INTRODUCTION

The *Risk Factors for Adolescent Drug and Alcohol Abuse in Arkansas – 2025* report demonstrates the Arkansas Department of Human Services (DHS) Office of Substance Abuse and Mental Health (OSAMH) and UA Little Rock MidSOUTH’s continued commitment to help Arkansans live productive lives, free from the abuse of alcohol, tobacco, and other drugs. The *Risk Factors* report has provided reliable behavioral health data and information for community and government leaders for more than 15 years. The data presented in the report are used to plan and inform prevention programs.

In Risk Factors reports prior to 2020, the organization and content were based on the work of J. David Hawkins and Richard F. Catalano of the Social Development Research Group at the University of Washington. Through their research, certain conditions in children’s community, school, family, and peer environments, as well as individual characteristics, were identified as common risk factors for social problems like drug abuse, delinquency, adolescent pregnancy and failure in school. The data in previous reports had been selected as indicators of the risk factors identified by their research.

Beginning with the 2020 Risk Factors report and extending into this current edition, there has been a strategic pivot in the risk factors collected, focused on refining and updating our approach to data collection. This change was driven by the determination that some of the original risk factors identified by J. David Hawkins and Richard F. Catalano of the Social Development Research Group at the University of Washington, which historically informed the Risk Factors report, no longer fully capture the evolving landscape of adolescent behavior in Arkansas. In response to these shifts and to ensure our research remains pertinent and actionable, we introduced 10 new indicators in 2020, carefully selected to reflect the contemporary environment and challenges facing Arkansas youth. Additionally, we have phased out certain indicators that, over time, have become less pertinent within our target population.

Despite these adjustments, our methodology remains firmly rooted in the foundational principles established by Hawkins and Catalano. Over 89% of the risk factors presented in this year’s report are included in Hawkins and Catalano’s research. 11% of the risk factors were added to reflect the current Arkansas environment. Additionally, our data, retroactively collected for past years where possible, upholds the integrity and reliability expected of our reports. No new indicators were added in 2025, signifying a period of consolidation and focus on the current set of metrics.

Risk Factors for Adolescent Drug and Alcohol Abuse in Arkansas was developed in cooperation with OSAMH and UA Little Rock MidSOUTH, with federal funds from the Substance Abuse and Treatment Block Grant, Substance Abuse and Mental Health Services Administration and the U.S. Department of Health and Human Services.

Risk Factors is designed to be a tool for Arkansas’ 13 regional prevention providers and other prevention leaders to increase the effectiveness of regional, county and community efforts to prevent the abuse of alcohol, tobacco, and other drugs. Before applying the information presented in this report at the county level, it is important to have knowledge about local conditions, risks, and resources as well as local prevention services already in place. Risk factors exist in different environments (i.e., community, family, school and peer/individual) and are grouped into domains accordingly.

Through providing the most recent data available and working with community and prevention leaders, we hope to decrease the incidence of substance abuse, depression, violence, and other problem behaviors in children.

Office of Substance Abuse and Mental Health (OSAMH) and UA Little Rock MidSOUTH Substance Abuse Prevention Regions

The 13 regional prevention providers were established by OSAMH and UA Little Rock MidSOUTH to promote alcohol, tobacco and other drug prevention efforts at the regional, county and community levels. Prevention providers respond to the needs of particular geographic regions and support the work of anti-drug coalitions, community organizations and institutions, constituency groups, and citizens to address prevention at the community level.

Percentage of Children, 2024

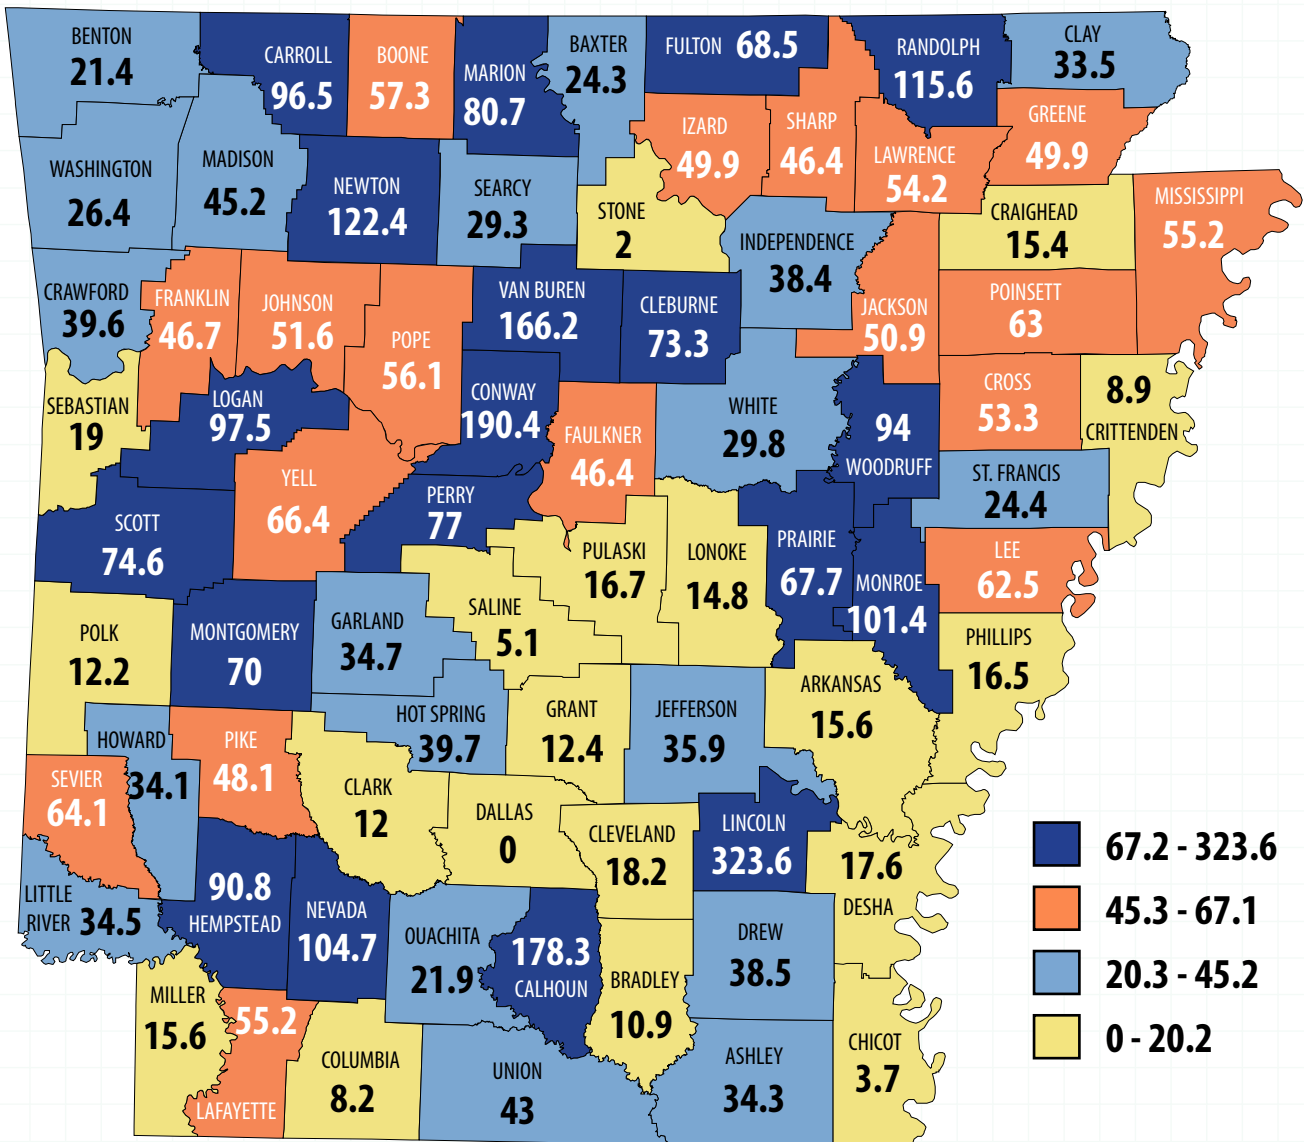

DEFINITION	Percentage of Arkansas population under age 18 of total population
SOURCE	National Center for Health Statistics (https://www.cdc.gov/nchs/nvss/bridged_race/data_documentation.htm)
STATE RATE	22.7%

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Homeless Children Enrolled in Public School, 2024

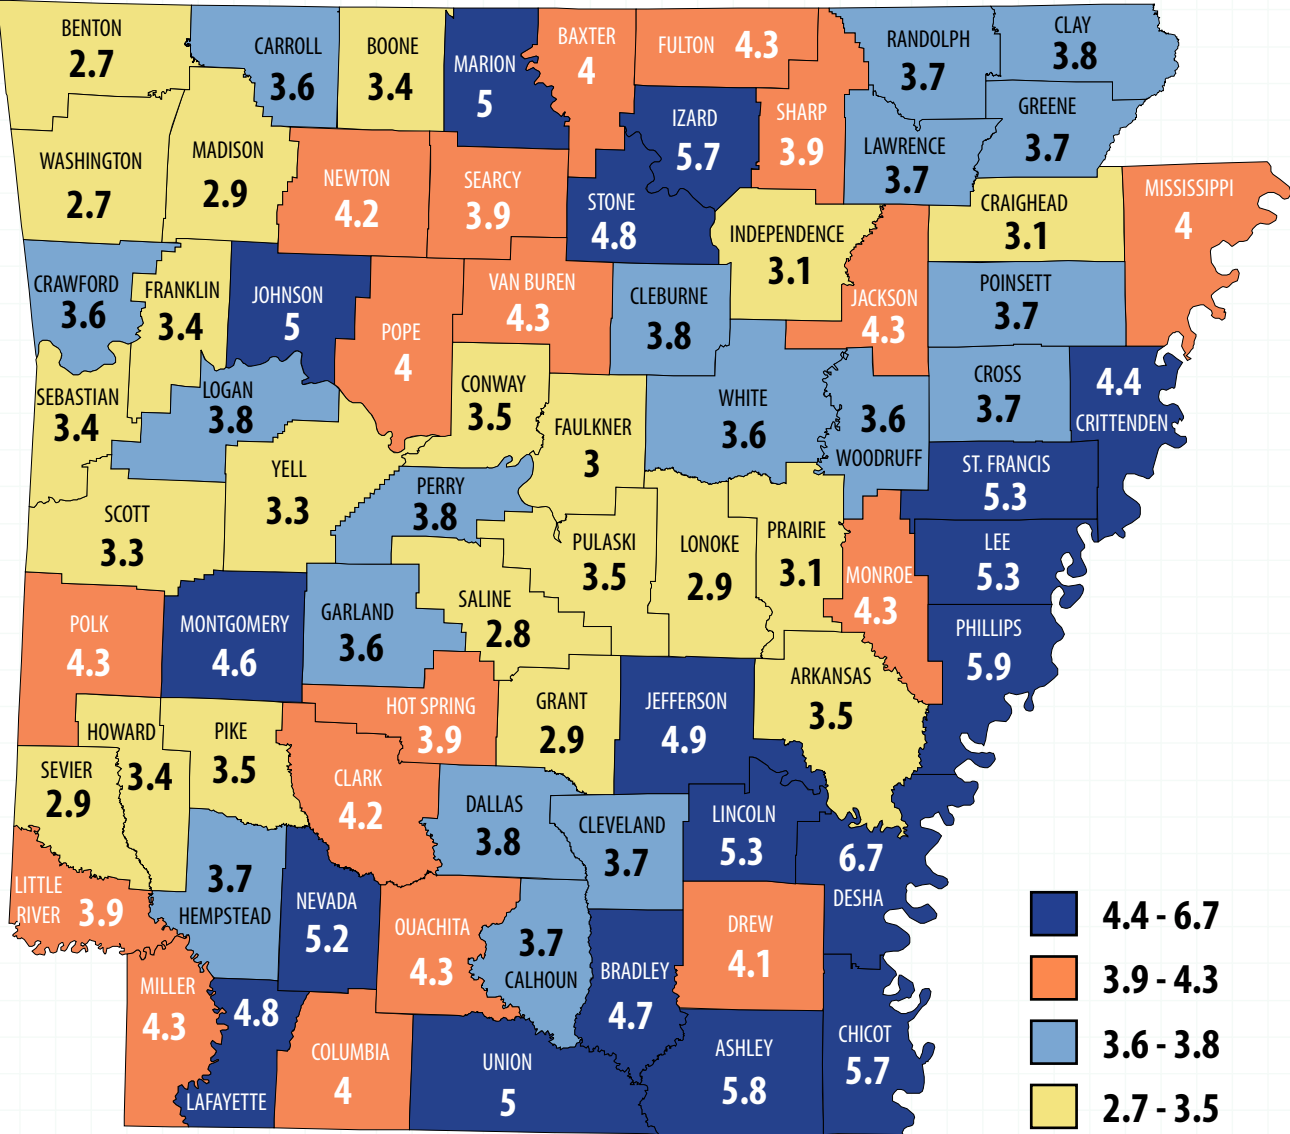

DEFINITION	Number of students enrolled in public school who lack a fixed, regular and adequate place of residence. Rate is per 1,000 total public school enrollments, Pre-K through grade 12.
SOURCE	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network (https://adedata.arkansas.gov/statewide/)
STATE RATE	33.8

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Unemployment Rates, 2024

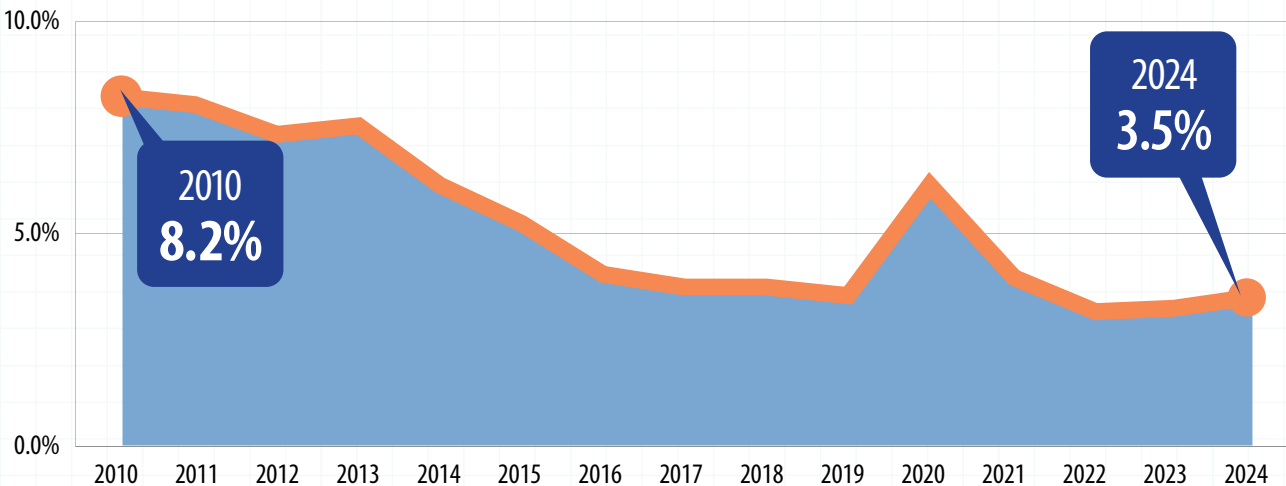

DEFINITION	An estimate of the number of persons who were able to work and available to work and: (1) were looking for work, or (2) would have looked for work except that: (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report for a new job The rate is expressed as a percentage of the civilian labor force. These numbers are annual averages and are not seasonally adjusted.
SOURCE	U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/lau/#cntyaa)
STATE RATE	3.5

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

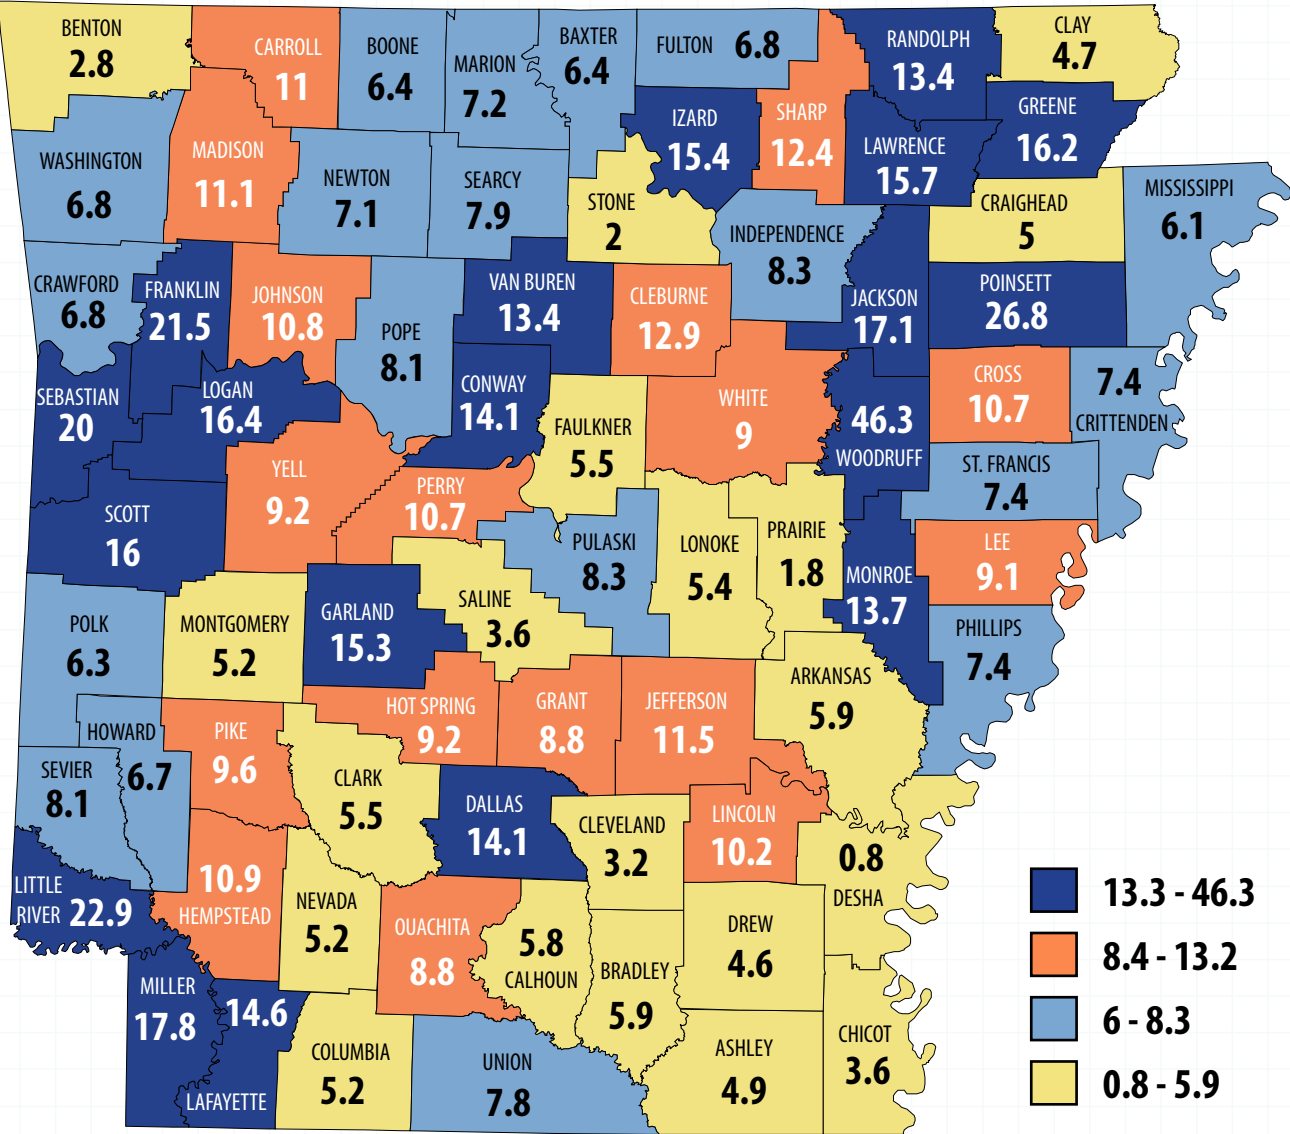

Unemployment Rates, 2010–2024

DEFINITION	"An estimate of the number of persons who were able to work and available to work and: (1) were looking for work, or (2) would have looked for work except that: (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report for a new job. The rate is expressed as a percentage of the civilian labor force."
SOURCE	U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/lau/#cntyaa)
DATA SHOWN	2010–2024, calendar year

Children Living in Foster Care, 2024

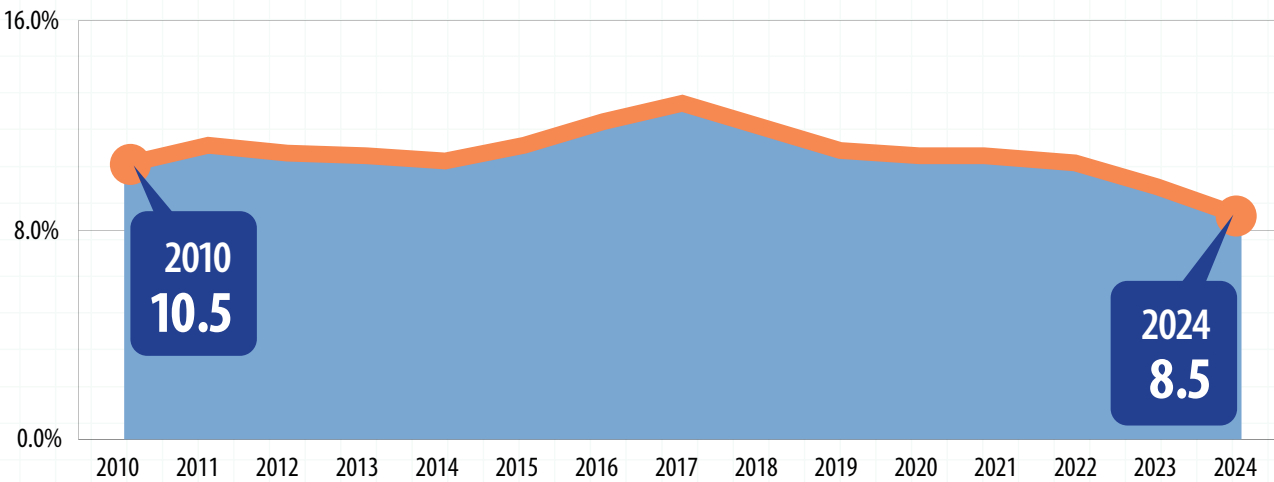

DEFINITION	Average daily number of children 0–17 years of age in state-supervised, family-based foster care by fiscal year and rate per 1,000 children 0–17 years of age.
SOURCE	Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report (https://humanservices.arkansas.gov/resources/reports/statistical-reports)
STATE RATE	8.5

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Children Living in Foster Care, 2010–2024

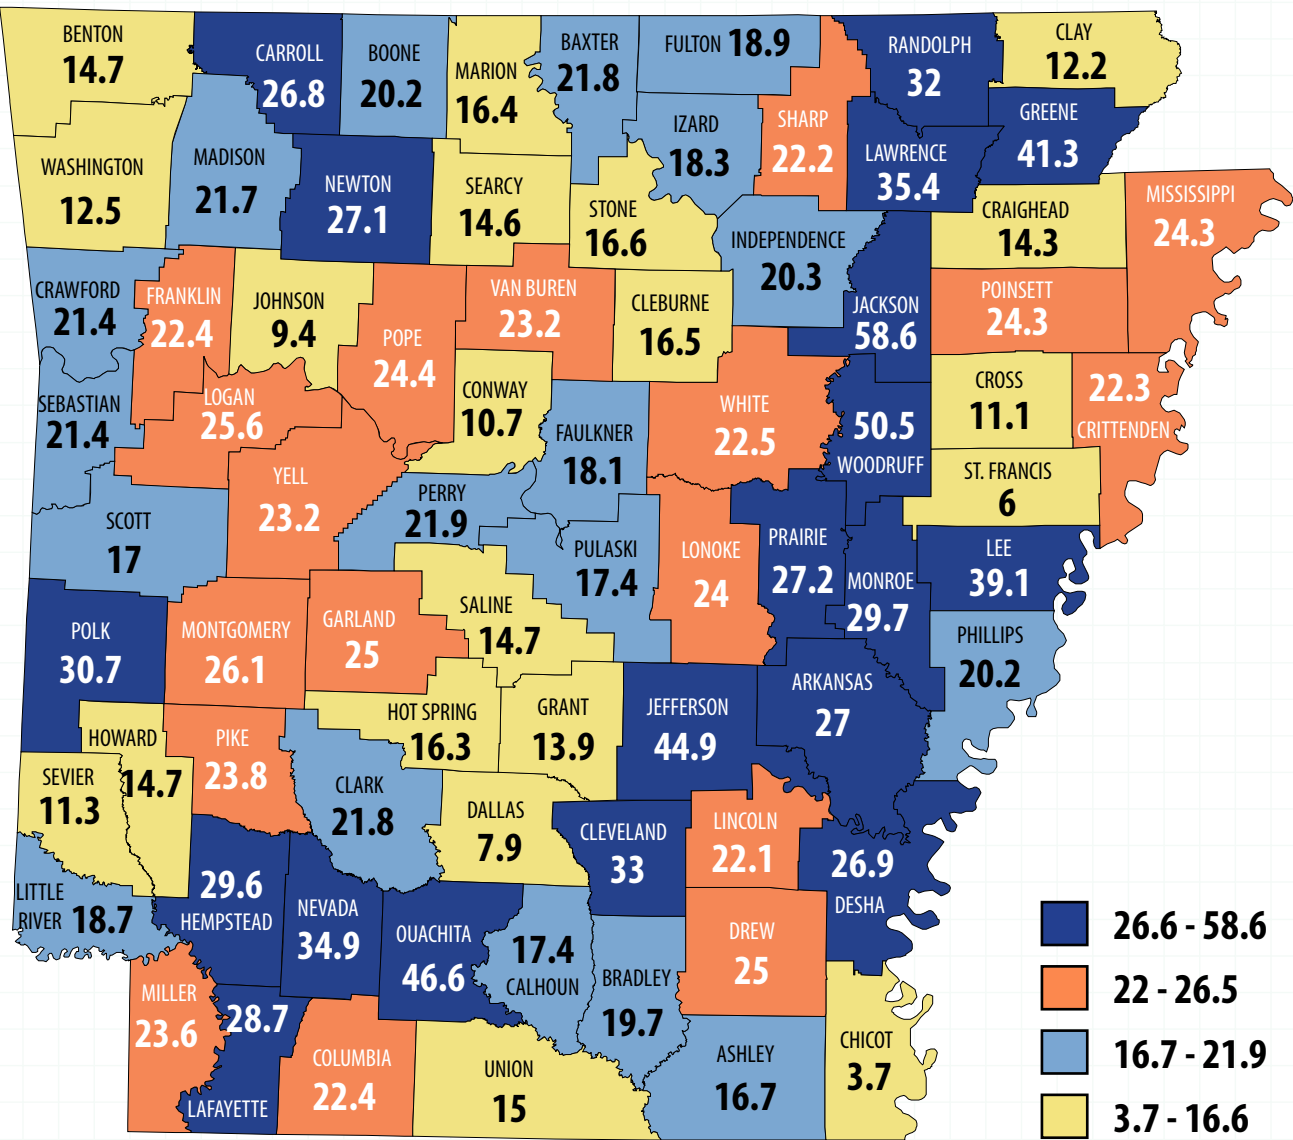

DEFINITION	Average daily number of children (ages 0–17) in state-supervised, family-based foster care by fiscal year per 1,000 children (ages 0–17)
SOURCE	Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report (https://humanservices.arkansas.gov/resources/reports/statistical-reports)
DATA SHOWN	2010–2024, state fiscal year

School Tobacco Infractions, 2024

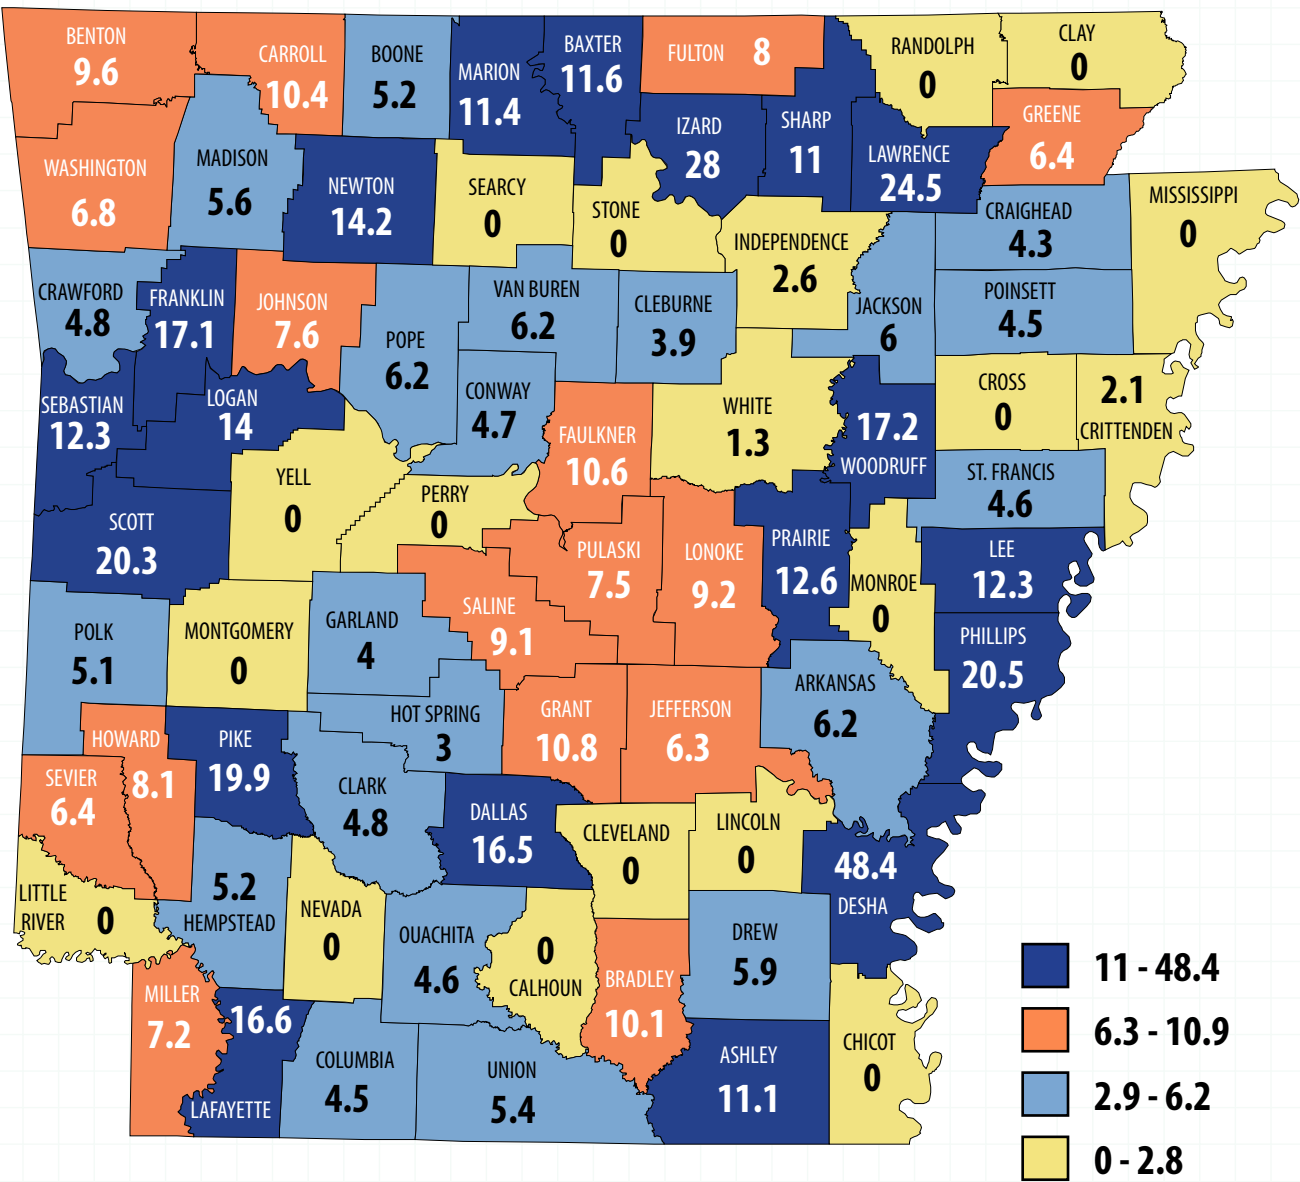

DEFINITION	Number of cases in which the school authority or court authority takes punitive action to reprimand the student after a violation of school tobacco policy. Rate is per 1,000 total public school enrollments, K through grade 12.
SOURCE	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network
STATE RATE	19.8

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Deaths from Alcoholic Liver Disease, 2024

DEFINITION	Number of Arkansas deaths from alcoholic liver disease per 100,000 population
SOURCE	Arkansas Department of Health, Vital Statistics
STATE RATE	7.4

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

10

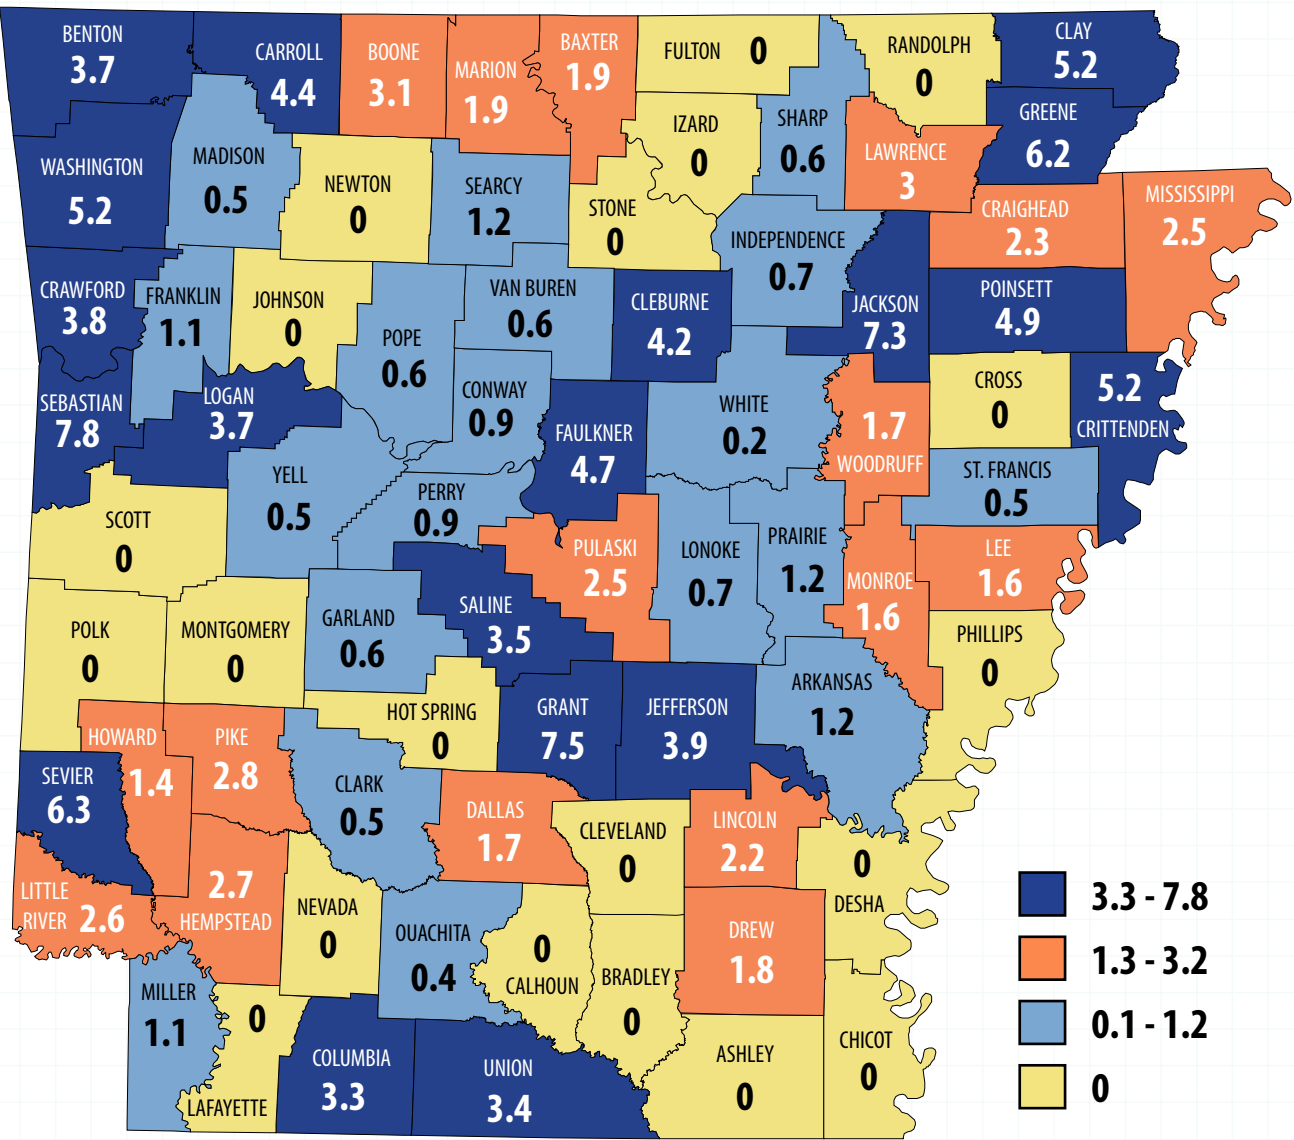

10

Juvenile Arrests for Drugs or Narcotics, 2024

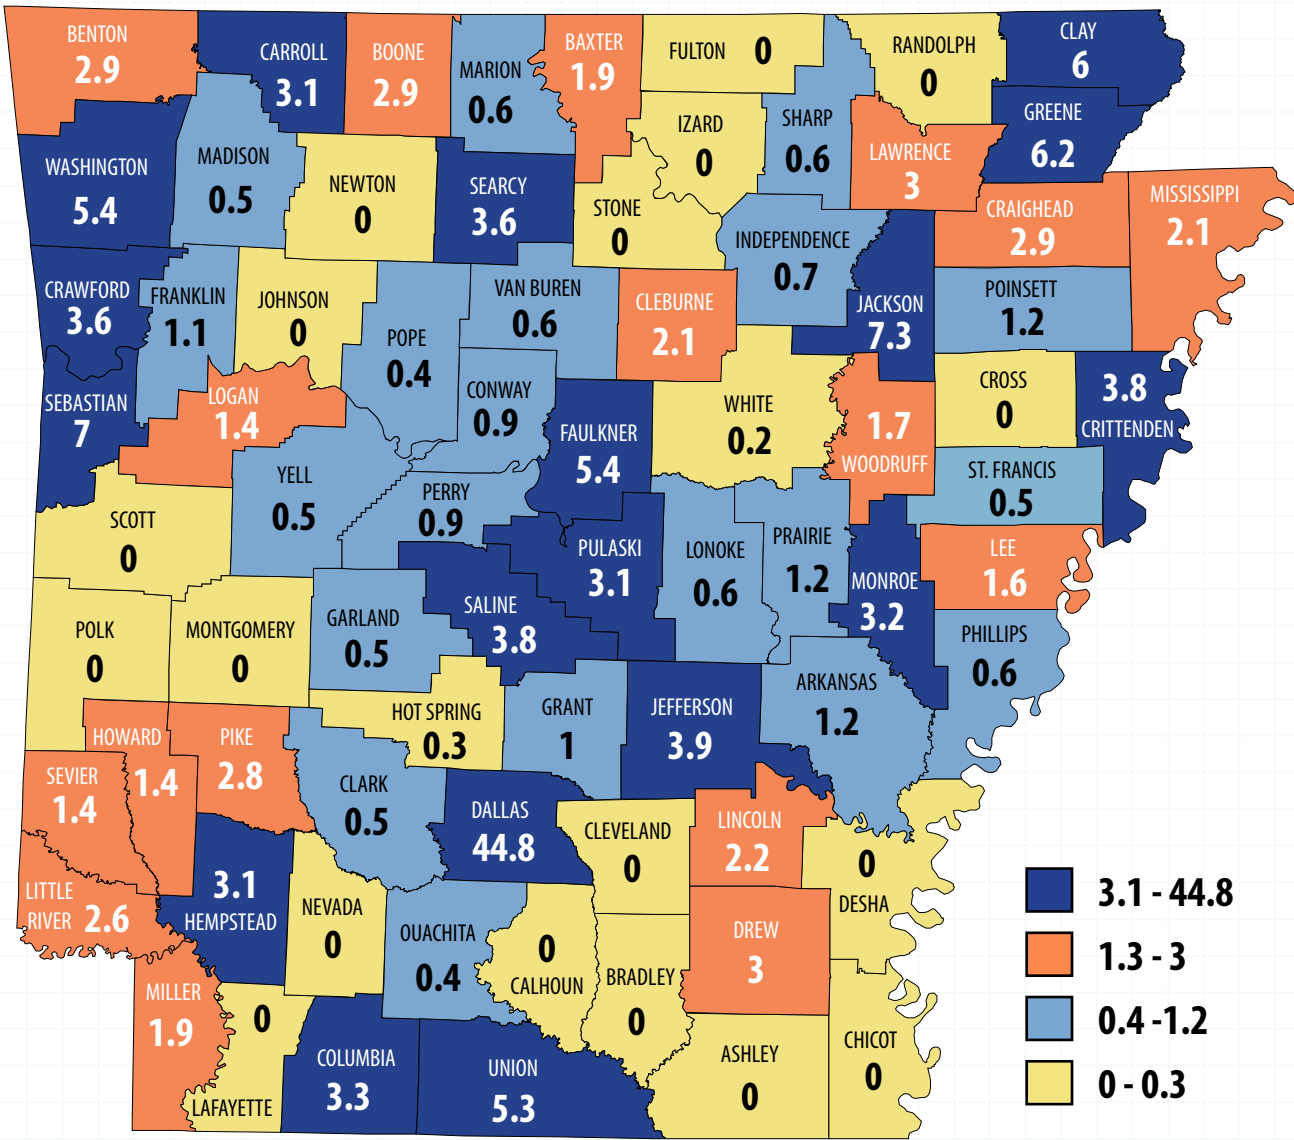

DEFINITION	Number of juvenile arrests for drug law violations per 1,000 population 10-17. Drug law violations include possession, sale, use, growing, and manufacturing of illegal drugs.
SOURCE	Arkansas Crime Information Center, Crime in Arkansas (https://www.dps.arkansas.gov/crime-info-support/arkansas-crime-information-center/crime-statistics/)
STATE RATE	2.9

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Juvenile Arrests for Cannabis, 2024

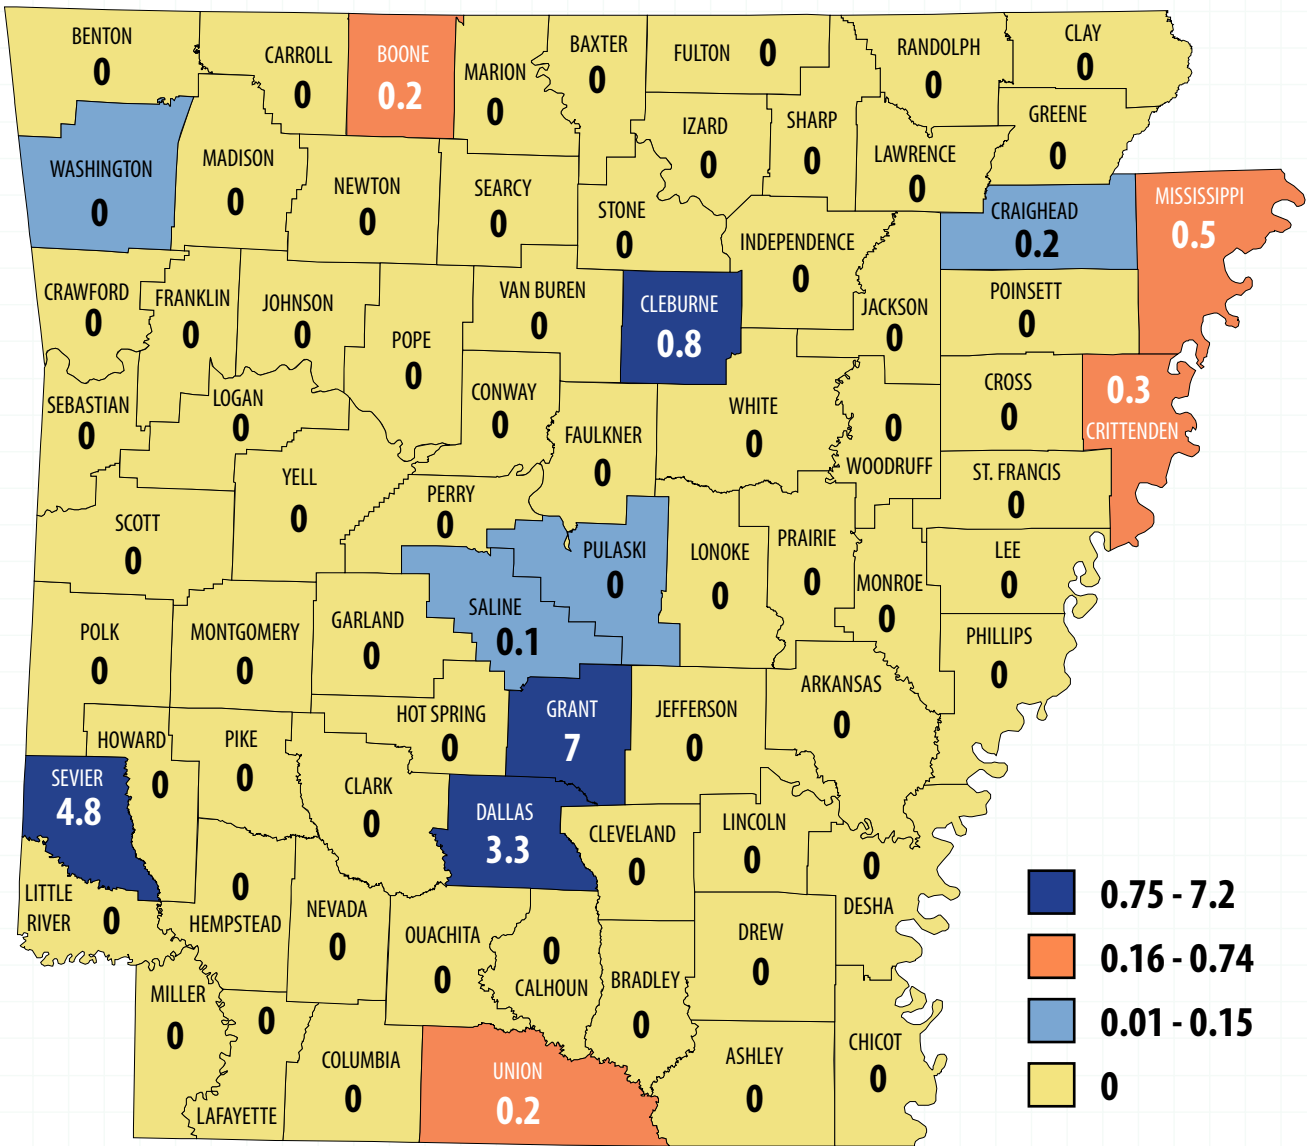

DEFINITION	Number of juvenile arrests for cannabis law violations per 1,000 population 10-17 years of age. Cannabis violations include possession, sale, use, and growing of cannabis.
SOURCE	Arkansas Crime Information Center, Arkansas Crime Statistics (https://www.dps.arkansas.gov/crime-info-support/arkansas-crime-information-center/crime-statistics/)
STATE RATE	2.9

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Juvenile Arrests for Prescription Drugs, 2024

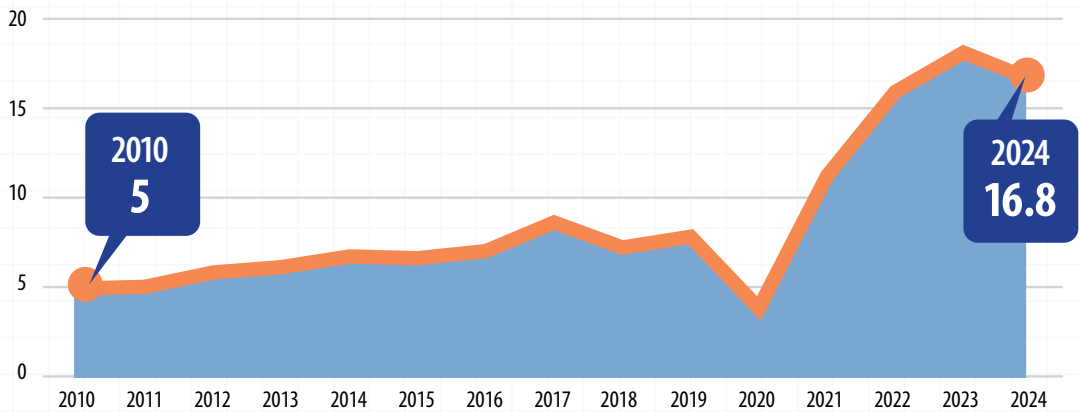

DEFINITION	Number of juvenile arrests for prescription drug law violations per 1,000 population 10-17 years of age. Prescription drug law violations include illegal possession, sale, and use of prescription drugs. Prescription drugs include barbiturates, morphine, opium, depressants (benzodiazepines, like Xanax and Klonopin and tranquilizers or antipsychotics, like Seroquel and Haldol) and stimulants (medications like Adderall, Vyvanse and Ritalin).
SOURCE	Arkansas Crime Information Center, Arkansas Crime Statistics (https://www.dps.arkansas.gov/crime-info-support/arkansas-crime-information-center/crime-statistics/)
STATE RATE	0.12

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

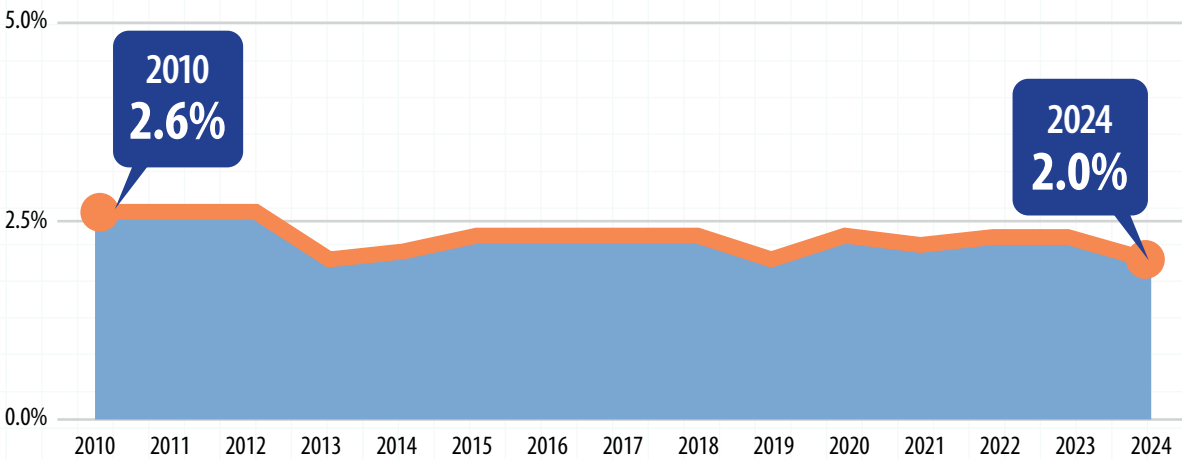

School Assaults on Other Students or Staff, 2010–2024

DEFINITION	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student after an assault on a student or staff member. Rate is per 1,000 total public school enrollments, K through grade 12.
SOURCE	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network (https://adedata.arkansas.gov/statewide/)
DATA SHOWN	2010–2024, June of each fiscal year

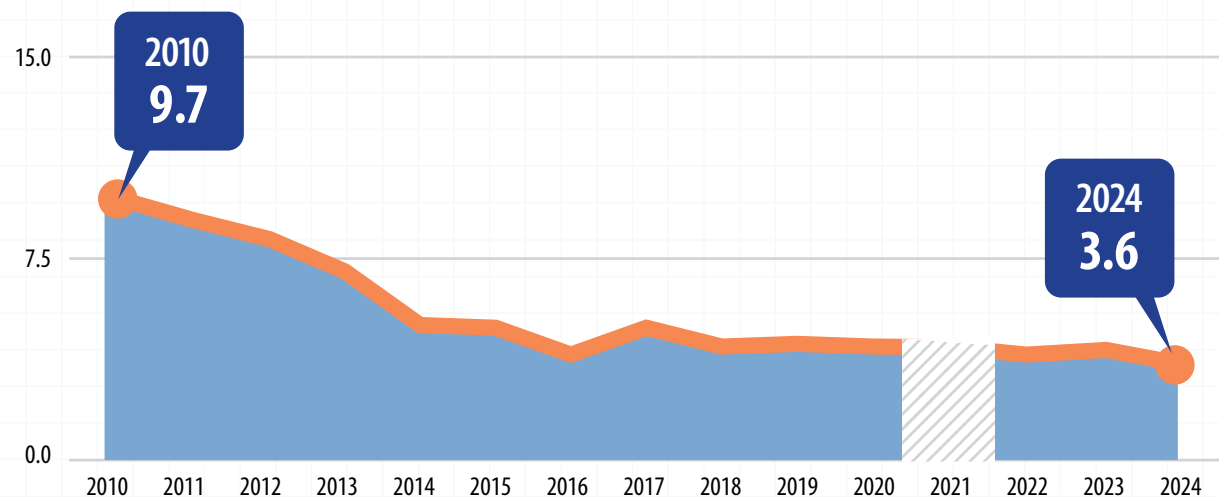

High School Dropouts, 2010–2024

DEFINITION	Public school students dropping out or withdrawing from school in grades 7–12 from Oct. 31 of one school year through Oct. 31 of the next year giving one of the following reasons: failing grades, suspended or expelled, lack of interest, conflict with school, economic hardship, pregnancy/marriage, peer conflict, enrolled in GED, alcohol/drugs, health problems, or other. The rate is expressed as a percentage of public school students enrolled in grades 7–12 as of Oct. 1 of the previous year.
SOURCE	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network (https://adedata.arkansas.gov/statewide/)
DATA SHOWN	2010–2024, June of each fiscal year

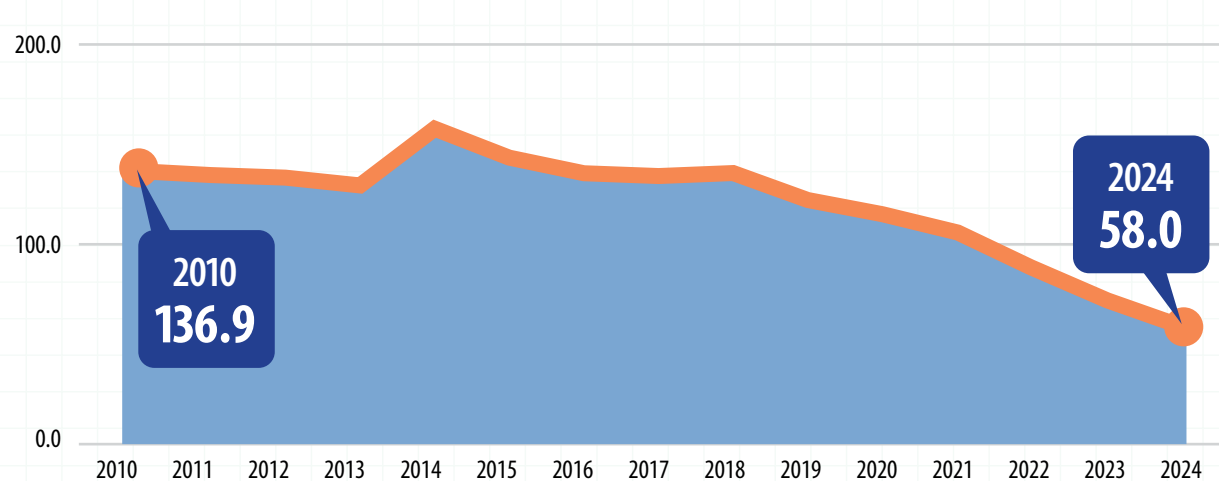

Births to Mothers Age 10-17, 2010-2024

DEFINITION	Number of live births to girls age 10–17 per 1,000 girls ages 10–17
SOURCE	Arkansas Department of Health, Center for Health Statistics
DATA SHOWN	2010–2024, calendar year

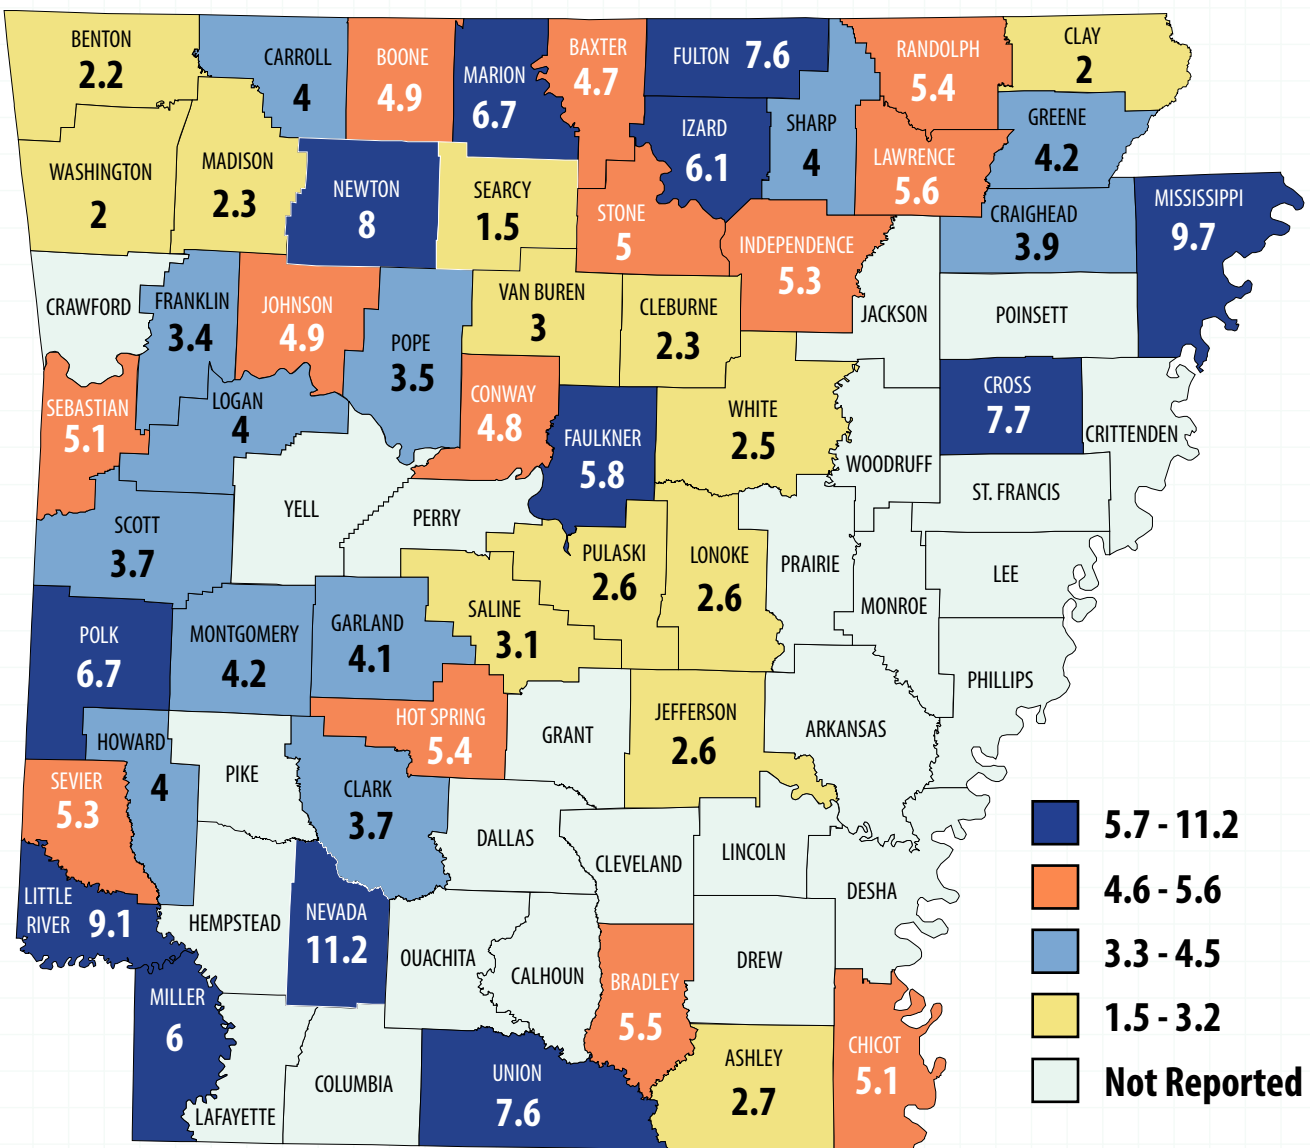

Births to Women Using Tobacco During Pregnancy, 2010–2024

DEFINITION	Number of births to women who used tobacco during their pregnancy per 1,000 total births
SOURCE	Arkansas Department of Health, Center for Health Statistics
DATA SHOWN	2010–2024, calendar year

Juvenile Rate of Use for E-Cigarettes/Vape Devices, 2024

DEFINITION	Percent of juveniles who report regularly using e-cigarettes/vape devices.
SOURCE	Arkansas Prevention Needs Assessment (https://arkansas.pridesurveys.com/counties.php?year=2024)
STATE RATE	3.8

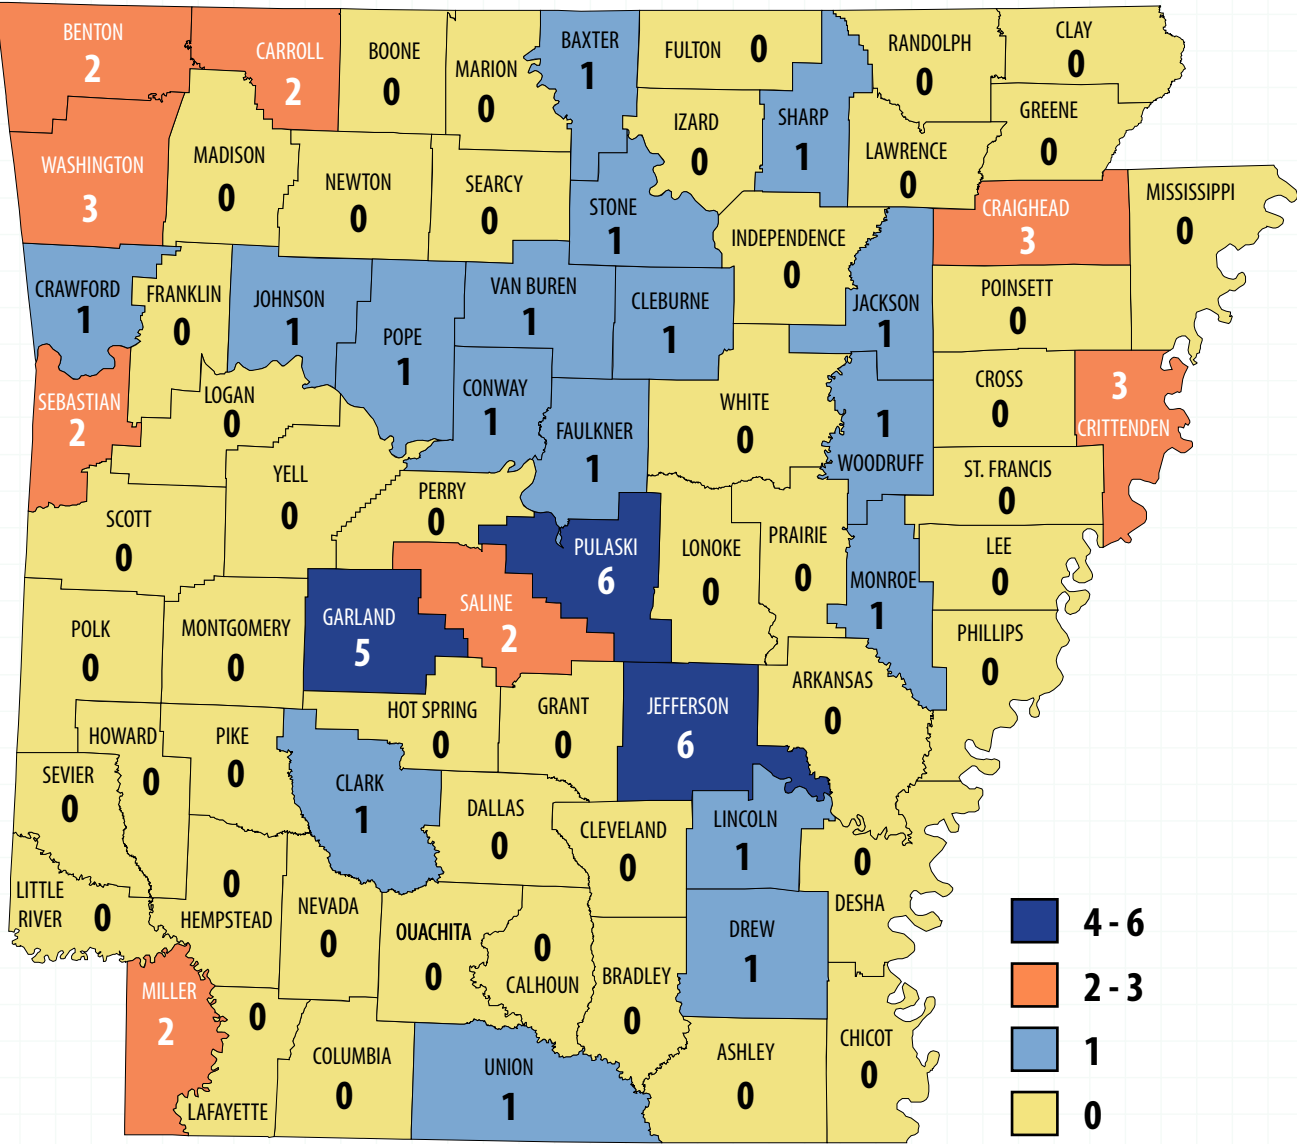

*Arkansas, Calhoun, Cleveland, Columbia, Crawford, Crittenden, Dallas, Desha, Drew, Grant, Hempstead, Jackson, Lafayette, Lee, Lincoln, Monroe, Ouachita, Perry, Phillips, Pike, Poinsett, Prairie, St. Francis, Woodruff, Yell counties did not report in 2024.

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

Cannabis Cultivators and Dispensaries, 2024

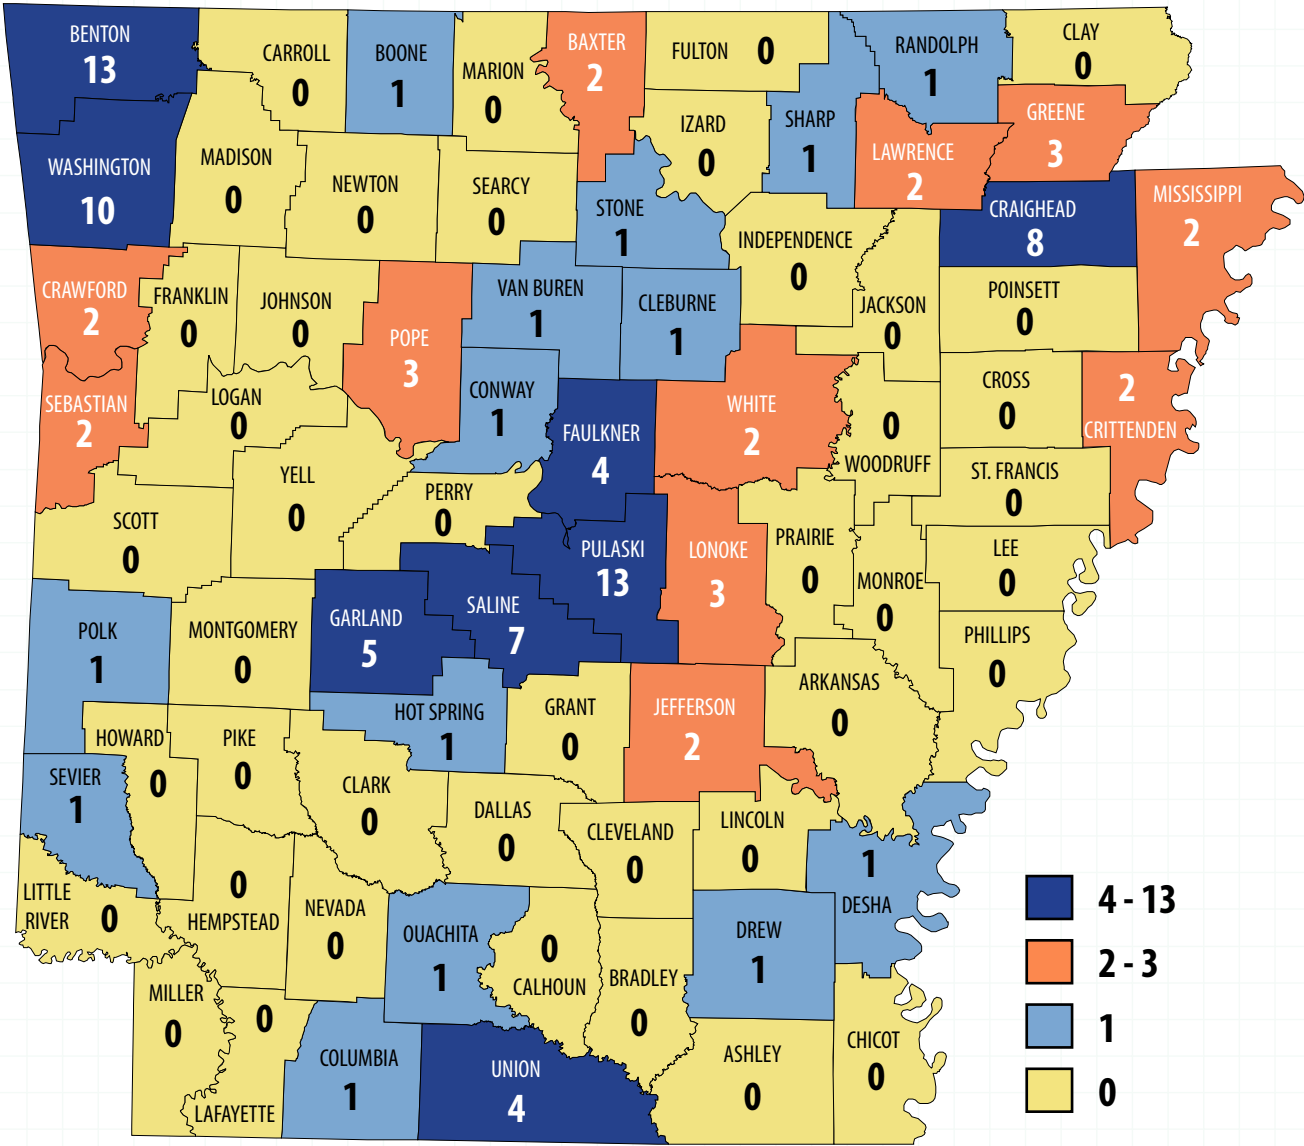

DEFINITION	Number of cannabis cultivations and dispensaries. A cultivation refers to the growing of cannabis. A dispensary is location in which a person can purchase cannabis and cannabis related items for medicinal use. In a medical cannabis dispensary store, a patient receives cannabis as allowed per the patient's doctor's recommendation.
SOURCE	Arkansas Department of Finance and Administration, Division of Arkansas Tobacco Control
STATE TOTAL	53

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

E-Cigarette/Vape Device Distributors, 2024

DEFINITION	Number of retail e-cigarette and vaping distribution permits issued during each fiscal year.
SOURCE	Arkansas Department of Finance and Administration, Division of Arkansas Tobacco Control
STATE TOTAL	103

NOTE: Ranges displayed on the maps are expressed as quartile ranges. Since data are constantly changing across the state, ranges will vary year to year. Ranges are displayed as a reference for county-level comparison in an individual year.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

• Deaths from alcoholic liver disease (per 100k)	18	229.5	0	0.0	0	0.0	0	0.0	0	0.0

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

☑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ☑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the indicates a net loss in population

Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the indicates a net loss in population

Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the indicates a net loss in population
 Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

• Lung cancer deaths (per 100k)	86	70.4	70	56.4	87	72.9	95	80.1	90	75.9
• Deaths from alcoholic liver disease (per 100k)	6	4.9	11	8.9	8	6.7	6	5.1	7	5.9

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

❑ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ❑ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10 or because the data is masked for one or more county in the region.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

✔ Indicates a greater occurrence of the given risk factor indicator at the county or region level than at the state level for the most recent year available. For most indicators, this means that the county or region rate is greater than the state rate. For some indicators, however, (New Home Construction and some Educational Attainment indicators) it means that the county or region rate is lower than the state rate. For Net Migration, the ✔ indicates a net loss in population

^^^ Indicates data is masked because total is less than 10.

Some data are reported by fiscal year, some are reported by calendar year, and others are reported on a specific census date or five-year estimates. Consult the "Study Indicators" section for specific information. All rates are per 1,000 unless otherwise indicated.

Definitions and Notes

DEFINITIONS AND NOTES

CENSUS AND POPULATION DATA PRESENTED IN THIS REPORT

All population figures, including those for census years, are estimates of population as of July 1 of each year. Since census data are as of April 1, estimates are necessary for year 2020. These population estimates are revised periodically. As a result, the population figures in this book and the rates calculated with them will not necessarily match those in previous editions of this publication. Census 2020 was conducted using a short form with the American Community Survey (ACS) developed to replace the long form of the census. Where previous indicator data collected from decennial census was not available, five–year estimates from the American Community Survey were used. Estimate data represents data collected from 2014–2018, 2015–2019, 2016–2020, and a 1 year estimate for 2021, 2022, 2023, and 2024. While they are recorded in the last year’s column, they should not be viewed as point in time data estimates.

CAUTIONS REGARDING THE ARREST DATA PRESENTED IN THIS REPORT

Starting in 2002, the Arkansas Crime Information Center (ACIC) began a transition to a new incident-based arrest reporting system. This transition period has involved the statewide installation of new software, upgraded hardware and ongoing training. During this period, many jurisdictions were unable to maintain dual reporting systems. In 2005, approximately 63% of Arkansas jurisdictions used the National Incident-Based Reporting System (NIBRS) format, 32% used the older summary format and the remaining 5% failed to submit any arrest data for the year. Users should be aware that arrest data from recent years may not have the same reliability as earlier data and that a valid comparison cannot be made between summary data and NIBRS data. Detailed information about how arrest data are collected and reported can be found in the Crime in Arkansas report available at the ACIC web page (acic.org). Three data elements shown in the report (total arrests for crime index offenses, total arrests for property offenses and total arrests for violent crimes) are actually offense counts and not arrest counts.

RATES

Rates for data collected by fiscal years are calculated using the population data from the last half of the fiscal year. For example, the rate of children living in foster care per 1,000 children for FY 2020 (July 1, 2019, through June 30, 2020) is calculated by dividing the FY 2020

number of children in foster care by the population under 18 in calendar year 2020 and multiplying the result by 1,000. Numbers in the profiles have been rounded to one decimal place. Checkmarks were calculated using actual numbers not rounded numbers. Checkmarks are not assigned in Region or County tables where state values are masked.

THE RISK FACTORS PRESENTED IN THIS REPORT

The indicators presented in the tables of this publication were chosen to be measures of selected risk factors that longitudinal research has identified as precursors to adolescent drug and alcohol abuse. These risk factors are grouped into the domains of community, family, school and peer/individual. These categories are the work of J. David Hawkins and Richard F. Catalano of the Social Development Research Group at the University of Washington. The selected risk factors are listed below, and the accompanying definitions and explanations are drawn from the work of Hawkins and Catalano and from Arkansas Prevention Needs Assessment Student Survey, State Report: 2002, published by the Arkansas Department of Human Services.

COMMUNITY DOMAIN

- **Availability of alcohol, tobacco and other drugs:** The use of alcohol, tobacco and other drugs by adolescents is related to the availability of cigarettes, alcohol, cannabis and other illegal drugs in a community. The availability of handguns is also related to a higher risk of crime and substance use by adolescents.
- **Community disorganization:** Research has shown that high population density, physical deterioration and high rates of adult crime in a community are related to higher rates of juvenile crime.
- **Extreme economic deprivation:** Social isolation, extreme poverty and poor living conditions place children at elevated risk of chronic drug and alcohol abuse.
- **Community and personal transitions and mobility:** Neighborhoods with high rates of residential mobility have been shown to have higher rates of juvenile crime and drug selling, while children who experience frequent residential moves and stressful life transitions have been shown to have higher risk for school failure, delinquency and drug use.

FAMILY DOMAIN

- **Family conflict:** Children raised in families high in conflict, whether or not the child is directly involved in the conflict, appear at risk for both delinquency and drug use.

- **Family history of high risk behavior:** Children raised in families with a history of problems like drug and alcohol abuse, lack of commitment to school, or adolescent pregnancy are more likely to also exhibit these problems.

SCHOOL DOMAIN

- **Family conflict:** Children raised in families high in conflict, whether or not the child is directly involved in the conflict, appear at risk for both delinquency and drug use.
 - **Family history of high risk behavior:** Children raised in families with a history of problems like drug and alcohol abuse, lack of commitment to school, or adolescent pregnancy are more likely to also exhibit these problems.
- ### SCHOOL DOMAIN
- **Academic failure:** Beginning in elementary grades 4–6, academic failure increases the risk of both drug abuse and delinquency. It seems that the experience of failure itself increases the risk of later problem behaviors.
 - **Lack of commitment to school:** Surveys of high school seniors have shown that the use of hallucinogens, cocaine, heroin, stimulants, and sedatives or nonmedically prescribed tranquilizers is significantly lower among students who expect to attend college than among those who do not. Factors such as liking school, spending time on homework and perceiving the coursework as relevant are also negatively related to drug and alcohol abuse.

PEER/INDIVIDUAL DOMAIN

- **Alienation, rebelliousness and lack of social bonding:** Young people who do not feel part of society, are not bound by rules, do not believe in trying to be successful or responsible, or who take an active rebellious stance toward society are at higher risk of abusing drugs.
- **Early initiation of problem behavior:** Onset of drug use prior to age 15 is a consistent predictor of later chronic abuse. Children who try drugs at an early age are more likely to try other drugs and use drugs more frequently. Individuals who begin using drugs at a later age show lower drug involvement and a greater probability of discontinuation of use.
- **Peers who engage in problem behavior:** Young people who associate with peers who engage in problem behaviors are at higher risk for engaging in antisocial behavior themselves. Young people who associate with peers who engage in alcohol or substance abuse are much more likely to engage in the same behavior. Peer drug use has

consistently been found to be among the strongest predictors of substance use among youth. Even when young people do not experience other risk factors, spending time with friends who use drugs greatly increases the risk of developing problem behaviors.

RISK FACTORS

FOR ADOLESCENT DRUG
AND ALCOHOL ABUSE IN ARKANSAS

2025

Study Indicators

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
DEMOGRAPHIC DATA: ECONOMIC DATA			
Civilian labor force	Number	The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded.	U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics: Public Data Query Data available by calendar year. Availability: 1999–2024
DEMOGRAPHIC DATA: POPULATION			
Children (under 18)	Number	Total Arkansas population less than 18 years of age	U.S. Census Bureau, Population Division. Availability: 1999–2024
Adolescents (10-17)	Number	Total Arkansas population 10–17 years of age	U.S. Census Bureau, Population Division. Availability: 1999–2024
Young Adults	Number	Total Arkansas population 18–21 years of age	U.S. Census Bureau, Population Division. Availability: 1999–2020, 2024
Adults (18 and older)	Number	Total Arkansas population 18 years of age and older	U.S. Census Bureau, Population Division. Availability: 1999–2024
Total Population	Number	Total Arkansas population	U.S. Census Bureau, Population Division. Availability: 1999–2024
Population under 21	Number	Total Arkansas population less than 21 years of age	U.S. Census Bureau, Population Division. Availability: 1999–2024
DEMOGRAPHIC DATA: SCHOOL ENROLLMENT			
Public school enrollment: Total (including Kindergarten)	Number	Total public school enrollment, Kindergarten through grade 12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year. Availability: 1999–2024
Public school enrollment: 7-12	Number	Public school enrollment in grades 7–12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 1999–2024
Public school enrollment: elementary and middle school	Number	Public school enrollment in elementary and middle school Note: This indicator is not mutually exclusive of public school enrollment 7–12.	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year. Availability: 1999–2024
Demographic Data: Vital Statistics			
Total births	Number	Total number of live births. A live birth is defined as the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life.	Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year. Availability: 1999–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Community Domain: Availability			
Tobacco sales to minors	Number/ Percentage	The number of failed tobacco compliance checks conducted by the Arkansas Tobacco Control Board. Numerator: Number of failed tobacco compliance checks Denominator: Total tobacco checks conducted	Arkansas Tobacco Control Board, Annual Compliance Reports Data available by state fiscal year. Availability: 2002–2024
Cannabis cultivators and dispensaries	Number	Number of cannabis cultivations and dispensaries. A cultivation refers to the growing of cannabis. A dispensary is location in which a person can purchase cannabis and cannabis related items for medicinal use. In a medical cannabis dispensary store, a patient receives cannabis as allowed per the patient’s doctor’s recommendation.	Arkansas Department of Finance and Administration, Division of Arkansas Tobacco Control *The first dispensary opened in May 2019. 2019 data is from May 2019 – December 2019. Availability: 2019–2024
Tobacco Distributors	Number	Number of retail tobacco permits issued during each fiscal year. Includes retail cigarette and tobacco permits and general tobacco products vending permits. Temporary permits are not included.	Arkansas Tobacco Control Board Data available by state fiscal year. Availability: 1997–2024
E-Cigarette/Vape Device Distributors	Number	Number of retail e-cigarette and vaping distribution permits issued during each fiscal year.	Arkansas Department of Finance and Administration, Division of Arkansas Tobacco Control Data available by state fiscal year. Availability: 2020–2024
Community Domain: Community Disorganization			
Homicide victims	Number/ Rate	Number of deaths due to injuries purposely inflicted by another person and rate per 1,000 population. Deaths due to legal intervention are excluded. Homicide deaths are identified using ICD-10 codes: X85-Y09, Y87.1 Numerator: Number of deaths due to injuries purposely inflicted by another person Denominator: Total Arkansas population	Homicide deaths: Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year. Population: National Center for Health Statistics, National Vital Statistics System, U.S. Census Populations with bridged race categories Availability: 1999–2024
State correction prisoners received	Number/Rate	Number of new admissions to state prisons by prisoners’ county of residence and rate per 1,000 population. Does not include inmates admitted via Interstate Compact or County Jail Backup Numerator: Number of new admissions to state prisons by prisoners’ county of residence. Denominator: Total Arkansas population	Admissions: Arkansas Department of Correction Data available by state fiscal year Population: U.S. Census Bureau, Population Division. Availability: 1993–2022

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Total crime index offenses	Number/Rate	Number of crime index offenses and rate per 1,000 total population. Crime index offenses include murder, rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. Numerator: Number of crime index offenses Denominator: Total Arkansas population	Crime index offenses: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Total property crime offenses	Number/Rate	Total offenses for property crimes and rate per 1,000 total population. Property crimes include burglary, theft, motor vehicle theft, and arson. Numerator: Number of property crime offenses Denominator: Total Arkansas population	Property crime offenses: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Total violent crime offenses	Number/Rate	Total offenses for violent crimes and rate per 1,000 total population. Violent crimes include murder, rape, robbery, and aggravated assault. Numerator: Number of violent crime offenses Denominator: Total Arkansas population	Violent crime offenses: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Adult arrests for drugs/narcotics	Number/Rate	Number of adult arrests for drug law violations and rate per 1,000 population 18 years and older. Drug law violations include possession, sale, use, growing, and manufacturing of illegal drugs. Numerator: Number of adult arrests for drug law violations Denominator: Arkansas population 18 years and older	Adult/unknown age arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Adult arrests for cannabis	Number/Rate	Number of adult arrests for cannabis law violations and rate per 1,000 population 18 years and older. Cannabis violations include possession, sale, use, and growing of cannabis. Numerator: Number of adult arrests for cannabis law violations Denominator: Arkansas population 18 years and older	Adult arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Adult arrests for prescription drugs	Number/Rate	Number of adult arrests for prescription drug law violations and rate per 1,000 population 18 years and older. Prescription drug law violations include illegal possession, sale, and use of prescription drugs. Prescription drugs include barbiturates, morphine, opium, depressants (benzodiazepines, like Xanax and Klonopin and tranquilizers or antipsychotics, like Seroquel and Haldol) and stimulants (medications like Adderall, Vyvanse and Ritalin). Numerator: Number of adult arrests for prescription drug law violations Denominator: Arkansas population 18 years and older	Adult arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Adult arrests for DUI	Number/Rate	Number of adult arrests for DUI and rate per 1,000 population 18 years and older. DUI refers to driving or operating any vehicle or common carrier while under the influence of alcohol or narcotics. Numerator: Number of adult arrests for DUI Denominator: Arkansas population 18 years and older	Adult arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Adult arrests for drunkenness	Number/Rate	Number of adult arrests for public drunkenness and rate per 1,000 population 18 years and older. Numerator: Number of adult arrests for public drunkenness Denominator: Arkansas population 18 years and older Note: Drunkenness was removed from group B arrests by the FBI in 2024; therefore, no drunkenness data is available in NIBRS for that year.	Adult arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2023
Adult arrests for liquor law violations	Number/Rate	Number of adult arrests for violations of liquor laws and rate per 1,000 population 18 years and older. Numerator: Number of adult arrests for liquor law violations Denominator: Arkansas population 18 years and older	Adult arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Total arrests for drugs/narcotics	Number/Rate	Number of arrests for drug law violations and rate per 1,000 total population. Drug law violations include possession, sale, use, growing, and manufacturing of illegal drugs. *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests. Numerator: Number of total arrests for drug law violations Denominator: Total Arkansas population	Total arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Total arrests for cannabis	Number/Rate	Total number of arrests for cannabis law violations and rate per 1,000 population. Cannabis violations include possession, sale, use, and growing of cannabis. *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests. Numerator: Number of arrests for cannabis law violations Denominator: Total Arkansas population	Total arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Total arrests for prescription drugs	Number/Rate	Total number of arrests for prescription drug law violations and rate per 1,000 population. Prescription drug law violations include illegal possession, sale, and use of prescription drugs. Prescription drugs include barbiturates, morphine, opium, depressants (benzodiazepines, like Xanax and Klonopin and tranquilizers or antipsychotics, like Seroquel and Haldol) and stimulants (medications like Adderall, Vyvanse and Ritalin). *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests.	Total arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Total arrests for DUI	Number/Rate	Number of arrests for DUI and rate per 1,000 total population. DUI refers to driving or operating any vehicle or common carrier while under the influence of alcohol or narcotics. *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests. Numerator: Number of total arrests for DUI Denominator: Total Arkansas population	Total arrests: Arkansas Crime Information Center, Crime in Arkansas; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Total arrests for drunkenness	Number/Rate	Number of arrests for public drunkenness and rate per 1,000 total population. *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests. Numerator: Number of total arrests for public drunkenness Denominator: Total Arkansas population Note: Drunkenness was removed from group B arrests by the FBI in 2024; therefore, no drunkenness data is available in NIBRS for that year.	Total arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. Total arrests for liquor law violations	Number/Rate	Number of adult arrests for violations of liquor laws and rate per 1,000 total population. *Totals also contain data where the age of the individual is unknown. Therefore, the total may not be equal to the sum of adult arrests and juvenile arrests. Numerator: Number of total arrests for liquor law violations Denominator: Total Arkansas population	Total arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. ACIC did not receive data from Montgomery County in 2022 and 2021, Montgomery and Newton County in 2020, and Hot Spring and Montgomery County in 2019. Availability: 2004–2024
Community Domain: Extreme Economic Deprivation			
Unemployment	Number/Percentage	An estimate of the number of persons who were able to work and available for work and (1) were looking for work, or (2) would have looked for work except that (a) they were waiting to return to a job from which they were laid off, or (b) they were waiting to report to a new job. The rate is expressed as a percentage of the civilian labor force. Numerator: Number of persons unemployed Denominator: Number of persons in the civilian labor force (sum of all employed and unemployed persons 16 years of age or older)	U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics: Public Data Query Data available by calendar year. Availability: 1990–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Children eligible for free or reduce price lunches	Number/Rate	Number of children eligible to participate in the National and State Free and Reduced Lunch Program and rate per 1,000 total public school student enrollment Numerator: Number of children eligible for free or reduced priced lunches Denominator: Total Arkansas public school enrollment	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 1990–2024
Children receiving Transitional Employment Assistance (TEA)	Number/Rate	Number of participants in the Transitional Employment Assistance (TEA) program and rate per 1,000 population 0–17 years of age Numerator: Number of participants in TEA Denominator: Arkansas population 0-17 years of age	TEA: Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report Data available by state fiscal year Population: U.S. Census Bureau, Population Division. Availability: 1997–2024
Children receiving food stamps (SNAP)	Number/Rate	Number of children 0–18 years of age who receive SNAP benefits and rate per 1,000 population 0–18 years of age. SNAP refers to the Supplemental Nutrition Assistance Program. Numerator: Number receiving SNAP benefits Denominator: Arkansas population 0-18 years of age Note: Due to changes in census data, the denominator is no longer available as of 2020. For 2021 and beyond, only a number will be reported.	SNAP: Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report Data available by state fiscal year Population: U.S. Census Bureau, Population Division. Availability: 1997–2024
Infant mortality	Number/Rate	Number of deaths to infants less than one year of age and rate per 1,000 live births Numerator: Number of infant deaths Denominator: Number of live births	Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year Notes: Data is masked if total is less than 10. Also, state and regional data is not available in 2021. Availability: 1990–2024
Community Domain: Transitions and Mobility			
New home construction	Number/Rate	Average yearly number of new building permits issued for single and multifamily dwellings and rate per 1,000 population Numerator: Number of new building permits issues Denominator: Total Arkansas population	Building permits: U.S. Bureau of the Census, State/County Permit Authorized Construction in Permit Issuing Places Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 1990–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Renter occupied housing units	Number/Rate	All occupied units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter-occupied. A housing unit is owner occupied if the owner or co-owner lives in the unit even it is mortgaged or not fully paid for. Rate is per 1,000 total occupied housing units Numerator: Number of renter-occupied housing units Denominator: Number of total occupied housing units	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
Homeless children enrolled in public school	Number/Rate	Students enrolled in public school who lack a fixed, regular, and adequate place of residence. In general, children and youth living in welfare motels, hotels, transitional housing shelters, the streets, cars, camping grounds temporarily, abandoned buildings, are “doubled up” with other families because of a loss of housing or similar situations, and other inadequate accommodations are considered homeless. Rate is per 1,000 public school enrollment, pre-K through grade 12. Numerator: Number of students who are homeless Denominator: Public school enrollment, pre-K through grade 12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 1990–2024
Net migrants to Arkansas	Number/Percentage	Number of new residents moved into an area minus the number of residents move out of an area. Rate is the percent of the total population. Numerator: Number of new residents moved into an area minus resident moved out of an area Denominator: Total Arkansas population	Net migration: Population Estimates Program, Population Division, U.S. Bureau of the Census Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2013–2017, 2014– 2018, 2015–2019, and 2016–2020 ACS 5-year estimates and U.S. Census Bureau, Population Division for 2021, 2022, 2023, and 2024.
School Domain: Academic Failure			
High school dropouts	Number/Percentage	Public school students withdrawing from school in grades 7–12 from October 31 of one school year through October 31 of the next year given for one of the following reasons: failing grades, suspended or expelled, lack of interest, conflict with school, economic hardship, pregnancy/ marriage, peer conflict, enrolled in GED, alcohol/drugs, health problems, or other. Rate is a percentage of all public school students enrolled in grades 7–12 as of October 1 of the previous year. Numerator: Number of public school students in grades 7–12 withdrawing from school Denominator: Public school enrollment in grades 7–12 of previous year	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 1990–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Status dropouts	Number/Percentage	Number and percentage of the population 18–24 years who have not completed high school. Numerator: Total number of persons 18–24 years who have not completed high school Denominator: Arkansas population 18–24 years	Status dropouts: U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Population: U.S. Census Bureau, Population Division. Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
School Domain: Lack of Commitment to School			
Dropouts for “lack of interest”	Number/Percentage	Public school students withdrawing from school for “Lack of Interest” in grades 7–12 from October 31 of one school year through October 31 of the year given. Rate is the percentage of public school students enrolled in grades 7–12 as of October 1 of the previous year. Numerator: Number of public school students in grades 7–12 withdrawing from school for “lack of interest” Denominator: Public school enrollment in grades 7–12 of previous year	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 1999–2024
Family Domain: Family Conflict			
Victims of child maltreatment	Number/Rate	Number of victims of child maltreatment relating to abuse and neglect from cases founded by the Division of Children and Family Services (DCFS) or Suspected Child Abuse and Neglect (SCAN) and rate per 1,000 population 0–17 years of age. Numerator: Number of victims of child maltreatment Denominator: Arkansas population 0–17 years of age	Child maltreatment: Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report. Data available by state fiscal year Population: U.S. Census Bureau, Population Division. Availability: 1991–2024
Children living in foster care	Number/Rate	Average daily number of children 0–17 years of age in state-supervised, family-based foster care by fiscal year and rate per 1,000 children 0–17 years of age. Numerator: Number of children 0–17 years of age living in state-supervised, family-based foster care Denominator: Arkansas population 0–17 years of age	Foster care: Arkansas Department of Human Services, Division of Administrative Services, Annual Statistical Report Data available by state fiscal year Population: U.S. Census Bureau, Population Division. Availability: 1995–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Divorces and annulments	Number/Rate	Number of divorces and annulments and rate per 1,000 population. Numerator: Number of divorces and annulments occurring in Arkansas Denominator: Total Arkansas population	Divorces/Annulments: Arkansas Department of Health, Health Statistics Branch Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 1990–2024
Family Domain: Family History of High Risk Behavior			
Educational attainment: Below 9th grade	Number/Percentage	Number and percentage of total population 25 years of age or older completing less than 9th grade Numerator: Arkansas population 25 years and older completing less than 9th grade Denominator: Arkansas population 25 years and older	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
Educational attainment: 9th–12th grade, no diploma	Number/Percentage	Number and percentage of total population 25 years of age or older completing grades 9–12 with no diploma. Numerator: Arkansas population 25 years and older completing 9th–12th grade with no diploma Denominator: Arkansas population 25 years and older	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
Educational attainment: High school graduate	Number/Percentage	Number and percentage of total population 25 years of age or older who graduated high school. Includes equivalency. Does not include those with some college or college graduates. Numerator: Arkansas population 25 years and older with completed high school with a diploma or equivalency Denominator: Arkansas population 25 years and older	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
Educational attainment: Some college	Number/Percentage	Number and percentage of total population 25 years of age and older completing some college with no degree. Numerator: Arkansas population 25 years and older who completed some college with no degree. Denominator: Arkansas population 25 years and older	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.
Educational attainment: College graduate	Number/Percentage	Number and percentage of total population 25 years of age and older who are college graduates. Includes associate degrees, bachelor's degrees, and graduate degrees. Numerator: Arkansas population 25 years and older who are college graduates Denominator: Arkansas population 25 years and older	U.S. Bureau of the Census, Decennial Census of Population and Housing; American Community Survey (ACS) 5-year estimates Availability: 2014– 2018, 2015–2019, 2016–2020, 2017–2021, 2018–2022, 2019–2023, and 2020–2024 ACS 5-year estimates.

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Births to women with <12 years of education	Number/Rate	Number of births to women with fewer than 12 years of education and rate per 1,000 live births. Numerator: Number of births to women with fewer than 12 years of education Denominator: Total live births to Arkansas residents	Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year Availability: 1990–2024
Births to women using tobacco during pregnancy	Number/Rate	Number of births to women who reported using tobacco during their pregnancy and rate per 1,000 live births. Numerator: Number of births to women using tobacco during their pregnancy Denominator: Total live births to Arkansas residents	Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year Availability: 2000–2024
Peer/Individual Domain: Alienation, Rebelliousness			
Adolescent suicide	Number/Rate	Number of suicides reported for persons 10–17 years of age and rate per 100,000 population 10–17 years of age. Numerator: Number of suicided to individuals 10-17 years of age Denominator: Arkansas population 10–17 years of age	Arkansas Department of Health, Health Statistics Branch Data available by calendar year Population: U.S. Census Bureau, Population Division. Notes: Data is masked if total is less than 10. Also, state and regional data is not available in 2021. Availability: 1990–2024
Peer/Individual Domain: Early Initiation of Problem Behavior			
School alcohol infractions	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student enrolled in a public elementary, middle, or high school after a violation of school alcohol policy and rate per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of violation of school alcohol policy by a student enrolled in a public school from grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024
School drug infractions	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school after a violation of school drug policy and rate per 1,000 total elementary, middle and junior high school enrollment. Does not include tobacco infractions. Numerator: Number of cases of violation of school drug policy by a student in grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
School tobacco/e-cigarette/vaping infractions	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school after a violation of school tobacco/e-cigarette/vaping policy and rate per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of violation of school tobacco policy by a student in grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024 Prior to 2019, this data does not include e-cigarette/vaping infractions.
School assaults on students or staff	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school after an assault on a student or staff member. Rate is per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of assault on a student or staff member by a student in grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024
School weapons/explosives infractions	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school after a violation of school policy regarding knives, handguns, rifles, shotguns, clubs, and explosives. Rate is per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of violation of school weapons/explosives policy by a student in grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024
School vandalism	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school for vandalism. Rate is per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of school vandalism by a student in grades K-12 Denominator: Total grade public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
School gang involvement	Number/Rate	Number of cases in which punitive action is taken by the school authority or court authority to reprimand the student in elementary, middle, or junior high school for violation of school policy regarding gang involvement. Rate is per 1,000 total elementary, middle and junior high school enrollment. Numerator: Number of cases of violation of school policy regarding gang involvement by a student in grades K-12 Denominator: Total public school enrollment in grades K-12	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by state fiscal year Availability: 1999–2024
Peer/Individual Domain: Peers Who Engage in Problem Behavior			
Adolescent pregnancy	Number/Rate	Number of pregnancies (births plus abortions plus fetal deaths) to females 10–17 years of age and rate per 1,000 females 10–17 years of age. Numerator: Number of pregnancies to females 10–17 years of age Denominator: Female population 10–17 years of age	Pregnancies: Arkansas Department of Health, Health Statistics Branch Data available by calendar year Population: U.S. Census Bureau, Population Division. Notes: Data is masked if total is less than 10. Also, state and regional data is not available in 2021. Availability: 1995–2024
Births to mother age 10–17	Numbe/Rate	Number of live births to females 10–17 years of age and rate per 1,000 females 10–17 years of age. Numerator: Number of live births to females 10–17 years of age Denominator: Female population 10–17 years of age	Births: Arkansas Department of Health, Health Statistics Branch, Health Query System Data available by calendar year Population: U.S. Census Bureau, Population Division. Notes: Data is masked if total is less than 10. Also, state and regional data is not available in 2021. Availability: 1990–2024
Students leaving school for incarceration	Number/Rate	The number of reported students withdrawing from school due to incarceration. The rate is per 1,000 of all students enrolled in grades 7–12 as of October 1 of the previous year. Numerator: Number of students withdrawing from grades 7–12 due to incarceration Denominator: Number of students enrolled in grades 7–12 in the previous year	Arkansas Department of Education, Statewide Information System as reported through the Arkansas Public School Computer Network Data available by federal fiscal year Availability: 2001–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Juvenile rate of use for e-cigarettes/vape devices**	Rate	Percent of juveniles who report regularly using e-cigarettes/vape devices. Raw data was not available for this measure, so indicator is only available at the county and state level.	Arkansas Prevention Needs Assessment Data available by state fiscal year Availability: 2015–2024 The following counties did not participate in APNA: Calhoun, Dallas, Desha and Prairie (2019); Calhoun, Chicot, Cleveland, Columbia, Crawford, Crittenden, Lafayette, Lee, Lincoln, Logan, Monroe, Newton, Perry, Phillips, Pike, Prairie, Searcy, Sevier, Woodruff, and Yell (2020); Calhoun, Cleburne, Crawford, Crittenden, Drew, Lafayette, Lee, Monroe, Newton, Perry, Pike, Prairie, St. Francis, Woodruff (2021); Arkansas, Calhoun, Clay, Cleveland, Crawford, Crittenden, Grant, Lafayette, Lee, Lincoln, Lonoke, Monroe, Phillips, Pike, Prairie, St. Francis, Woodruff, Yell (2022); Bradley, Calhoun, Cleburne, Cleveland, Columbia, Crawford, Crittenden, Dallas, Drew, Grant, Lafayette, Lee, Lincoln, Lonoke, Miller, Monroe, Perry, Phillips, Pike, Poinsett, Prairie, Randolph, St. Francis, Yell (2023), Arkansas, Calhoun, Cleveland, Columbia, Crawford, Crittenden, Dallas, Desha, Drew, Grant, Hempstead, Jackson, Lafayette, Lee, Lincoln, Monroe, Ouachita, Perry, Phillips, Pike, Poinsett, Prairie, St. Francis, Woodruff, Yell (2024).
Juvenile arrests for drugs/narcotics	Number/Rate	Number of juvenile arrests for drug law violations and rate per 1,000 population 10–17 years of age. Drug law violations include possession, sale, use, growing, and manufacturing of illegal drugs. Numerator: Number of juvenile (10–17 years of age) arrests for drug law violations Denominator: Arkansas population 10–17 years of age	Juvenile arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. Newton County and Montgomery County did not report in 2020. Montgomery county did not report in 2021 and 2022. Availability: 2005–2024
Juvenile arrests for cannabis	Number/ Rate	Number of juvenile arrests for cannabis law violations and rate per 1,000 population 10–17 years of age. Cannabis violations include possession, sale, use, and growing of cannabis. Numerator: Number of juvenile (10–17 years of age) arrests for cannabis law violations Denominator: Arkansas population 10–17 years of age	Juvenile arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. Newton County and Montgomery County did not report in 2020. Montgomery county did not report in 2021 and 2022. Availability: 2019–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE

DUI refers to driving or operating any vehicle or common carrier while under the influence of alcohol or narcotics. Numerator: Number of juvenile (10–17 years of age) arrests for DUI Denominator: Arkansas population 10–17 years of age	Juvenile arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Population: U.S. Census Bureau, Population Division. Newton County and Montgomery County did not report in 2020. Montgomery county did not report in 2021 and 2022. Availability: 2019–2024
Juvenile arrests for drunkenness	Number/Rate	Number of juvenile arrests for public drunkenness and rate per 1,000 population 10–17 years of age. Numerator: Number of juvenile (10–17 years of age) arrests for public drunkenness Denominator: Arkansas population 10–17 years of age Note: Drunkenness was removed from group B arrests by the FBI in 2024; therefore, no drunkenness data is available in NIBRS for that year.	Juvenile arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Newton County and Montgomery County did not report in 2020. Montgomery county did not report in 2021 and 2022. Availability: 2019–2023
Juvenile arrests for liquor law violations	Number/Rate	Number of juvenile arrests for violations of liquor laws and rate per 1,000 population 10–17 years of age. Numerator: number of juvenile (10–17 years of age) arrests for liquor law violations Denominator: Arkansas population 10–17 years of age	Juvenile arrests: Arkansas Crime Information Center, Arkansas Crime Statistics; Reported through the National Incident-Based Reporting System (NIBRS) Data available by calendar year Newton County and Montgomery County did not report in 2020. Montgomery county did not report in 2021 and 2022. Availability: 2019–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Consequences Domain: Public Health/Safety Outcomes			
Sexually transmitted diseases	Number/Rate	Number of reported cases of gonorrhea, chlamydia, and syphilis cases and rate per 1,000 population. Numerator: Number of reported cases of gonorrhea, chlamydia and syphilis Denominator: Total Arkansas population	STI Cases: Arkansas Department of Health, HIV-AIDS-STI Surveillance, STI Annual Report Data available by calendar year Population: U.S. Census Bureau, Population Division. NOTE ABOUT MASKING: For some counties, the individual components of this indicator (cases of gonorrhea, chlamydia, and syphilis) are masked if total is less than 10. Therefore, the total listed might be slightly lower than the true total. Notes: Data is masked if total is less than 10 Availability: 2018–2023
Total HIV/AIDS cases	Number/Rate	Number of new reported cases of HIV/AIDS rate per 1,000 population. Numerator: Number of new reported cases of HIV/AIDS Infection Denominator: Total Arkansas population	HIV/AIDS Cases: Arkansas Department of Health, HIV-AIDS-STI Surveillance, HIV Surveillance Annual Report Data available by calendar year Population: U.S. Census Bureau, Population Division. Notes: Data is masked if total is less than 10 Availability: 2018–2024
Alcohol- or drug-related traffic injuries	Number/Rate	The number of traffic injuries related to alcohol or other drugs and rate per 1,000 population. Numerator: Number of traffic injuries related to alcohol or other drugs Denominator: Total Arkansas population	Traffic injuries: Arkansas State Police, Highway Safety Office Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2019–2024
Alcohol- or drug-related traffic fatalities	Number/Rate	The number of traffic fatalities related to alcohol or other drugs and rate per 1,000 population. Numerator: Number of traffic fatalities related to alcohol or other drugs Denominator: Total Arkansas population	2015–2017 traffic fatalities: Arkansas State Police, Highway Safety Office 2018-2019 traffic fatalities: U.S. Department of Transportation, National Highway Traffic Safety Administration Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2019–2024

INDICATOR	TYPE	DESCRIPTION	DATA SOURCE
Alcohol- or drug-related traffic crashes	Number/Rate	The number of traffic accidents related to alcohol or other drugs and rate per 1,000 population. Numerator: Number of traffic accidents related to alcohol or other drugs Denominator: Total Arkansas population	Traffic accidents: Arkansas State Police, Highway Safety Office Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2019–2024
Crash injuries and deaths: Underage drinking drivers	Number/Rate	Number of traffic injuries and fatalities related to underage drinking drivers and rate per 1,000 population less than 21 years of age. Numerator: Number of traffic injuries and fatalities in traffic accidents in which any of the involved drivers was under 21 and under the influence of alcohol Denominator: Arkansas population less than 21 years of age	Traffic injuries/fatalities: Arkansas State Police, Highway Safety Office Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2019–2024
Traffic crashes involving underage drinking drivers	Number/Rate	Number of traffic accidents related to underage drinking drivers and rate per 1,000 population less than 21 years of age Numerator: Number of traffic accidents in which any of the involved drivers was less than 21 years of age and under the influence of alcohol Denominator: Arkansas population less than 21 years of age	Traffic accidents: Arkansas State Police, Highway Safety Office Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 2019–2024
Lung cancer deaths	Number/Rate	Number of deaths from malignant neoplasms of trachea, bronchus, and lung and rate per 100,000 population. Malignant neoplasms of trachea, bronchus, and lung are identified using ICD-10 codes C33-C34. Numerator: Number of deaths to Arkansas residents from malignant neoplasms of trachea, bronchus, or lung Denominator: Total Arkansas population	Lung cancer deaths: Arkansas Department of Health, Vital Statistics Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 1990–2024
Deaths from alcoholic liver disease	Number/Rate	Number of deaths from alcoholic liver disease and rate per 100,000 population. Deaths from alcoholic liver disease are identified using ICD-10 code K70. Numerator: Number of deaths to Arkansas residents from alcoholic liver disease Denominator: Total Arkansas population	Alcoholic liver disease deaths: Arkansas Department of Health, Vital Statistics Data available by calendar year Population: U.S. Census Bureau, Population Division. Availability: 1990–2024

**New addition starting with the 2020 Risk Factors report. Data was retroactively collected for past years when available.

Due to lack of data for past years’ reports, the following indicators were deleted starting with the 2020 Risk Factors report: residences without complete kitchen or plumbing, renter-occupied housing units percent of 4th graders below grade level in math, percent of 4th graders below grade level in literacy, children living with relatives other than parents, children living with non-relatives, children in single-parent families and births to women using alcohol during pregnancy.
