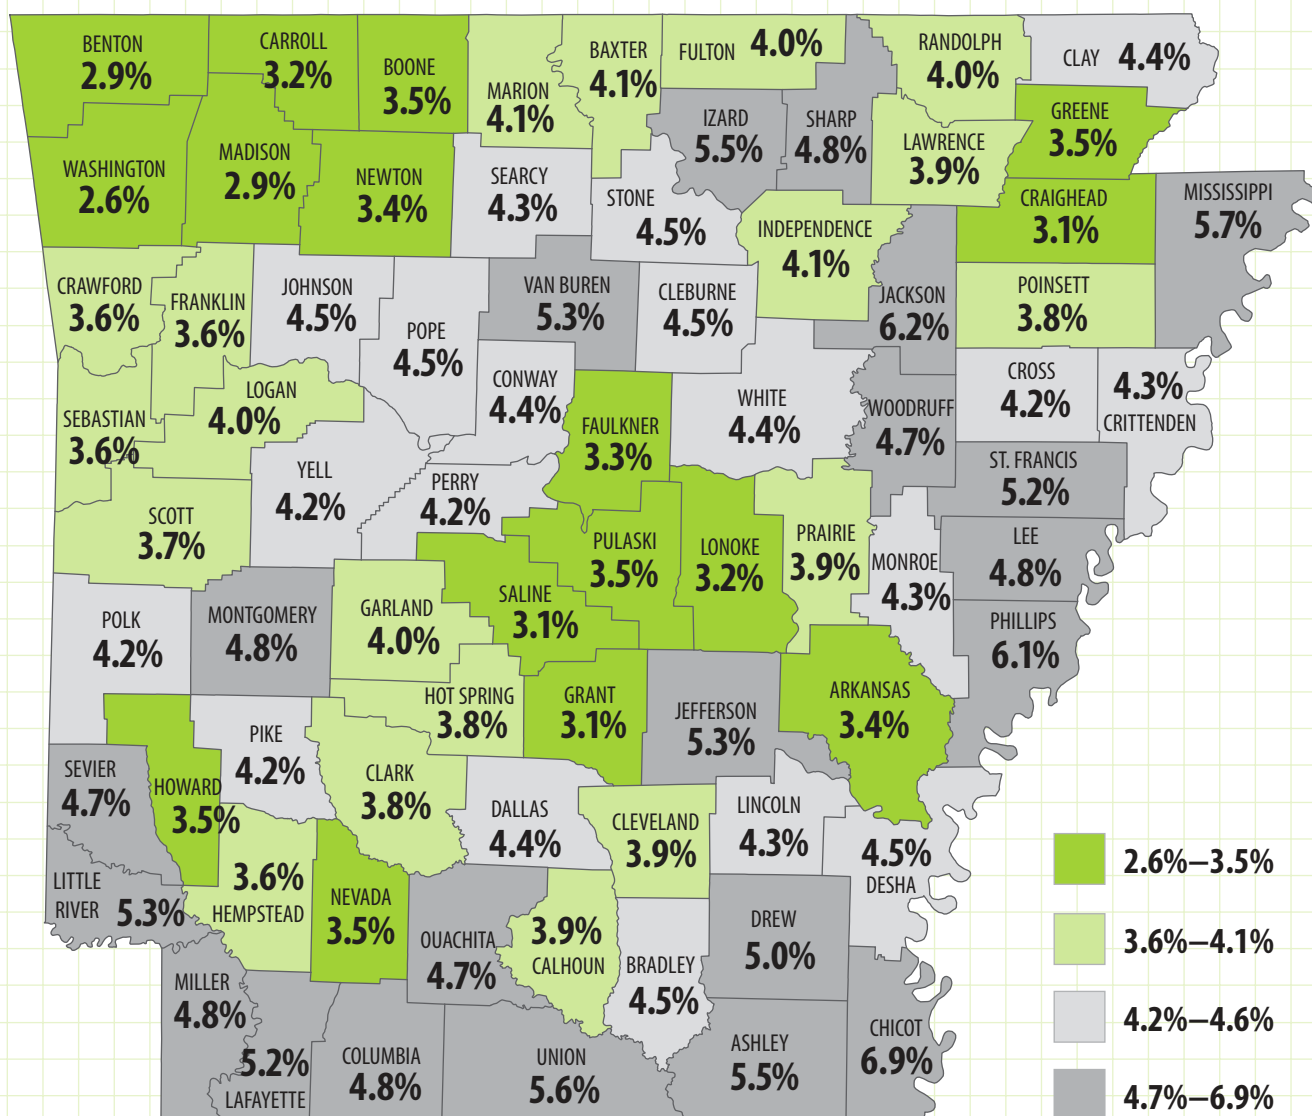

| | |
|-------------------|--|
| DEFINITION | Number of students enrolled in public school who lack a fixed, regular and adequate place of residence. Rate is per 1,000 total public school enrollments, pre-K through grade 12. |
| SOURCE | Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network (https://adedata.arkansas.gov/statewide/) |
| STATE RATE | 23.6 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Unemployment Rates, 2018

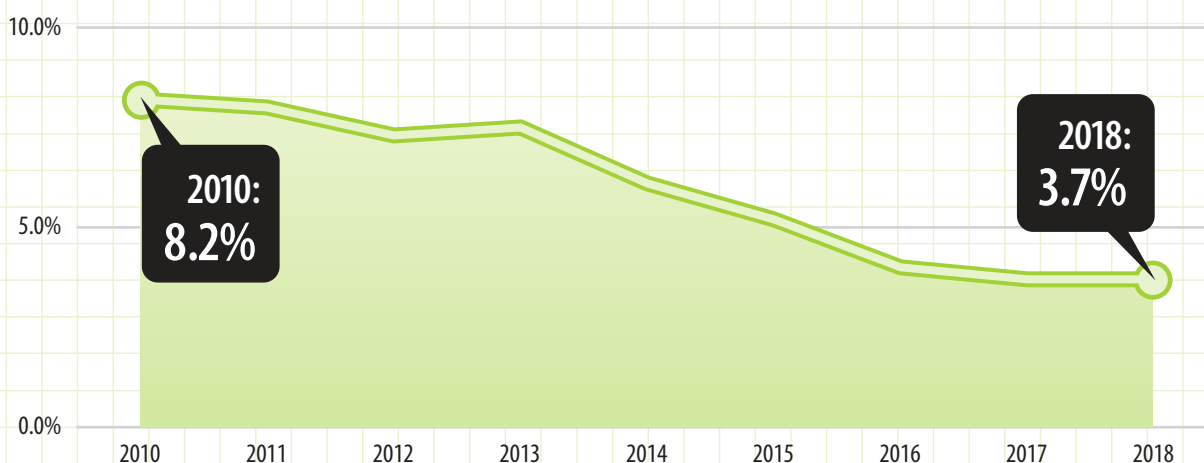

| | |
|-------------------|---|
| DEFINITION | An estimate of the number of persons who were able to work and available to work and: (1) were looking for work, or (2) would have looked for work except that: (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report for a new job The rate is expressed as a percentage of the civilian labor force. These numbers are annual averages and are not seasonally adjusted. |
| SOURCE | U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/lau/#cntyaa) |
| STATE RATE | 3.7% |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

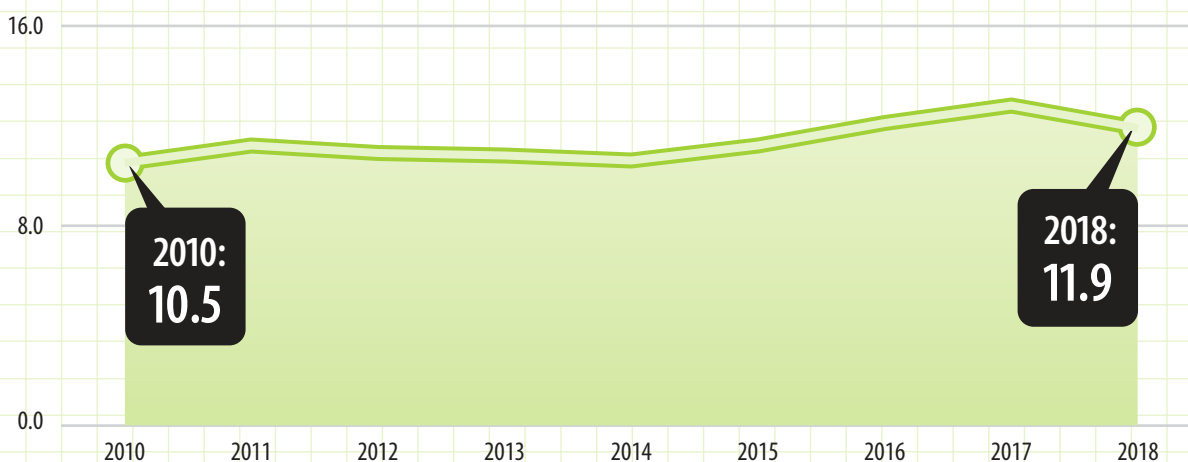

Unemployment Rates, 2010–2018

| | |
|-------------------|--|
| DEFINITION | An estimate of the number of persons who were able to work and available to work and: (1) were looking for work, or (2) would have looked for work except that: (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report for a new job. The rate is expressed as a percentage of the civilian labor force. |
| SOURCE | U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/lau/#cntyaa) |
| DATA SHOWN | 2010–2018, calendar year |

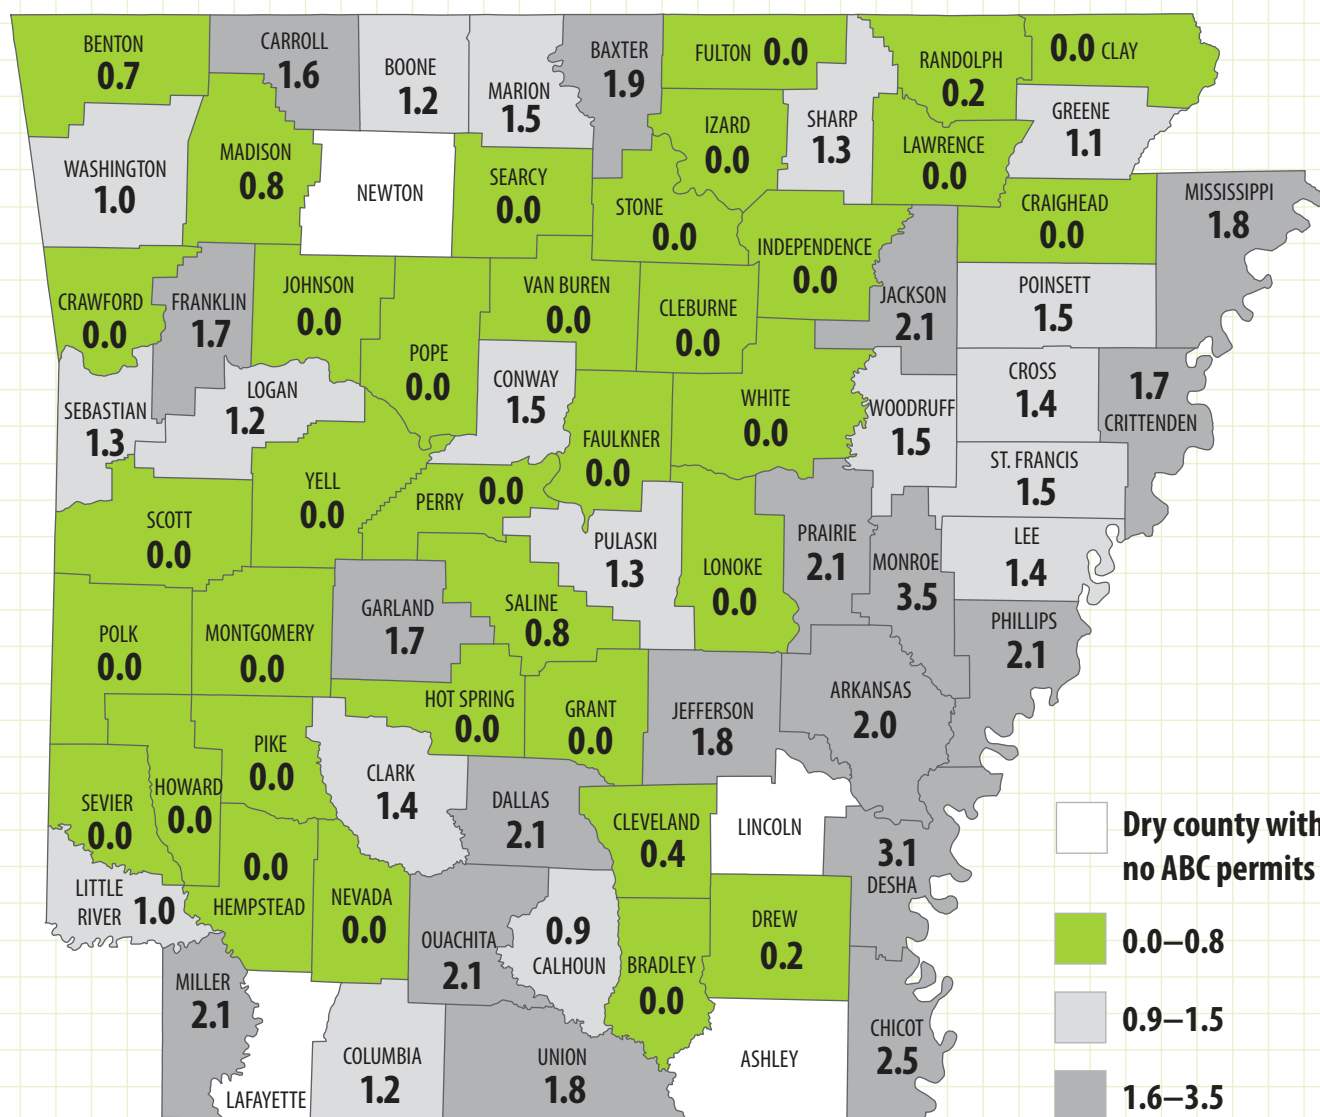

Children Living in Foster Care, 2010–2018

| | |
|-------------------|---|
| DEFINITION | Average daily number of children (ages 0–17) in state-supervised, family-based foster care by fiscal year per 1,000 children (ages 0–17) |
| SOURCE | Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report (https://humanservices.arkansas.gov/resources/reports/statistical-reports) |
| DATA SHOWN | 2010–2018, state fiscal year |

Retail Beer Permits, 2018

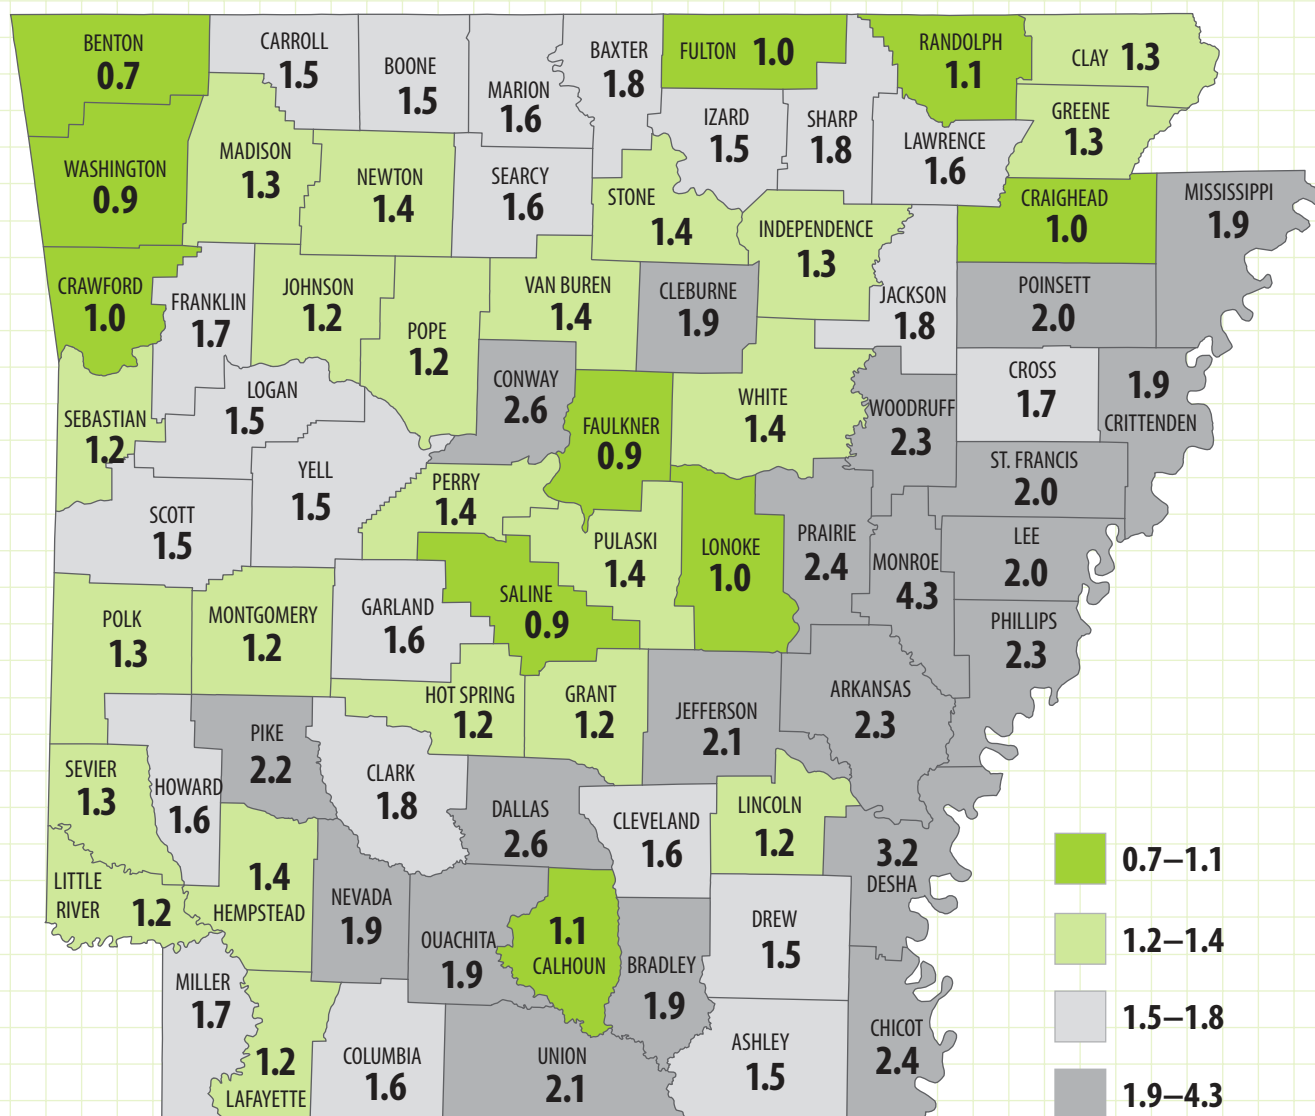

| | |
|-------------------|---|
| DEFINITION | Number of retail beer permits per 1,000 total population. The count includes off-premise (package stores, grocery stores, etc.) and on-premise (restaurants, bars, etc.) permits. Counties with 0.0 retail beer permits have private club permits. Data are not annualized. This map represents the rate of valid permits in October and November of each year. |
| SOURCE | Arkansas Department of Finance and Administration, Alcoholic Beverage Control (ABC) |
| STATE RATE | 0.9 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Retail and Vending Tobacco Permits, 2018

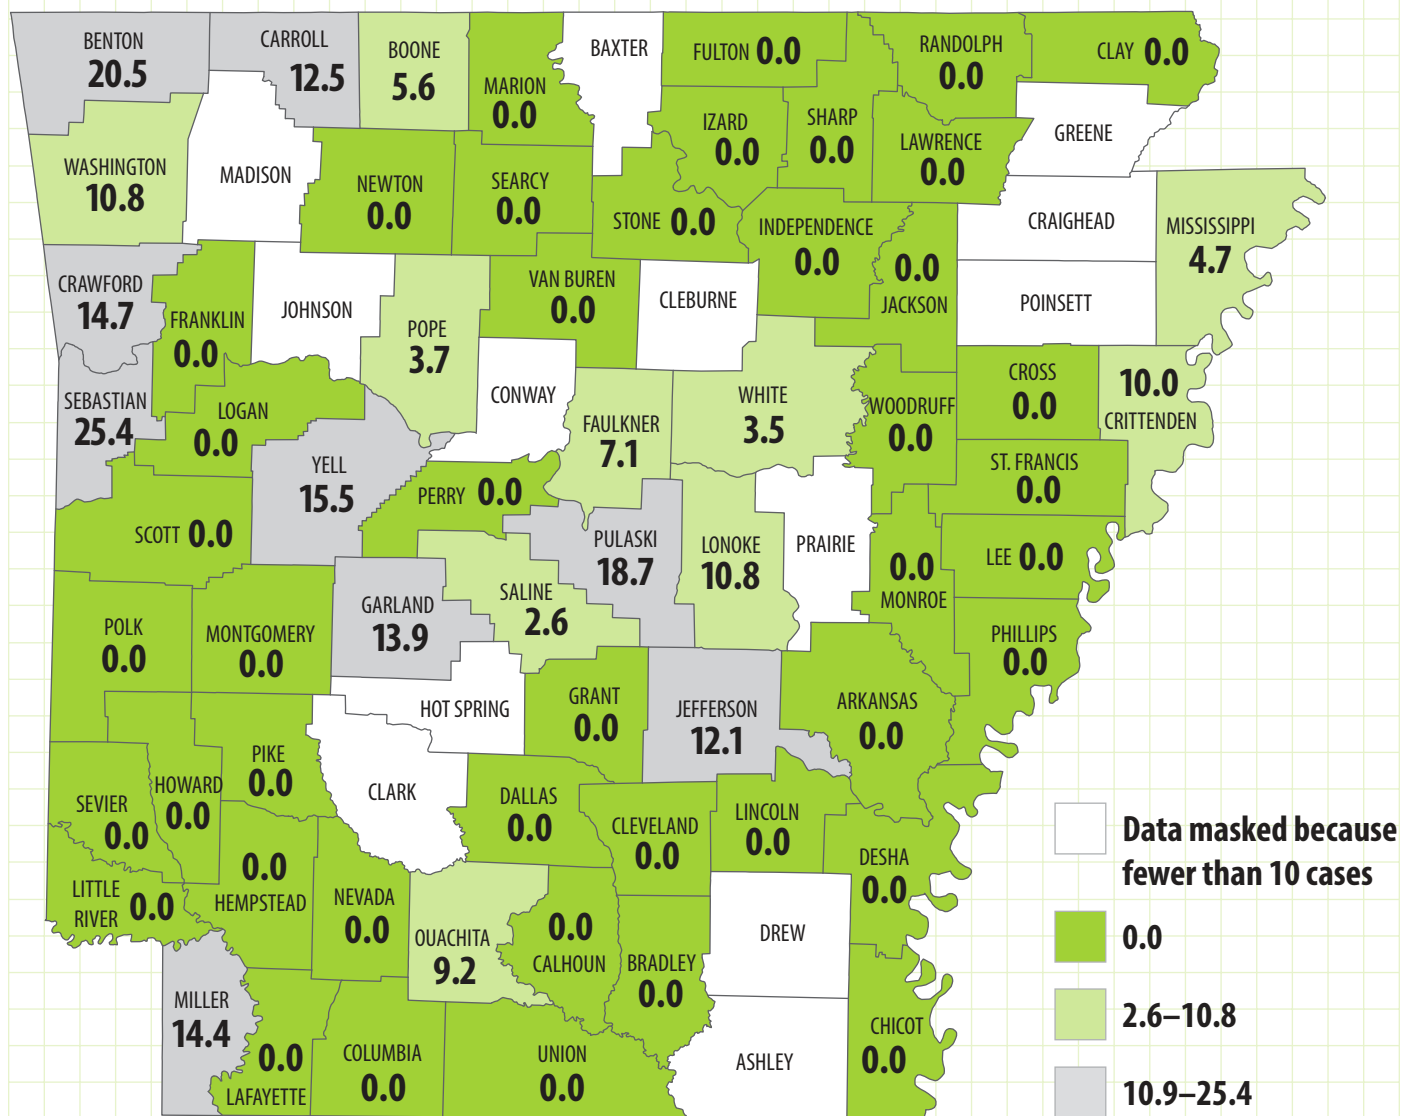

| | |
|-------------------|--|
| DEFINITION | Number of retail tobacco permits issued during each fiscal year per 1,000 population. The count includes retail cigarette and tobacco permits and general tobacco product vending permits. Temporary permits are not included. |
| SOURCE | Arkansas Tobacco Control Board |
| STATE RATE | 1.4 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

High School Drug Infractions, 2018

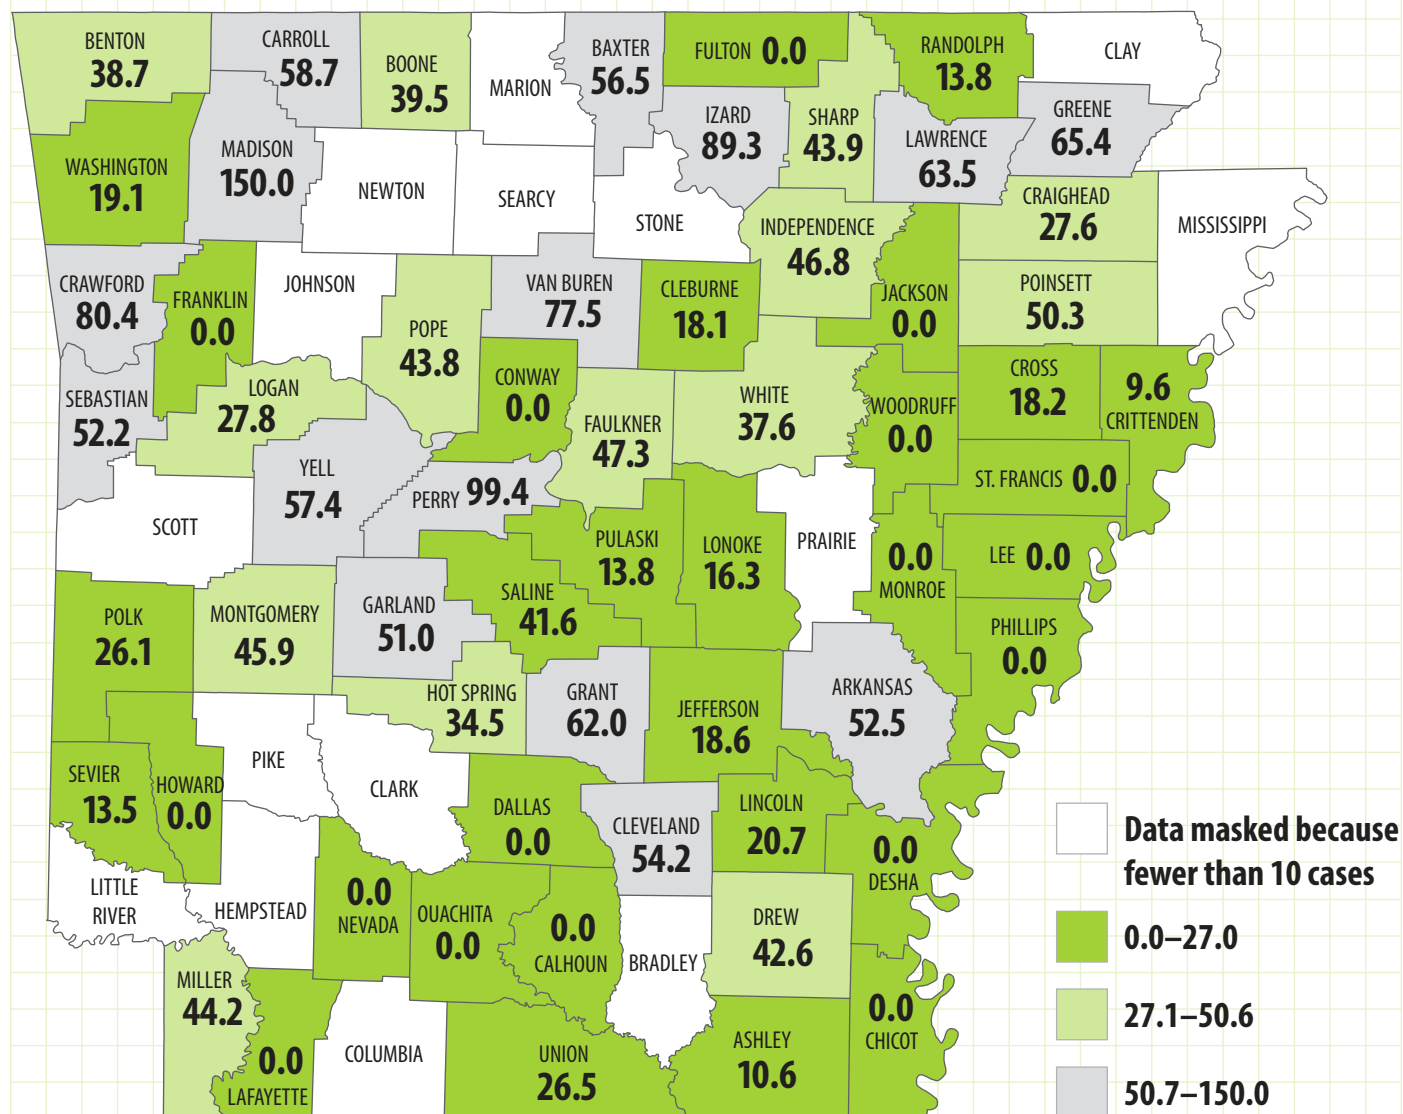

| | |
|-------------------|---|
| DEFINITION | Number of cases in which the school authority or court authority takes punitive action to reprimand the student after a violation of school drug policy. Rate is per 1,000 total high school enrollment. Values of less than 10 students have been redacted in order to satisfy privacy requirements. This number does not include tobacco infractions. |
| SOURCE | Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network |
| STATE RATE | 9.0 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

High School Tobacco Infractions, 2018

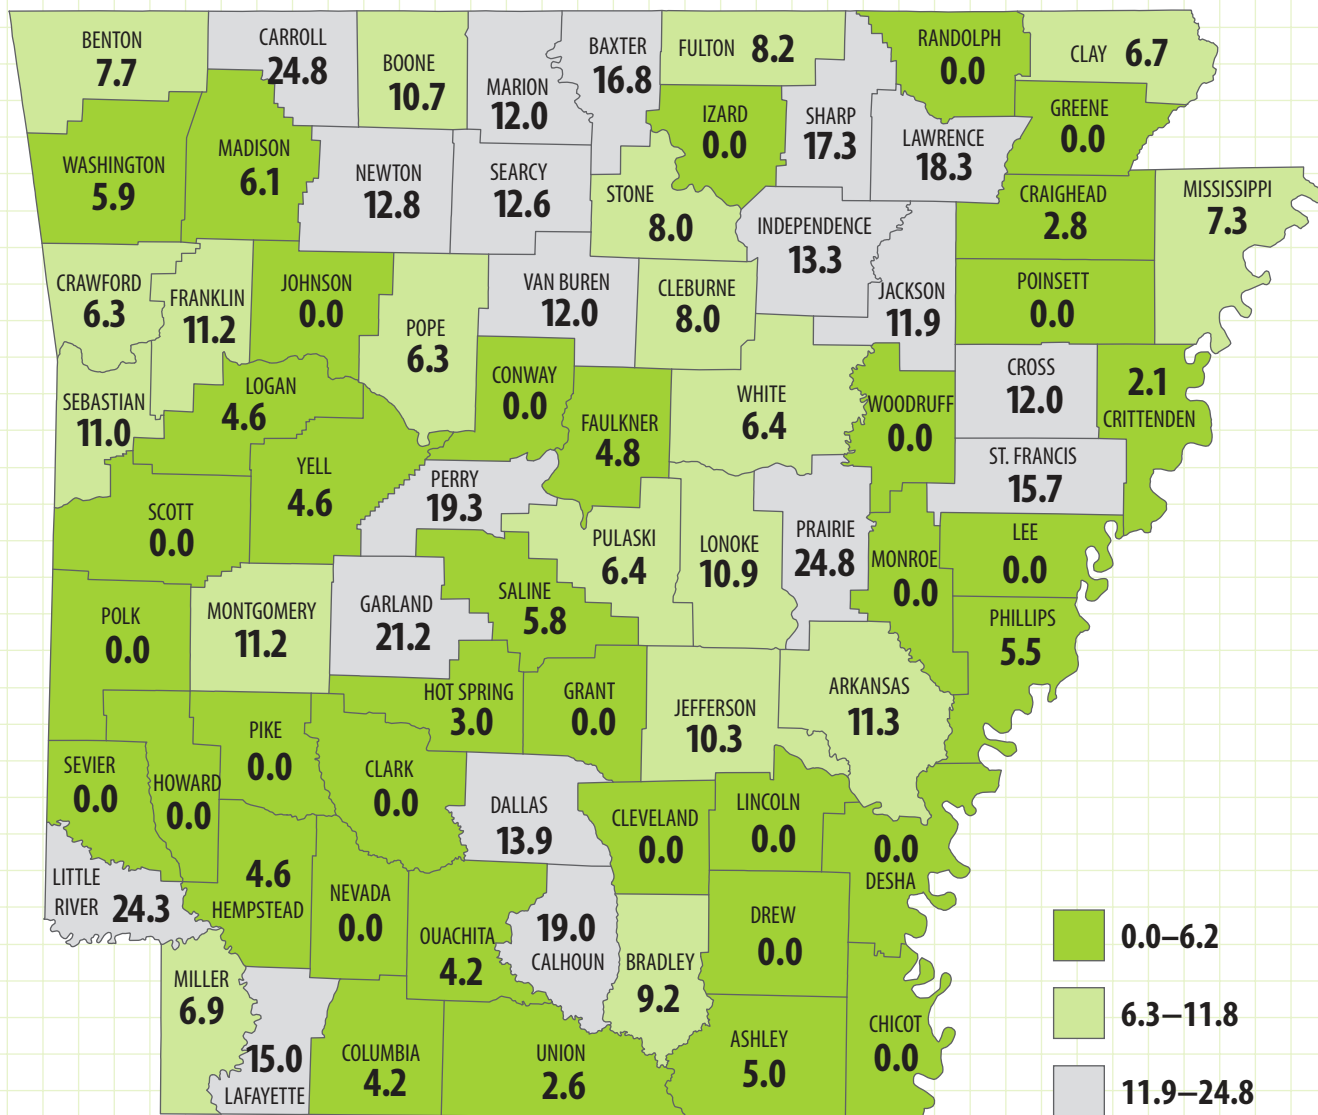

| | |
|-------------------|--|
| DEFINITION | Number of cases in which the school authority or court authority takes punitive action to reprimand the student after a violation of school tobacco policy. Rate is per 1,000 total high school enrollment. Values of less than 10 students have been redacted in order to satisfy privacy requirements. |
| SOURCE | Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network |
| STATE RATE | 30.5 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Alcoholic Liver Disease Deaths, 2018

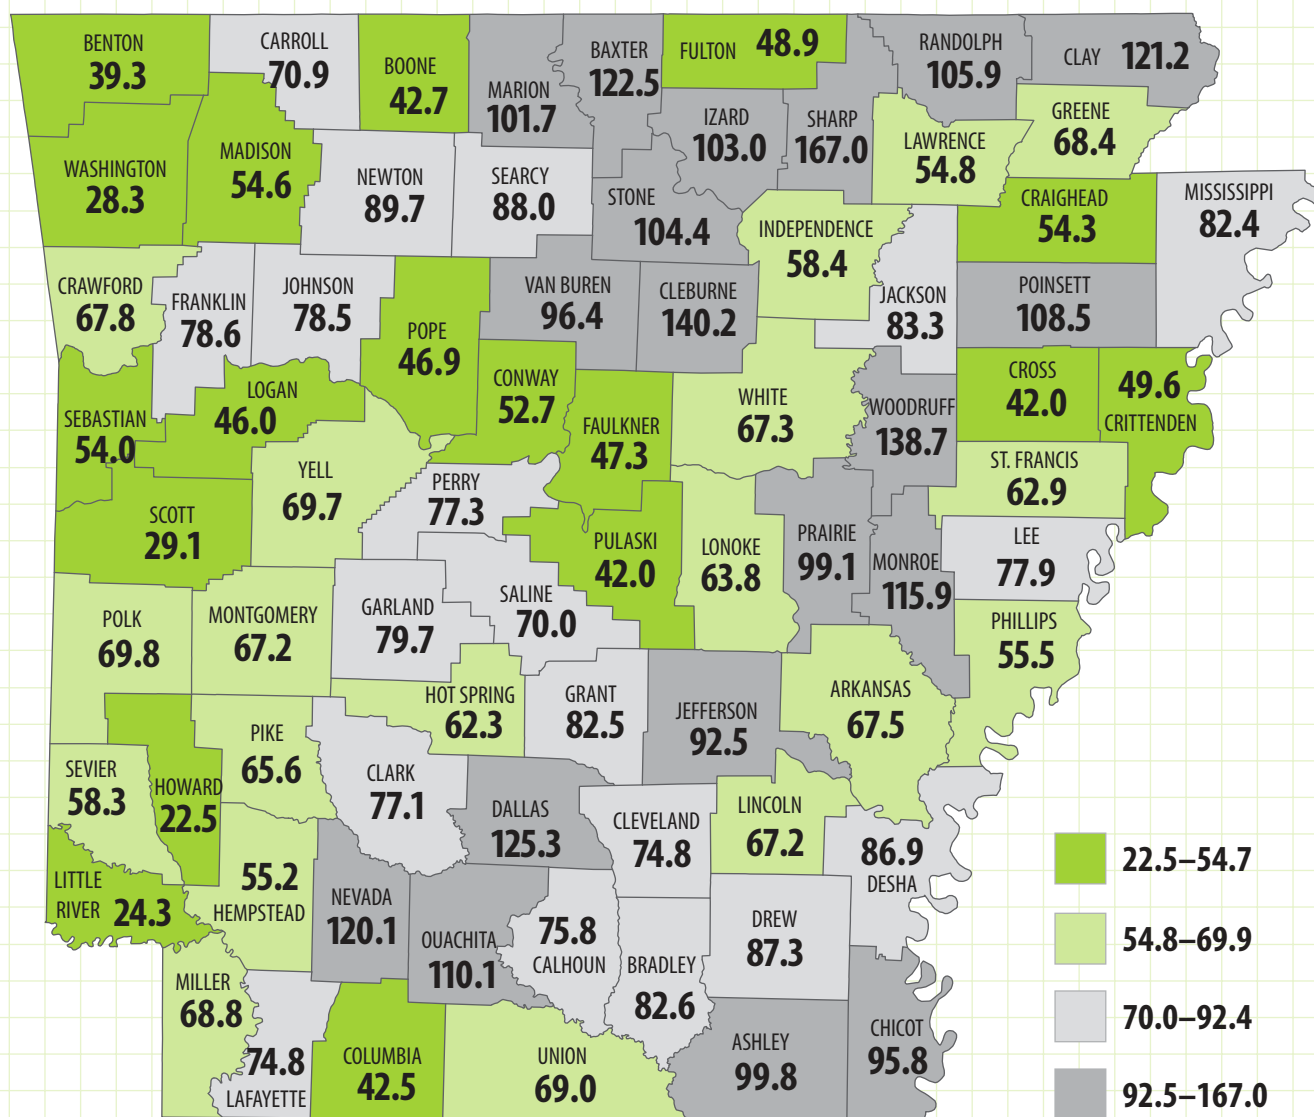

| | |
|-------------------|---|
| DEFINITION | Number of Arkansas deaths from alcoholic liver disease per 100,000 population |
| SOURCE | Arkansas Department of Health, Arkansas Center for Health Statistics Query System, ICD-10 Cause of Death Tabular Report |
| STATE RATE | 7.3 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Page 10 of 10

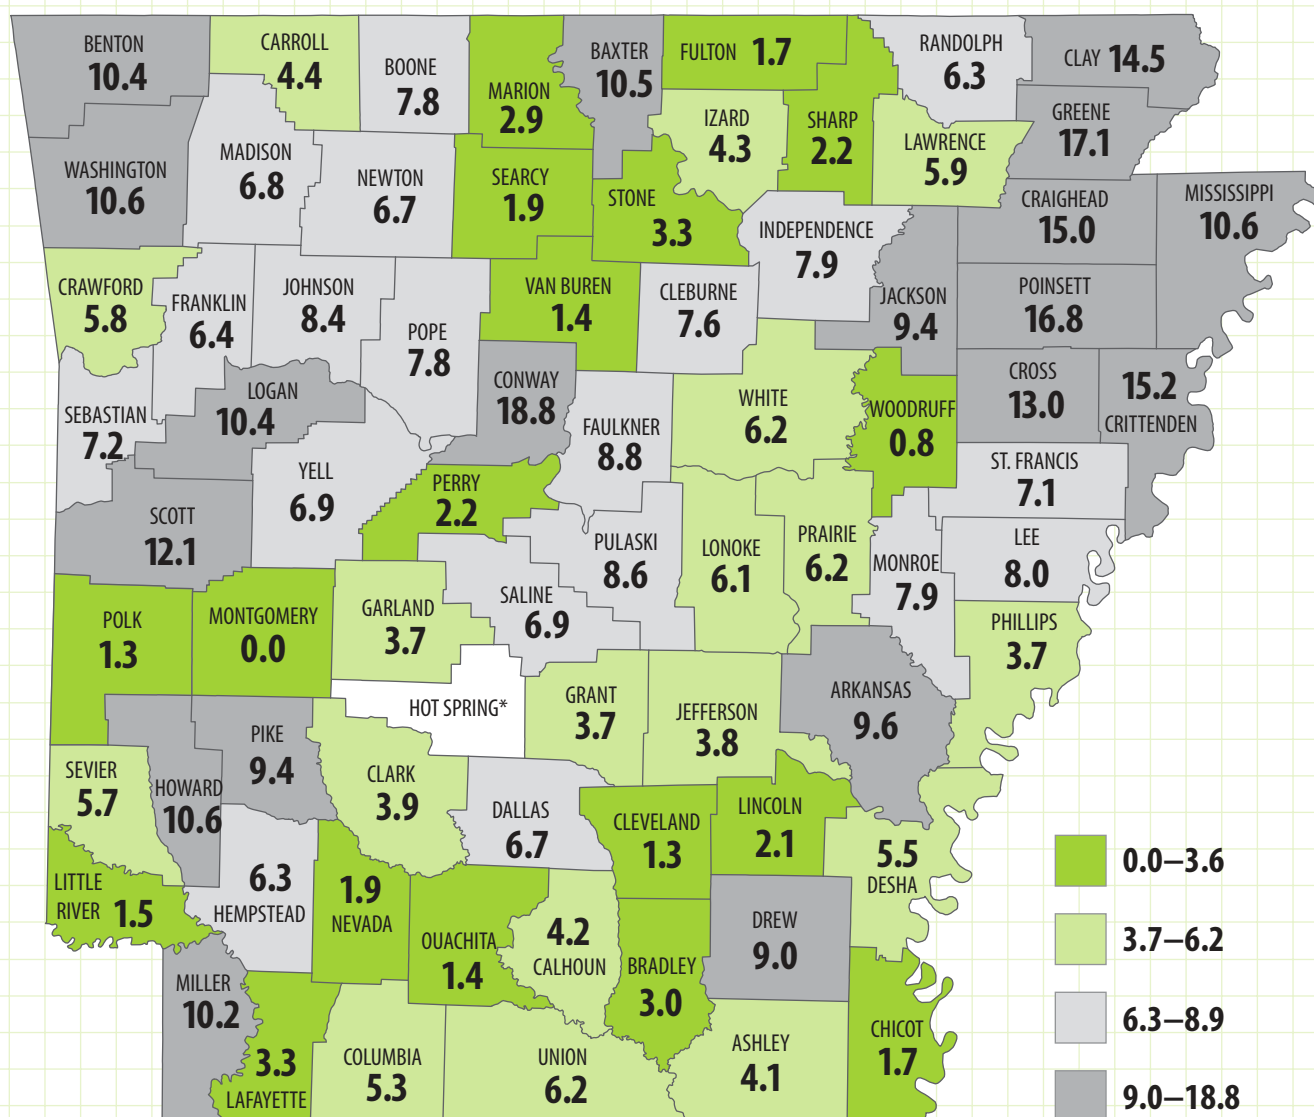

| | |
|-------------------|---|
| DEFINITION | Number of Arkansas deaths from malignant neoplasms of the trachea, bronchus and lung per 100,000 population |
| SOURCE | Arkansas Department of Health, Arkansas Center for Health Statistics Query System, ICD-10 Cause of Death Tabular Report |
| STATE RATE | 60.8 |

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Arrests for Drugs or Narcotics, Adults, 2018

| | |
|-------------------|--|
| DEFINITION | Number of adult arrests for drug law violations (possession, sale, use, growing and manufacturing of illegal drugs) per 1,000 population ages 18 and older as reported to ACIC through NIBRS |
| SOURCE | Arkansas Crime Information Center, Crime in Arkansas (https://www.acic.org/crime-statistics) |
| STATE RATE | 8.0 |

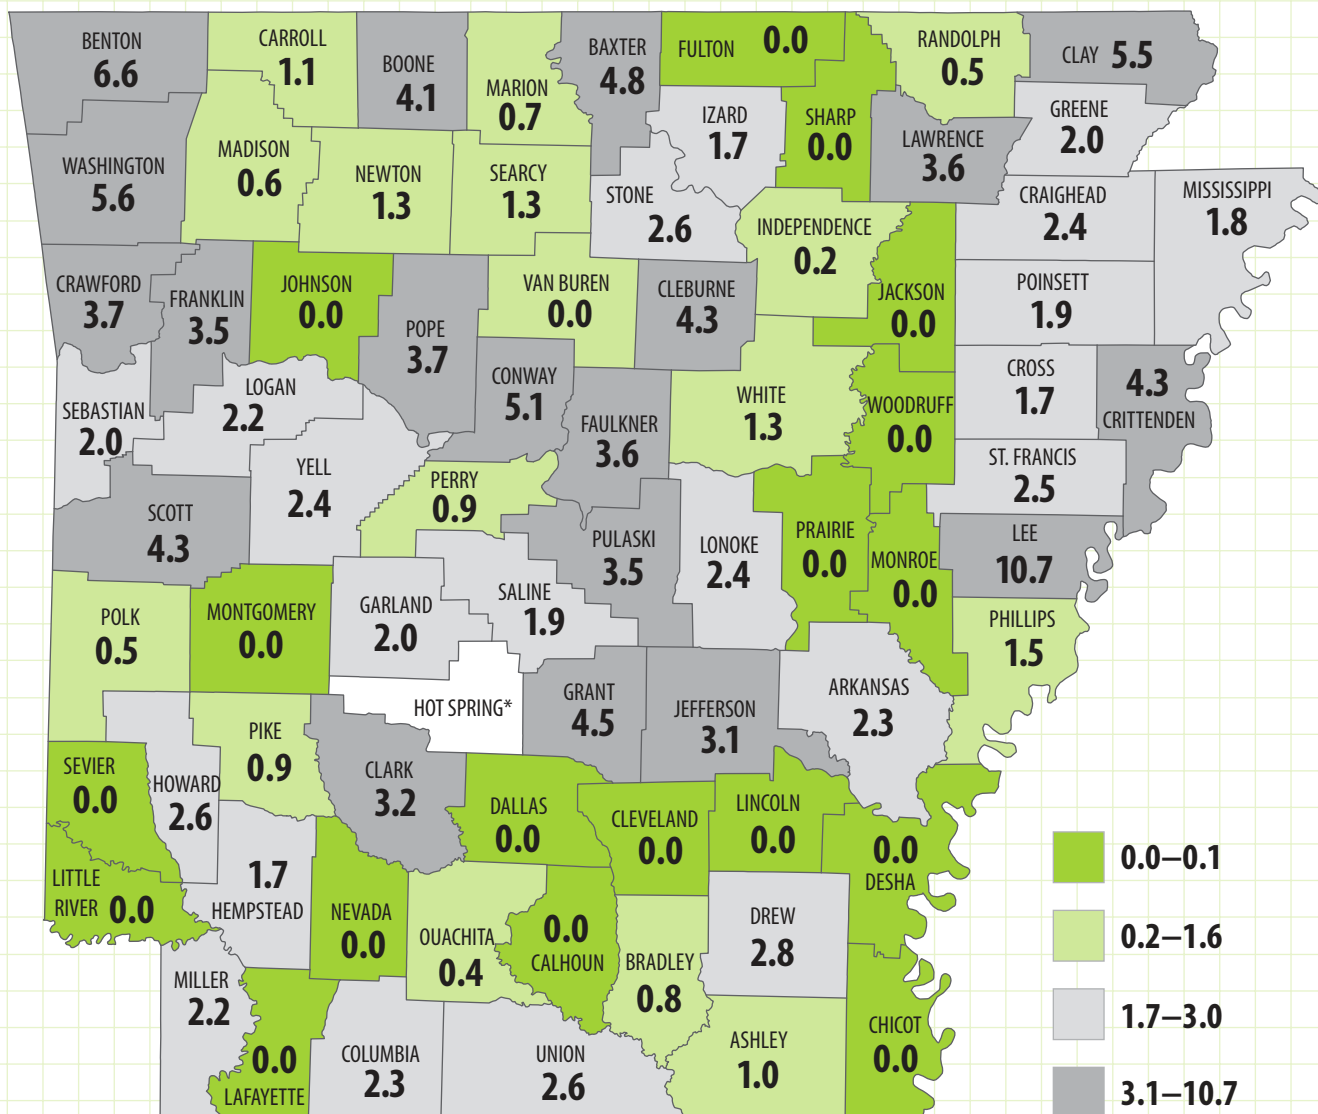

*Hot Spring County did not report data for this measure to the Arkansas Crime Information Center in 2018.

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Arrests for Drugs or Narcotics, Juveniles, 2018

| | |
|-------------------|---|
| DEFINITION | Number of juvenile (under age 18) arrests for drug law violations (possession, sale, use, growing and manufacturing of illegal drugs) per 1,000 population under age 18 as reported to ACIC through NIBRS |
| SOURCE | Arkansas Crime Information Center, Crime in Arkansas (https://www.acic.org/crime-statistics) |
| STATE RATE | 3.1 |

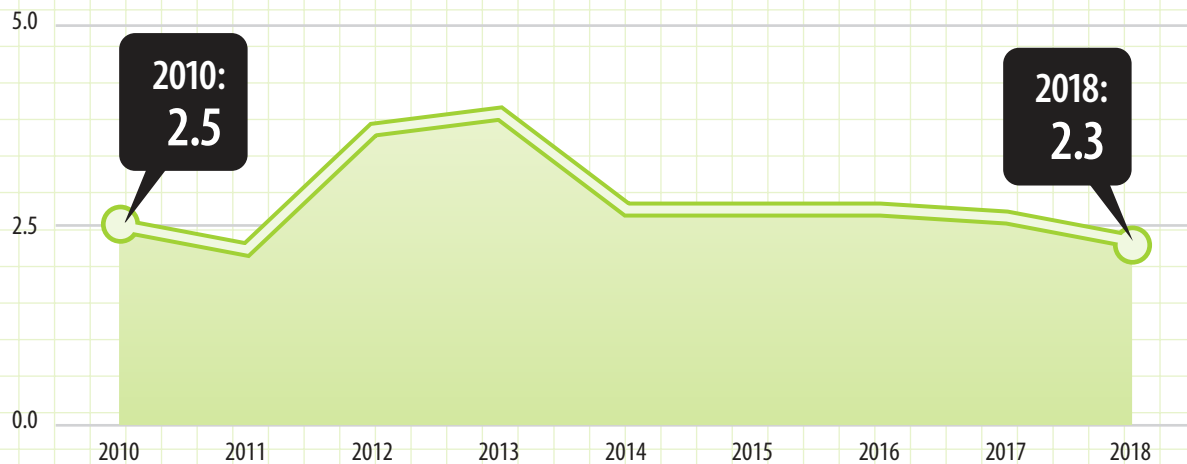

*Hot Spring County did not report data for this measure to the Arkansas Crime Information Center in 2018.

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

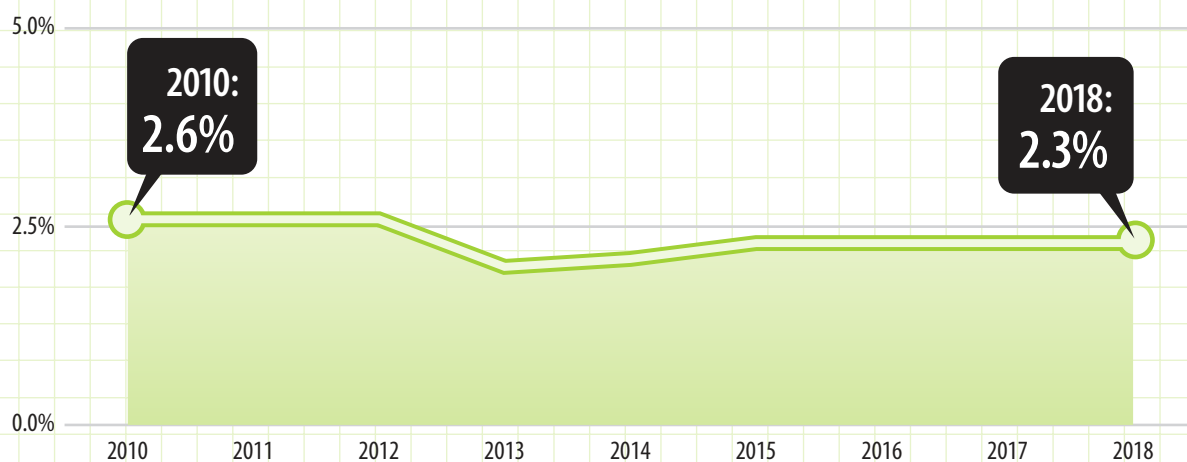

High School Assaults on Other Students or Staff, 2010–2018

| | |
|-------------------|--|
| DEFINITION | Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student after an assault on a student or staff member per 1,000 total enrollment |
| SOURCE | Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network |
| DATA SHOWN | 2010–2018, June of each fiscal year |

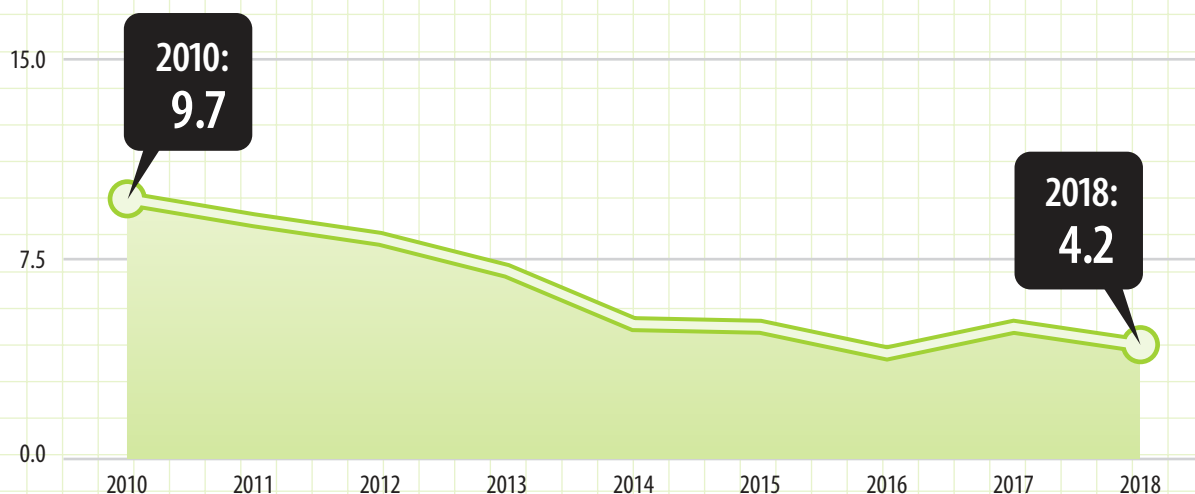

High School Dropouts, 2010–2018

| | |
|-------------------|--|
| DEFINITION | Students dropping out or withdrawing from school in grades 7–12 from Oct. 31 of one school year through Oct. 31 of the next year giving one of the following reasons: failing grades, suspended or expelled, lack of interest, conflict with school, economic hardship, pregnancy/marriage, peer conflict, enrolled in GED, alcohol/drugs, health problems, or other. The rate is expressed as a percentage of all students enrolled in grades 7–12 as of Oct. 1 of the previous year. |
| SOURCE | Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network (https://adedata.arkansas.gov/statewide/) |
| DATA SHOWN | 2010–2018, June of each fiscal year |

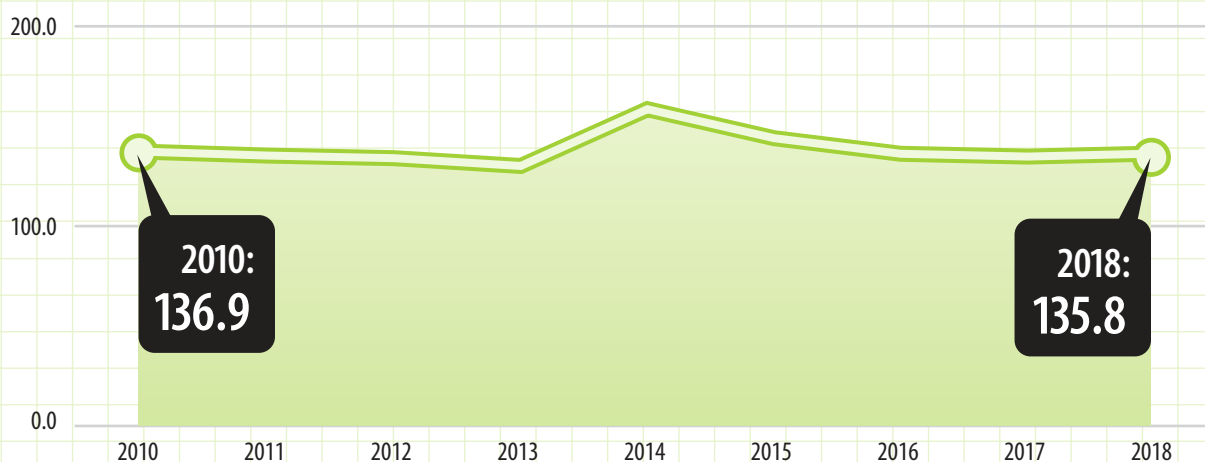

Births to Adolescent Mothers, 2010–2018

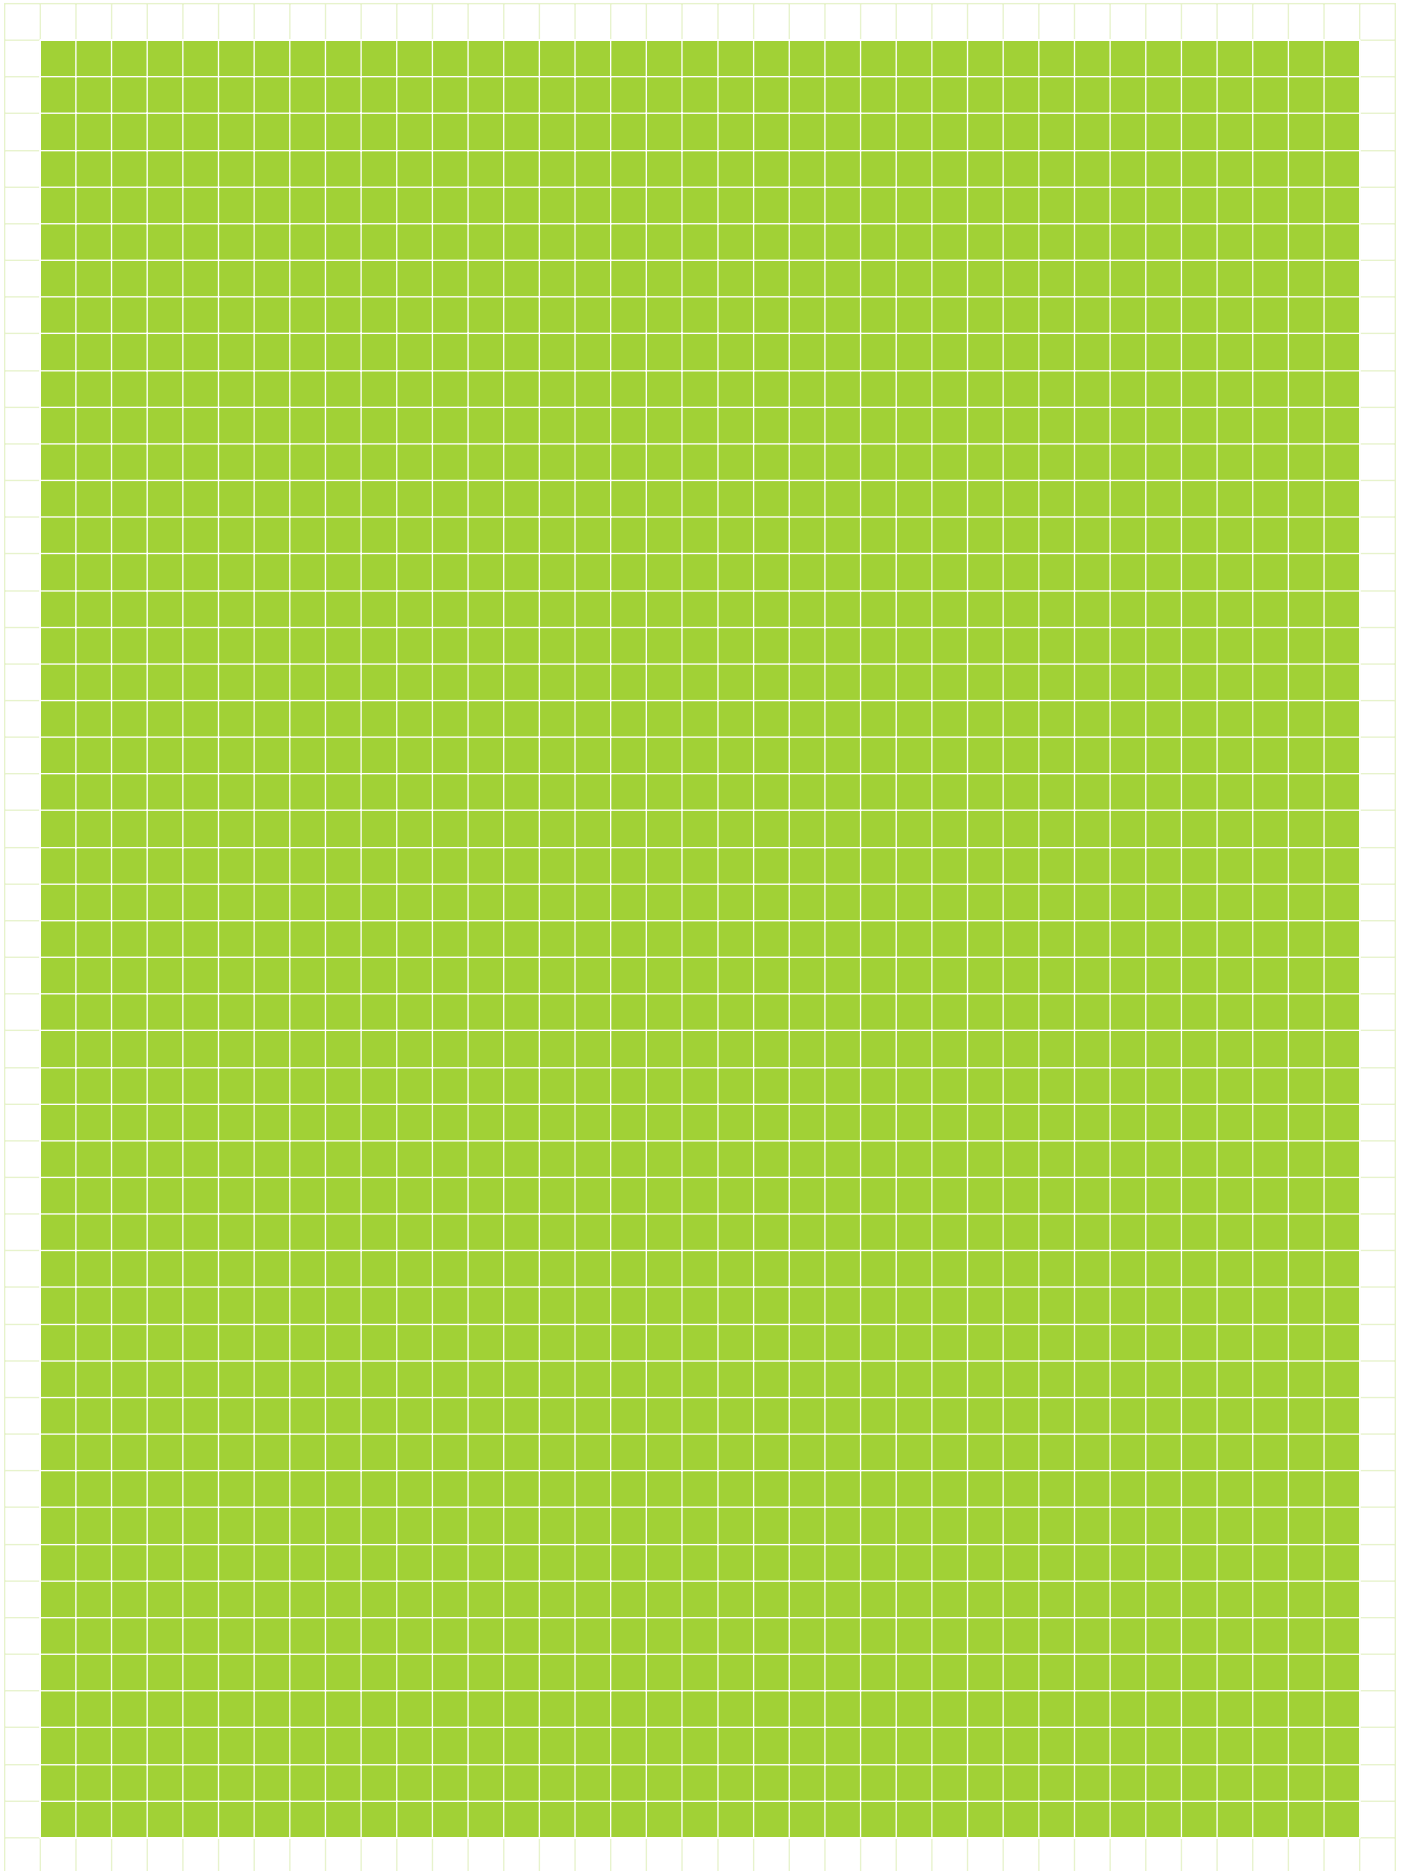

| | |
|-------------------|---|
| DEFINITION | Number of live births to girls age 10–17 per 1,000 girls ages 10–17 |
| SOURCE | Arkansas Department of Health, Center for Health Statistics |
| DATA SHOWN | 2010–2018, calendar year |

Births to Women Using Tobacco During Pregnancy, 2010–2018

| | |
|-------------------|---|
| DEFINITION | Number of births to women who used tobacco during their pregnancy and rate per 1,000 total births |
| SOURCE | Arkansas Department of Health, Center for Health Statistics (http://healthstats.adh.arkansas.gov/scripts/broker.exe?service=default&program=arcode.main_welcome_live.sas) |
| DATA SHOWN | 2010–2018, calendar year |

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

| • Deaths from alcoholic liver disease (per 100k) | 0 | 0.0 | 1 | 12.6 | 0 | 0.0 | 0 | 0.0 | 1 | 12.8 | ✓ |

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

| • Deaths from alcoholic liver disease (per 100k) | 0 | 0.0 | 4 | 16.6 | 1 | 4.2 | 0 | 0.0 | 0 | 0.0 | |

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate.

For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Definitions and Notes" section for specific information. All rates are per 1,000 unless otherwise indicated.

✓ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the symbol simply indicates a net loss in population.

DEFINITIONS AND NOTES

Census and population data presented in this report

All population figures, including those for census years, are estimates of population as of July 1 of each year. Since census data are as of April 1, estimates are necessary for year 2010. These population estimates are revised periodically. As a result, the population figures in this book and the rates calculated with them will not necessarily match those in previous editions of this publication. Census 2010 was conducted using a short form with the American Community Survey (ACS) developed to replace the long form of the census. 2010 county-level census data was used where available. Where previous indicator data collected from decennial census were not available, five-year estimates from the American Community Survey were used. Estimate data represent data collected from 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018. While they are recorded in the last year's column, they should not be viewed as point in time data estimates.

Cautions regarding the arrest data presented in this report

Starting in 2002, the Arkansas Crime Information Center (ACIC) began a transition to a new incident-based arrest reporting system. This transition period has involved the statewide installation of new software, upgraded hardware and ongoing training. During this period, many jurisdictions were unable to maintain dual reporting systems. In 2005, approximately 63% of Arkansas jurisdictions used the National Incident-Based Reporting System (NIBRS) format, 32% used the older summary format and the remaining 5% failed to submit any arrest data for the year. Users should be aware that arrest data from recent years may not have the same reliability as earlier data and that a valid comparison cannot be made between summary data and NIBRS data. Detailed information about how arrest data are collected and reported can be found in the Crime in Arkansas report available at the ACIC web page (acic.org). Three data elements shown in the report (total arrests for crime index offenses, total arrests for property offenses and total arrests for violent crimes) are actually offense counts and not arrest counts.

Rates

Rates for data collected by fiscal years are calculated using the population data from the last half of the fiscal year. For example, the rate of children living in foster care per 1,000 children for FY 2018 (July 1, 2017, through June 30, 2018) is calculated by dividing the FY 2018 number of children

in foster care by the population under 18 in calendar year 2018 and multiplying the result by 1,000.

The risk factors presented in this report

The indicators presented in the tables of this publication were chosen to be measures of selected risk factors that longitudinal research has identified as precursors to adolescent drug and alcohol abuse. These risk factors are grouped into the domains of community, family, school and peer/individual. These categories are the work of J. David Hawkins and Richard F. Catalano of the Social Development Research Group at the University of Washington. The selected risk factors are listed below, and the accompanying definitions and explanations are drawn from the work of Hawkins and Catalano and from Arkansas Prevention Needs Assessment Student Survey, State Report: 2002, published by the Arkansas Department of Human Services.

COMMUNITY DOMAIN

- **Availability of alcohol, tobacco and other drugs:** The use of alcohol, tobacco and other drugs by adolescents is related to the availability of cigarettes, alcohol, marijuana and other illegal drugs in a community. The availability of handguns is also related to a higher risk of crime and substance use by adolescents.
- **Community disorganization:** Research has shown that high population density, physical deterioration and high rates of adult crime in a community are related to higher rates of juvenile crime.
- **Extreme economic deprivation:** Social isolation, extreme poverty and poor living conditions place children at elevated risk of chronic drug and alcohol abuse.
- **Community and personal transitions and mobility:** Neighborhoods with high rates of residential mobility have been shown to have higher rates of juvenile crime and drug selling, while children who experience frequent residential moves and stressful life transitions have been shown to have higher risk for school failure, delinquency and drug use.

FAMILY DOMAIN

- **Family conflict:** Children raised in families high in conflict, whether or not the child is directly involved in the conflict, appear at risk for both delinquency and drug use.
- **Family history of high risk behavior:** Children raised in families with a history of problems like drug and alcohol abuse, lack of commitment to school, or adolescent pregnancy are more likely to also exhibit these problems.

SCHOOL DOMAIN

- **Academic failure:** Beginning in elementary grades 4–6, academic failure increases the risk of both drug abuse and delinquency. It seems that the experience of failure itself increases the risk of later problem behaviors.
- **Lack of commitment to school:** Surveys of high school seniors have shown that the use of hallucinogens, cocaine, heroin, stimulants, and sedatives or nonmedically prescribed tranquilizers is significantly lower among students who expect to attend college than among those who do not. Factors such as liking school, spending time on homework and perceiving the coursework as relevant are also negatively related to drug and alcohol abuse.

PEER/INDIVIDUAL DOMAIN

- **Alienation, rebelliousness and lack of social bonding:** Young people who do not feel part of society, are not bound by rules, do not believe in trying to be successful or responsible, or who take an active rebellious stance toward society are at higher risk of abusing drugs.
- **Early initiation of problem behavior:** Onset of drug use prior to age 15 is a consistent predictor of later chronic abuse. Children who try drugs at an early age are more likely to try other drugs and use drugs more frequently. Individuals who begin using drugs at a later age show lower drug involvement and a greater probability of discontinuation of use.
- **Peers who engage in problem behavior:** Young people who associate with peers who engage in problem behaviors are at higher risk for engaging in antisocial behavior themselves. Young people who associate with peers who engage in alcohol or substance abuse are much more likely to engage in the same behavior. Peer drug use has consistently been found to be among the strongest predictors of substance use among youth. Even when young people do not experience other risk factors, spending time with friends who use drugs greatly increases the risk of developing problem behaviors.

Indicators presented in this report

Adolescent pregnancy: Number of pregnancies (births plus abortions plus fetal deaths) to females ages 10–17 and rate per 1,000 females ages 10–17. Prior to 2014, abortions that occurred out of the state were not included. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1995–2018, calendar year.

Adolescent suicide (per 1,000): Number of suicides reported for persons ages 10–17 and rate per 1,000 population ages 10–17. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year. The 2016 and 2017 data are available for the state only.

Adolescents (10–17): Total Arkansas population ages 10–17. *SOURCE:* National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories. *AVAILABILITY:* 1990–2018, July 1 of each year.

Adult arrests for drug/narcotics (NIBRS): Number of adult arrests for drug law violations (possession, sale, use, growing and manufacturing of illegal drugs) and rate per 1,000 population ages 18 and older, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Adult arrests for drunkenness (NIBRS): Number of adult arrests for public drunkenness and rate per 1,000 population ages 18 and older, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Adult arrests for DUI (NIBRS): Number of adult arrests for driving or operating any vehicle or common carrier while drunk or under the influence of alcohol or narcotics and rate per 1,000 population ages 18 and older, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Adult arrests for liquor law violations (NIBRS): Number of adult arrests for violations of liquor laws and rate per 1,000 population ages 18 and older, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Adults (18 and older): Total Arkansas population ages 18 and older. *SOURCE:* National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories. *AVAILABILITY:* 1990–2018, July 1 of each year.

Adults in alcohol/drug abuse treatment: Number of adult drug client treatment admissions in state-supported facilities by fiscal year and rate per 1,000 population ages 18 and over. *SOURCE:* Arkansas Department of Human Services, Division of Behavioral Health Services. *AVAILABILITY:* 1990–2018, state fiscal year.

Alcohol- or drug-related traffic injuries: The number of traffic injuries related to alcohol or other drugs and rate per 1,000 popula-

tion. *SOURCE:* Arkansas State Police, Highway Safety Office. *AVAILABILITY:* 2004–2017, calendar year.

Alcohol- or other drug-related traffic crashes: The number of traffic accidents related to alcohol or other drugs and rate per 1,000 population. *SOURCE:* Arkansas State Police, Highway Safety Office. *AVAILABILITY:* 2004–2017, calendar year.

Alcohol- or other drug-related traffic fatalities: The number of traffic fatalities related to alcohol or other drugs and rate per 1,000 population. *SOURCE:* Arkansas State Police, Highway Safety Office. *AVAILABILITY:* 1990–2017, calendar year.

Beer permits: Number of retail beer permits and rate per 1,000 total population. Includes off-premises (package stores, grocery stores, etc.) and on-premises (restaurants, bars, etc.) permits. Retail beer outlets may also have retail liquor permits. Data are not annualized. This figure represents the number of valid permits in October/November of each year. *SOURCE:* Arkansas Department of Finance and Administration, Alcoholic Beverage Control. *AVAILABILITY:* 2000–2018.

Births to mothers age 10–17: Number of live births to females ages 10–17 and rate per 1,000 females ages 10–17. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year.

Births to women using alcohol during pregnancy: Number of births to women who used alcohol during their pregnancy and rate per 1,000 total births. The Arkansas Department of Health stopped collecting data for this indicator in 2013. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 2000–2013, calendar year.

Births to women using tobacco during pregnancy: Number of births to women who used tobacco during their pregnancy and rate per 1,000 total births. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 2000–2018, calendar year.

Births to women with <12 years of education: Number of births to women with less than 12 years of education and rate per 1,000 total births. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year.

Children (under 18): Total Arkansas population under age 18. *SOURCE:* National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories. *AVAILABILITY:* 1990–2018, July 1 of each year.

Children eligible for free or reduced price lunches: Number of children eligible to participate in the National and State Free and Reduced Lunch Program and rate per 1,000 of total public school student enrollment (including pre-K). *SOURCE:* Arkansas Department of Education,

Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1990–2018, October of each fiscal year.

Children in single-parent families: Number of children ages 0–17 in single-mother or single-father families and rate per 1,000 children ages 0–17. Note: The rate per 1,000 children in married couple families cannot be calculated by subtracting this value from 1,000 because not all children live in families. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing. *AVAILABILITY:* 1990, 2000 and 2010 decennial census.

Children living in foster care: Average daily number of children ages 0–17 in state-supervised, family-based foster care by fiscal year and rate per 1,000 children ages 0–17. *SOURCE:* Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report. *AVAILABILITY:* 1995–2018, state fiscal year.

Children living with nonrelatives: Number of children ages 0–17 living with adults who are not relatives and rate per 1,000 population ages 0–17. Does not include children living in group quarters. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing. *AVAILABILITY:* 1990, 2000 and 2010 decennial census.

Children living with relatives other than parents: Number of children ages 0–17 living with grandparents or other relatives and rate per 1,000 population ages 0–17. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing. *AVAILABILITY:* 1990, 2000 and 2010 decennial census.

Children receiving food stamps: Number of children ages 0–17 who receive Supplemental Nutrition Assistance Program (SNAP) benefits by fiscal year and rate per 1,000 children ages 0–17. *SOURCE:* Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report. *AVAILABILITY:* 1990–2018, state fiscal year.

Children receiving TEA: Number of participants in the Transitional Employment Assistance (TEA) program. The rate is per 1,000 children ages 0–17. *SOURCE:* Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report. *AVAILABILITY:* 1997–2018, state fiscal year.

Civilian labor force: The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded. Reflects revised population controls and model re-estimation. *SOURCE:* U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics: Public Data Query. *AVAILABILITY:* 1990–2018, calendar year.

Crash injuries and deaths (underage drinking drivers): The number of injuries and fatalities in traffic accidents in which any of the involved drivers were under age 21 and under the influence of alcohol. Totals may be inflated due to individual crashes being counted more than once. The rate is per 1,000 population under age 21. *SOURCE:* Arkansas State Police, Highway Safety Office. *AVAILABILITY:* 2003–2017, calendar year.

Deaths from alcoholic liver disease: The number of Arkansas deaths from alcoholic liver disease. Deaths from alcoholic liver disease were identified using ICD-10 code K70. The rate is expressed per 100,000 population. Data from counties with fewer than 10 deaths have been suppressed. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year.

Divorces and annulments: Number of divorces and annulments and rate per 1,000 population. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Center for Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year.

Dropouts for “lack of interest”: Students dropping out or withdrawing from school for lack of interest in grades 7–12 from October 31 of one school year through October 31 of the year given. The rate is expressed as a percentage of all students enrolled in grades 7–12 as of October 1 of the previous year. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, October of each fiscal year.

Educational attainment (9th–12th, no diploma): Number and percentage of total population ages 25 or older completing grades 9–12 with no diploma. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). *AVAILABILITY:* 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.

Educational attainment (below 9th grade): Number and percentage of total population ages 25 or older completing less than 9th grade. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). *AVAILABILITY:* 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.

Educational attainment (college graduate): Number and percentage of total population ages 25 or older who are college graduates (includes associate degrees, bachelor’s degrees and graduate degrees). *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). *AVAILABILITY:* 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.

Educational attainment (high school graduate): Number and percentage of total population ages 25 or older who graduated high school (does not include those with some college and college graduates). *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). *AVAILABILITY:* 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.

Educational attainment (some college): Number and percentage of total population ages 25 years or older completing some college with no

degree. *SOURCE:* U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). *AVAILABILITY:* 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.

Elementary/middle school alcohol infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school after a violation of school alcohol policy and rate per 1,000 total elementary, middle and junior high school enrollment. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, June of each fiscal year.

Elementary/middle school assaults on students or staff: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school after an assault on a student or staff member. Rate is per 1,000 total elementary, middle and junior high school enrollment. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, June of each fiscal year.

Elementary/middle school drug infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school after a violation of school drug policy and rate per 1,000 total elementary, middle and junior high school enrollment. Does not include tobacco infractions. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, June of each fiscal year.

Elementary/middle school gang involvement: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school for violation of school policy regarding gang involvement. Rate is per 1,000 total elementary, middle and junior high school enrollment. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, June of each fiscal year.

Elementary/middle school tobacco infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school after a violation of school tobacco policy and rate per 1,000 total elementary, middle and junior high school enrollment. *SOURCE:* Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. *AVAILABILITY:* 1999–2018, June of each fiscal year.

Elementary/middle school vandalism: Number of cases in which punitive action is taken by the school authority or court authority to

reprimand the student in elementary, middle or junior high school for vandalism. Rate is per 1,000 total elementary, middle and junior high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

Elementary/middle school weapons/explosives infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle or junior high school after a violation of school policy regarding knives, handguns, rifles, shotguns, clubs and explosives. Rate is per 1,000 total elementary, middle and junior high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school alcohol infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school after a violation of school alcohol policy and rate per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school assaults on other students or staff: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school after an assault on a student or staff member. Rate is per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school dropouts: Students dropping out or withdrawing from school in grades 7–12 from October 31 of one school year through October 31 of the next year given for one of the following reasons: failing grades, suspended or expelled, lack of interest, conflict with school, economic hardship, pregnancy/marriage, peer conflict, enrolled in GED, alcohol/drugs, health problems, or other. Rate is expressed as a percentage of all students enrolled in grades 7–12 as of October 1 of the previous year. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1990–2018, October of each fiscal year.*

High school drug infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school after a violation of school drug policy and rate per 1,000 total high school enrollment. Does not include tobacco infractions. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school gang involvement: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school for violation of school policy regarding gang involvement. Rate is per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school tobacco infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school after a violation of school tobacco policy and rate per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school vandalism: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school for vandalism. Rate is per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

High school weapons/explosives infractions: Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in high school after a violation of school policy regarding knives, handguns, rifles, shotguns, clubs and explosives. Rate is per 1,000 total high school enrollment. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1999–2018, June of each fiscal year.*

Homeless children enrolled in public school: Students enrolled in public school who lack a fixed, regular and adequate place of residence. In general, children and youth living in welfare motels, hotels, transitional housing shelters, the streets, cars, camping grounds, temporarily abandoned buildings, “doubled up” with other families because of a loss of housing or similar situations, and other inadequate accommodations are considered homeless. The rate is per 1,000 total public school enrollment, pre-K through grade 12. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1990–2018, October of each fiscal year.*

Homicide victims: Number of deaths due to injuries purposely inflicted by another person and rate per 1,000 population. Deaths by homicide were identified using ICD-10 codes X85–Y09, Y87.1. Deaths due to legal intervention are excluded. All data are the most recent available. *SOURCE: Arkansas Department of Health, Health Statistics. AVAILABILITY: 1990–2018, calendar year.*

Infant mortality: Number of deaths of infants under one year of age and rate per 1,000 live births. All data are the most recent available.

SOURCE: Arkansas Department of Health, Health Statistics Branch. AVAILABILITY: 1990–2018, calendar year.

Juvenile arrests for drug/narcotics (NIBRS): Number of juvenile (under age 18) arrests for drug law violations (possession, sale, use, growing and manufacturing of illegal drugs) and rate per 1,000 population ages 10–17, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE: Arkansas Crime Information Center, Arkansas Crime Statistics. AVAILABILITY: 2005–2018, calendar year.*

Juvenile arrests for drunkenness (NIBRS): Number of juvenile (under age 18) arrests for public drunkenness and rate per 1,000 population ages 10–17, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County in 2016. *SOURCE: Arkansas Crime Information Center, Arkansas Crime Statistics. AVAILABILITY: 2005–2018, calendar year.*

Juvenile arrests for DUI (NIBRS): Number of juvenile (under age 18) arrests for driving or operating any vehicle or common carrier while drunk or under the influence of alcohol or narcotics and rate per 1,000 population ages 10–17, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE: Arkansas Crime Information Center, Crime in Arkansas. AVAILABILITY: 2005–2018, calendar year.*

Juvenile arrests for liquor law violations (NIBRS): Number of juvenile (under age 18) arrests for violations of liquor laws and rate per 1,000 population ages 10–17, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE: Arkansas Crime Information Center, Arkansas Crime Statistics. AVAILABILITY: 2005–2018, calendar year.*

Juveniles in alcohol/drug abuse treatment: Number of juveniles ages 0–17 in state supported alcohol and drug abuse treatment programs by fiscal year. Rate is per 1,000 population ages 0–17. *SOURCE: Arkansas Department of Human Services, Division of Behavioral Health Services. AVAILABILITY: 1992–2018, state fiscal year.*

Low birthweight births: Number of all babies born weighing less than 2,500 grams and rate per 1,000 live births. All data are the most recent available. *SOURCE: Arkansas Department of Health, Health Statistics Branch. AVAILABILITY: 1990–2018, calendar year.*

Lung cancer deaths: The number of Arkansas deaths from malignant neoplasms of trachea, bronchus and lung. Deaths from lung cancer were identified using ICD-10 codes C33–C34. The rate is expressed per 100,000 population. Data from counties with fewer than five deaths have been

suppressed. *SOURCE: Arkansas Department of Health, Health Statistics Branch. AVAILABILITY: 1990–2018, calendar year.*

Net migrants to Arkansas: Number of new residents moved into an area minus the number of residents moved out of an area. The rate is expressed as a percent of the total population. (Net migration data are not available for 2010.) *SOURCE: Population Estimates Program, Population Division, U.S. Bureau of the Census. AVAILABILITY: 2011–2015, 2012–2016, 2013–2017 and 2014–2018 calendar year.*

New AIDS cases: Number of new reported cases of AIDS and rate per 1,000 population. Case numbers 1–5 are suppressed and are excluded from regional and state aggregates. *SOURCE: Arkansas Department of Health, Arkansas eHARS (enhanced HIV/AIDS Reporting System). AVAILABILITY: 2002–2018, calendar year.*

New HIV cases: Number of new reported cases of HIV infection and rate per 1,000 population. Case numbers of 1–5 are suppressed and are excluded from regional and state aggregates. *SOURCE: Arkansas Department of Health, Arkansas eHARS (enhanced HIV/AIDS Reporting System). AVAILABILITY: 2002–2018, calendar year.*

New home construction: Average yearly number of new building permits issued for single and multifamily dwellings per 1,000 population. Montgomery and Pike counties either have no permit-issuing system or have discontinued the permit-issuing system. *SOURCE: U.S. Bureau of the Census, State/County Permit Authorized Construction in Permit Issuing Places. AVAILABILITY: 1990–2018, calendar year.*

Percentage of 4th graders below grade level in literacy: Number and percentage of students scoring below grade level in literacy on the Arkansas Benchmark Exams. These data were reported by the Arkansas Department of Education in whole percentages by school district and for the state. County values were obtained by multiplying the percentage below grade level as reported by ADE by the total number of test scores processed. The result was summed by county, and county percentages were then calculated. Due to the precision of the data reported by ADE, the county values in these profiles are approximations and may not add up to reported state totals. Beginning in 2015, data are not available. *SOURCE: Arkansas Department of Education, Criterion Referenced Test, Benchmark Examination, General Population. AVAILABILITY: 2001–2014, April of each fiscal year.*

Percentage of 4th graders below grade level in math: Number and percentage of students scoring below grade level in mathematics on the Arkansas Benchmark Exams. These data were reported by the Arkansas Department of Education in whole percentages by school district and for the state. County values were obtained by multiplying the percentage below grade level as reported by ADE by the total number of test scores processed. The result was summed by county, and county percentages were then calculated. Due to the precision of the data reported by ADE,

the county values in these profiles are approximations and may not add up to reported state totals. Beginning in 2015, data are not available. *SOURCE: Arkansas Department of Education, Criterion Referenced Test, Benchmark Examination, General Population. AVAILABILITY: 2001–2014, April of each fiscal year.*

Population under 21: Total Arkansas population under age 21. *SOURCE: National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories. AVAILABILITY: 1990–2018, July 1 of each year.*

Pregnant women in alcohol or drug treatment: Number of pregnant women receiving alcohol or drug treatment from state-supported treatment centers by fiscal year and rate per 1,000 live births. *SOURCE: Arkansas Department of Human Services, Division of Behavioral Health Services. AVAILABILITY: 2005–2018, state fiscal year.*

Private club permits: Number of private club permits and rate per 1,000 total population as of the end of October of each year. Data are not annualized. This figure represents the number of valid permits in October/November of each year. *SOURCE: Arkansas Department of Finance and Administration, Alcoholic Beverage Control. AVAILABILITY: 2000–2018, census date.*

Public school enrollment (elementary and middle school): Public school enrollment in elementary and middle school. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1990–2018, October 1 of each fiscal year.*

Public school enrollment (grades 7–12): Public school enrollment in grades 7–12. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1990–2018, October 1 of each fiscal year.*

Public school enrollment (total, including pre-K): Total public school enrollment, including pre-K. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 1990–2018, October 1 of each fiscal year.*

Renter-occupied housing units: All occupied units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter-occupied. A housing unit is owner occupied if the owner or co-owner lives in the unit even if it is mortgaged or not fully paid for. The rate is per 1,000 total occupied housing units reported by the U.S. Census. *SOURCE: U.S. Bureau of the Census, Decennial Census of Population and Housing. AVAILABILITY: 1990, 2000 and 2010 decennial census.*

Residences without a complete kitchen or plumbing: Number of occupied housing units lacking complete kitchen or plumbing facilities and

the percentage of total occupied housing units that lack those facilities. Complete kitchen facilities include all of the following: a sink with piped water, a range or cook top and oven, and a refrigerator. Complete plumbing facilities must include hot and cold piped water available at a sink, wash basin or shower; a flush toilet connected to piped water; and a bathtub or shower connected to piped water. All facilities must be inside the unit but not necessarily in the same room. *SOURCE: U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS). AVAILABILITY: 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.*

Sexually transmitted diseases: Number of reported gonorrhea, chlamydia and syphilis cases and rate per 1,000 population by calendar year. Data are not available for 2018. *SOURCE: Arkansas Department of Health, HIV-AIDS-STI Surveillance, 2018 STI Annual Surveillance Report. AVAILABILITY: 1995–2017, calendar year.*

State correction prisoners received: Number of new admissions to state prisons by fiscal year and the prisoners' county of residence and rate per 1,000 population. Does not include inmates admitted via Interstate Compact or County Jail Backup. *SOURCE: Arkansas Department of Correction. AVAILABILITY: 1993–2018, state fiscal year.*

Status dropouts: Number and percentage of the population ages 18–24 who have not completed high school. Calculated as total number of persons ages 18–24 who have not completed high school divided by the total population ages 18–24. *SOURCE: U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) AVAILABILITY: 1990, 2000 and 2010 decennial census; 2010–2014, 2011–2015, 2012–2016, 2013–2017 and 2014–2018 ACS 5-year estimates.*

Students leaving school for incarceration: The number of reported students withdrawing from school due to incarceration. The rate is per 1,000 of all students enrolled in grades 7–12 as of October 1 of the previous year. *SOURCE: Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network. AVAILABILITY: 2001–2018, federal fiscal year.*

Tobacco distributors: Number of retail tobacco permits issued during each fiscal year and rate per 1,000 population. The count includes retail cigarette and tobacco permits and general tobacco products vending permits. Temporary permits are not included. *SOURCE: Arkansas Tobacco Control Board. AVAILABILITY: 1997–2018, state fiscal year.*

Tobacco sales to minors: The number of failed tobacco compliance checks conducted by the Arkansas Tobacco Control Board. Rates are expressed as a percentage of the total tobacco checks conducted. Compliance checks are conducted at random. In any given year, some counties could have no compliance checks or very few checks. Use the rates reported with caution. *SOURCE: Arkansas Tobacco Control Board, Annual Compliance Reports. AVAILABILITY: 2002–2018, state fiscal year.*

Total arrests for drug/narcotics (NIBRS): Number of arrests for drug law violations (possession, sale, use, growing and manufacturing of illegal drugs) and rate per 1,000 population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC has not received any data for Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Total arrests for drunkenness (NIBRS): Number of arrests for public drunkenness and rate per 1,000 population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Total arrests for DUI (NIBRS): Number of arrests for driving or operating any vehicle or common carrier while drunk or under the influence of alcohol or narcotics and rate per 1,000 population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Total arrests for liquor law violations (NIBRS): Number of arrests for violations of liquor laws and rate per 1,000 population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2005–2018, calendar year.

Total births: Total number of live births. A live birth is defined as the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life. All data are the most recent available. *SOURCE:* Arkansas Department of Health, Health Statistics Branch. *AVAILABILITY:* 1990–2018, calendar year.

Total crime index offenses: Number of crime index offenses and rate per 1,000 total population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). Total crime index offenses, including murder, rape, robbery, aggravated assault, burglary, theft, motor vehicle theft and arson. ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2004–2018, calendar year.

Total population: Total Arkansas population. *SOURCE:* National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories. *AVAILABILITY:* 1990–2018, July 1 of each year.

Total property crime offenses: Number of property crime offenses and rate per 1,000 population, as reported to ACIC through the National

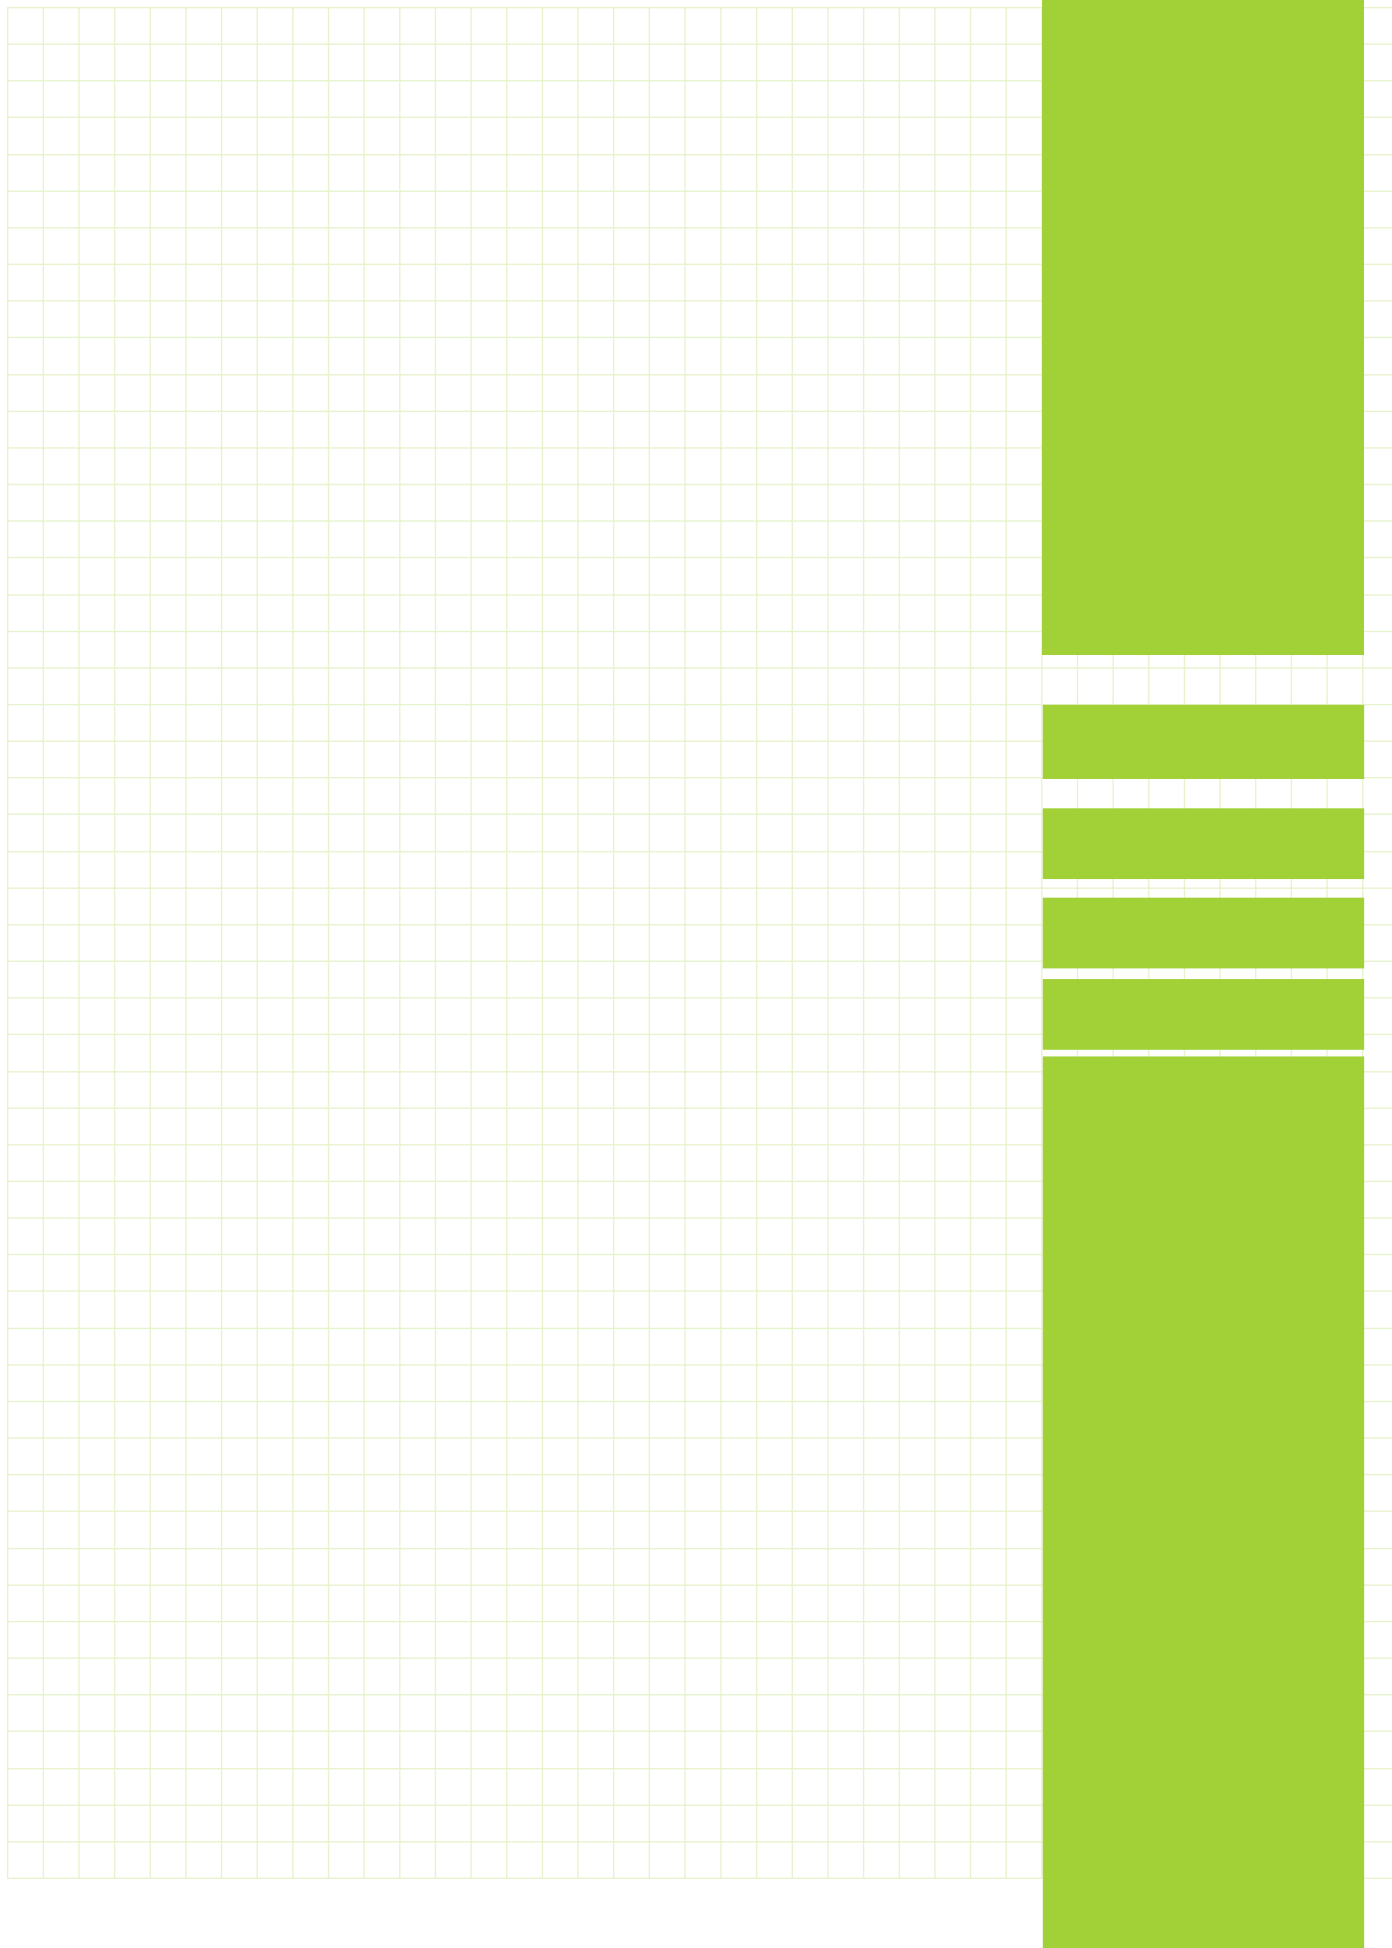

Incident-Based Reporting System (NIBRS). Total offenses for property crimes include burglary, theft, motor vehicle theft and arson. ACIC did not receive data from Hot Spring County 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2004–2018, calendar year.

Total violent crime offenses: Number of violent crime offenses and rate per 1,000 population, as reported to ACIC through the National Incident-Based Reporting System (NIBRS). Total offenses for violent crimes include murder, rape, robbery, and aggravated assault. ACIC did not receive data from Hot Spring County for 2014, 2015, 2017 and 2018 or from Nevada County for 2016. *SOURCE:* Arkansas Crime Information Center, Arkansas Crime Statistics. *AVAILABILITY:* 2004–2018, calendar year.

Traffic crashes involving underage drinking drivers: The number of traffic accidents in which any of the involved drivers were under age 21 and under the influence of alcohol. Totals may be inflated due to individual crashes being counted more than once. The rate is per 1,000 population under age 21. *SOURCE:* Arkansas State Police, Highway Safety Office. *AVAILABILITY:* 2003–2017, calendar year.

Unemployment: An estimate of the number of persons who were able to work and available for work and (1) were looking for work or (2) would have looked for work except that (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report to a new job. The rate is expressed as a percentage of the civilian labor force. These numbers are annual averages and are not seasonally adjusted. The numbers reflect revised population controls and model re-estimation. *SOURCE:* U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics: Public Data Query. *AVAILABILITY:* 1990–2018, calendar year.

Victims of child maltreatment: Number of victims of child maltreatment relating to abuse and neglect from cases founded by the Division of Children and Family Services (DCFS) or Suspected Child Abuse and Neglect (SCAN) by fiscal year and rate per 1,000 children under age 18. *SOURCE:* Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report. *AVAILABILITY:* 1991–2018, state fiscal year.
